Water Hyacinth in Africa and the Middle East Luis A. Navarro, George Yobe Kanyama-Phiri, 2000 Water Hyacinth in Africa and the Middle East: A Survey of Problems and Solutions

Ödınanı Emmanuel Kaanaenechukwu Anizoba, 2008 God in manifestation is, like the Army, a Host of fashioning Powers or Gods. Prayer to a God yields immediate results, while prayer to God yields nothing.

To Cook a Continent Nnimmo Bassey, 2012 Arguing that the climate crisis confronting the world today is rooted mainly in the wealthy economies' abuse of fossil fuels, indigenous forests, and global commercial agriculture, this important book investigates how Africa has been exploited and how Africans should respond for the good of all. As it examines the oil industry in Africa and probes the causes of global warming, this record warns of its insidious impacts and explores false solutions. Demonstrating that the issues around natural resource exploitation, corporate profiteering, and climate change must be considered together if the planet is to be saved, the book suggests how Africa can overcome the crises of environment and global warming.

*Religion and the Making of Nigeria* Olufemi Vaughan, 2016-11-10 In *Religion and the Making of Nigeria*, Olufemi Vaughan examines how Christian, Muslim, and indigenous religious structures have provided the essential social and ideological frameworks for the construction of contemporary Nigeria. Using a wealth of archival sources and extensive Africanist scholarship, Vaughan traces Nigeria's social, religious, and political history from the early nineteenth century to the present. During the nineteenth century, the historic Sokoto Jihad in today's northern Nigeria and the Christian missionary movement in what is now southwestern Nigeria provided the frameworks for ethno-religious divisions in colonial society. Following Nigeria's independence from Britain in 1960, Christian-Muslim tensions became manifest in regional and religious conflicts over the expansion of sharia, in fierce competition among political elites for state power, and in the rise of Boko Haram. These tensions are not simply conflicts over religious beliefs, ethnicity, and regionalism; they represent structural imbalances founded on the religious divisions forged under colonial rule.

*The Man Died*, 1985

Urban Policy and Economic Development, 1991 Rapid demographic growth will add 600 million people to cities and

towns in developing countries during the 1990s, about two-thirds of the expected total population increase. Of the world's 21 megacities, which will expand to have more than 10 million people, 17 will be in developing countries. With urban economic activities making up an increasing share of GDP in all countries, the productivity of the urban economy will heavily influence economic growth. This paper analyzes the fiscal, financial, and real sector linkages between urban economic activities and macroeconomic performance. It builds on this analysis to propose a policy framework and strategy that will redefine the urban challenge in developing countries. ISBN10: 0-8213-1816-0 ISBN13: 978-0-8213-1816-4

*Curriculum Overload A Way Forward* OECD,2020-11-25 Schools are constantly under pressure to keep up with the pace of changes in society. In parallel, societal demands for what schools should teach are also constantly changing; often driven by political agendas, ideologies, or parental pressures, to add global competency, digital literacy, data literacy, environmental literacy, media literacy, social-emotional skills, etc. This “curriculum expansion” puts pressure on policy makers and schools to add new contents to already crowded curriculum.

Liberia's Civil War Adekeye Adebajo,2002 This text aims to unravel the tangled web of the conflict by addressing questions including: why did Nigeria intervene in Liberia and remain committed throughout the seven-year civil war?; and to what extent was ECOMOG's intervention shaped by Nigeria's hegemonic aspirations.

**The Prodigy Slave, Book One** Londyn Skye,2020-11 At the age of nine, Lily is forcefully torn from her mother's arms and sold at a Negro auction by her master, a man that Lily learns that day is her very own father. Seeking solace from such devastation, Lily secretly begins teaching herself to play her new master's piano: an instrument that she is forbidden from touching. Lily becomes an extraordinary pianist and gets away with secretly playing for fourteen years until the master's son, James, discovers her deceit. The punishment that James gives Lily starts her on an unprecedented journey that dramatically alters her life and influences the lives of thousands, including a man with great power. Lily's groundbreaking journey also unveils the secret altruistic love of a particular man who has been forbidden from expressing his love to her for years. But the question remains whether or not the strength of his love will be powerful enough to free Lily from the shackles of slavery and protect her dreams and her life while on her turbulent Journey to Winter Garden.

**Plant Genetics and Biotechnology** Edgar Crombie,2019-06-18 Plant biotechnology is the science of developing methods of genetic modification in plants to achieve certain desired characteristics. Genetic modification is the altering of

plants' genetic traits by manipulating genes. In recent years, plant breeders have developed innovative methods of genetic modification for increased crop yield. The techniques related to this field have applications across a number of scientific fields such as plant physiology, botany, agronomy, plant biochemistry, plant pathology, etc. This book presents upcoming concepts and theories related to the fields of plant biotechnology and genetics. It strives to provide a fair idea about this discipline and to help develop a better understanding of the latest advances within this field. **Convicted but Innocent** C. Ronald Huff,Arye Rattner,Edward Sagarin,1996-01-23 Addressing the specific issues surrounding wrongful convictions and their implications for society, *Convicted but Innocent* includes: survey data concerning the possible magnitude of the problem and its causes; fascinating actual case samples; detailed analyses of the major factors associated with wrongful conviction; discussion of public policy implications; and recommendations for reducing the occurrence of such convictions. The authors maintain that while no system of justice can be perfect, a focus on preventable errors can substantially reduce the number of current conviction injustices.
