Intervention and State Sovereignty in Central Europe, 1500-1780 Patrick Milton,2023-02-09 Interventions in other states on behalf of their populations is often portrayed as a novel phenomenon in state practice, one which breaches the old principle of sovereignty. But is this really a new practice? Patrick Milton argues that such interventions occurred frequently as far back as the 16th, 17th, and 18th centuries.

Wellbeing: A Complete Reference Guide, Interventions and Policies to Enhance Wellbeing Felicia A. Huppert,Cary Cooper,2014-03-17 Interventions and Policies to Enhance Wellbeing Wellbeing: A Complete Reference Guide is the first multivolume, interdisciplinary exploration of the topic of wellbeing. The notion of wellbeing has grown in importance and prominence across the globe in recent years and this reference work provides an in-depth examination of the characteristics that enable individuals and organizations to thrive and flourish. Under the direction of noted academic Cary Cooper, and edited by a distinguished group of senior scholars from a variety of disciplines, this project looks at wellbeing from multiple perspectives, including children and families; the environment; the workplace; later life; economics; and interventions and public policy. Spanning the social sciences and encompassing the latest research, this is an essential reference for scholars, students, professionals, and policy makers who want to enhance and promote human wellbeing. Interventions and Policies to Enhance Wellbeing looks at the most successful existing strategies to promote wellbeing and mental health. It examines the latest research in the science of wellbeing and discusses the practical implications for

improved learning, creativity, productivity, relationships, and health. The first two sections cover interventions for individuals across the lifespan, as well as those for organizations and communities. The final section looks specifically at policy initiatives and approaches, with a focus on the integration of new technology and the role of the media. In this multidisciplinary volume, a cadre of global scholars considers a wealth of new research and outlines the potential impact on future policy and the wellbeing of society at large. COMMIT (Community Intervention Trial for Smoking Cessation) has 22 communities comprising 12 treatments & 11 controls. Parenting and Family Processes in Child Maltreatment and Intervention Douglas M. Teti, 2016-11-26 This clear-sighted reference offers a transformative new lens for understanding the role of family processes in creating — and stopping — child abuse and neglect. Its integrative perspective emphasizes the interconnectedness of forms of abuse, the diverse mechanisms of family violence, and a child/family-centered, strengths-based approach to working with families. Chapters review evidence-based interventions and also model collaboration between family professionals for effective coordination of treatment and other services. This powerful ecological framework has major implications for improving assessment, treatment, and prevention as well as future research on child maltreatment. Included among the topics: • Creating a safe haven following child maltreatment: the benefits and limits of social support. • “Why didn’t you tell?” Helping families and children weather the process following a sexual abuse disclosure. • Environments recreated: the unique struggles of children born to abused mothers. • Evidence-based intervention: trauma-focused cognitive behavioral therapy for children and families. • Preventing the intergenerational transmission of child maltreatment through relational interventions. • Reducing the risk of child maltreatment: challenges and opportunities. Professionals and practitioners particularly interested in family processes, child maltreatment, and developmental psychology will find *Parenting and Family Processes in Child Maltreatment and Intervention* a major step forward in breaking entrenched abuse cycles and keeping families safe.

Jesuits at the Margins Alexandre Coello de la Rosa,2015-12-07 In the past decades historians have interpreted early modern Christian missions not simply as an adjunct to Western imperialism, but a privileged field for cross-cultural encounters. Placing the Jesuit missions into a global phenomenon that emphasizes economic and cultural relations between Europe and the East, this book analyzes the possibilities and limitations of the religious conversion in the Micronesian islands of Guåhan (or Guam) and the Northern Marianas. Frontiers are not rigid spatial lines separating culturally different groups of people, but rather active agents in the transformation of cultures. By bringing this local dimension to the fore, the book adheres to a process of missionary “glocalization” which allowed Chamorros to enter the international community as members of Spain’s regional empire and the global communion of the Roman Catholic Church.

It includes frank discussions of Harrow's financial, educational, and sexual scandals along with a survey of its many great moments as the school of Byron, Churchill (and six other prime ministers), and Nehru.
