Religion and the Making of Nigeria Olufemi Vaughan, 2016-11-18 In Religion and the Making of Nigeria, Olufemi Vaughan examines how Christian, Muslim, and indigenous religious structures have provided the essential social and ideological frameworks for the construction of contemporary Nigeria. Using a wealth of archival sources and extensive Africanist scholarship, Vaughan traces Nigeria's social, religious, and political history from the early nineteenth century to the present. During the nineteenth century, the historic Sokoto Jihad in today's northern Nigeria and the Christian missionary movement in what is now southwestern Nigeria provided the frameworks for ethno-religious divisions in colonial society. Following Nigeria's independence from Britain in 1960, Christian-Muslim tensions became manifest in regional and religious conflicts over the expansion of sharia, in fierce competition among political elites for state power, and in the rise of Boko Haram. These tensions are not simply conflicts over religious beliefs, ethnicity, and regionalism; they represent structural imbalances founded on the religious divisions forged under colonial rule.

To Cook a Continent Nnimmo Bassey, 2012 Arguing that the climate crisis confronting the world today is rooted mainly in the wealthy economies' abuse of fossil fuels, indigenous forests, and global commercial agriculture, this important book investigates how Africa has been exploited and how Africans should respond for the good of all. As it examines the oil industry in Africa and probes the causes of global warming, this record warns of its insidious impacts and explores false solutions. Demonstrating that the issues around natural resource exploitation, corporate profiteering, and climate change must be considered together if the planet is to be saved, the book suggests how Africa can overcome the crises of environment and global warming.

Oxygen Transport to Tissue XXVI Paul Okunieff, Jacqueline P. Williams, Yuhchyan Chen, 2006-06-18 The International Society of Oxygen Transport to Tissue (ISOTT) was founded in 1973 to provide a forum for bioengineers, basic scientists, physiologists, and physicians to discuss new data, original theories, new interpretations of old data, and new technologies for the measurement of oxygen. At each annual meeting all posters are presented orally along with plenary lectures, and all

presentations are given in a general session attended by everyone. Each meeting has had a specific focus, ranging from neonatology to physical chemistry to cancer biology. The Society has helped to build many careers, through opportunities to meet leaders in the field, and through awards made to young physicians and scientists. The Society also, through cross fertilization of ideas and scientific comradery, has inspired many breakthroughs in clinical medicine that now benefit mankind. I find myself president of the society after having been a winner of the Melvin Knisely Award for young scientists, in 1991. The 2003 meeting emphasized the role of oxygen and oxygen measurement in tumor growth, metastasis, physiology, and treatment resistance. Additionally, however, completely novel approaches to measurement of tissue oxygen were presented (notably work by Dr. Takahashi) and molecular methods for estimating tissue oxygen were evaluated. Papers discussing other aspects of oxygen measurement and pathophysiology were presented including in vivo ESR spectroscopy (notably including Dr. Swartz and colleagues), exercise physiology, organ transplant outcome (discussed by Dr. Cicco, our 2004 president), circulatory physiology, and cerebral oxygenation (notably including Dr. Chance).

Meanwhile, in another place, Physics student Gary Jackson finds himself in prison for a murder he has no memory of committing. Can the dreamer help the student get acquitted for a murder everyone saw him commit? Or will Gary spend his life in prison for someone else's crime?

Curriculum Overload A Way Forward OECD,2020-11-25 Schools are constantly under pressure to keep up with the pace of changes in society. In parallel, societal demands for what schools should teach are also constantly changing; often driven by political agendas, ideologies, or parental pressures, to add global competency, digital literacy, data literacy,

environmental literacy, media literacy, social-emotional skills, etc. This “curriculum expansion” puts pressure on policy makers and schools to add new contents to already crowded curriculum.

Liberia's Civil War Adekeye Adebajo, 2002 This text aims to unravel the tangled web of the conflict by addressing questions including: why did Nigeria intervene in Liberia and remain committed throughout the seven-year civil war?; and to what extent was ECOMOG's intervention shaped by Nigeria's hegemonic aspirations.

POLITICAL CORRECTNESS AND SUBVERSION (The Second Edition) MURAT SENGÖZ, 2022-04-14 When the society does not speak the truth, then the voice of the devil can be perceived so as truth. When the truth is expressed in society, peace and solidarity increase in that society. The truth does not want any other translation and always speaks for the sake of goodness. If honesty and virtue have been exalted and prevail in a society, then falsehood, and fraud can be ruled out. Maybe society can be deceived with lies for a while, but surely the truth will always win at the end of the story. When truth becomes dominant in a society, the dissolution ends and the peace settles. Therefore, in this study, the relationship between individual, society, and political power is tried to be explained by the paradigm and norms of axiological value philosophy. In essence, philosophy is an ontological effort to explain nature and to understand the reason for existence. In this book, politics is discussed in the context of individual and social responsibility, thoughts related to political correctness and subversion are tried to be explained through the components of political philosophy.

Convicted but Innocent C. Ronald Huff, Arye Rattner, Edward Sagarin, 1996-01-23 Addressing the specific issues surrounding wrongful convictions and their implications for society, *Convicted but Innocent* includes: survey data concerning the possible magnitude of the problem and its causes; fascinating actual case samples; detailed analyses of the major factors associated with wrongful conviction; discussion of public policy implications; and recommendations for reducing the occurrence of such convictions. The authors maintain that while no system of justice can be perfect, a focus on preventable errors can substantially reduce the number of current conviction injustices.
