**Medical Education for the Future** Alan Bleakley, John Bligh, Julie Browne, 2011-02-21 The purpose of medical education is to benefit patients by improving the work of doctors. Patient centeredness is a centuries old concept in medicine, but there is still a long way to go before medical education can truly be said to be patient centered. Ensuring the centrality of the patient is a particular challenge during medical education, when students are still forming an identity as trainee doctors, and conservative attitudes towards medicine and education are common amongst medical teachers, making it hard to bring about improvements. How can teachers, policy makers, researchers and doctors bring about lasting change that will restore the patient to the heart of medical education? The authors, experienced medical educators, explore the role of the patient in medical education in terms of identity, power and location. Using innovative political, philosophical, cultural and literary critical frameworks that have previously never been applied so consistently to the field, the authors provide a fundamental reconceptualisation of medical teaching and learning, with an emphasis upon learning at the bedside and in the clinic. They offer a wealth of practical and conceptual insights into the three-way relationship between patients, students and teachers, setting out a radical and exciting approach to a medical education for the future. "The authors provide us with a masterful reconceptualization of medical education that challenges traditional notions about teaching and learning. The book critiques current practices and offers new approaches to medical education based upon sociocultural research and theory. This thought provoking narrative advances the case for reform and is a must read for anyone involved in medical education." - David M. Irby, PhD, Vice Dean for Education, University of California, San Francisco School of Medicine; and co-author of *Educating Physicians: A Call for Reform of Medical School and Residency* This book is a truly visionary contribution to the Flexner centenary. It is compulsory reading for the medical educationalist with a serious concern for the future - and for the welfare of patients and learners in the here and now. Professor Tim Dornan, University of Manchester Medical School and Maastricht University Graduate School of Health Professions Education.

*Who's Who in Plastics Polymers, First Edition* James P. Harrington,2000-05-09 This is the first edition of a unique new plastics industry resource: Who's Who in Plastics & Polymers. It is the only biographical directory of its kind and includes contact, affiliation and background information on more than 3300 individuals who are active leaders in this industry and related organizations. The biographical directory is in alphabetical order by individual name. After each individual name, current affiliation and contact information is provided. This includes job title, full name of affiliation (e.g., business, university, association, research institute), business address, and electronic contacts-telephone, fax, e-mail and Web site. Home addresses and contacts are also provided for most of the entries. In the biographical summary section for each individual, the following information is provided: date and place of birth, education and educational achievements, work experience including company or other organization names, positions held and time periods. Also included in this section are the number of patents awarded, articles, and book chapters authored, and conference sessions chaired. Other information includes titles of books edited or written by the individual, listing of conferences where the person had a leadership position, and listing of memberships and positions held in professional organizations. Finally, professional and civic awards are listed. Indexes provide listings of individuals by company or other organization name, and also by geographical location. Who's Who in Plastics & Polymers is now published in a limited edition of 1,000 copies. This edition will not be reprinted. To be sure of receiving your copy, please act now. Information on ordering follows sample pages on the reverse.

*More Than the Truth* Ian Ward,Suzanne Richter,2019-08-07 The inspirational success story of the first 100 years of Hutchinson Builders. What started out as a one-man band in 1912, when an English immigrant builder arrived with his family to start a new life in Australia, has grown into the country's largest privately owned construction company. The Hutchies' story straddles a century that witnessed two world wars, the great depression and tumultuous cycles of financial crises against the back drop of the rough and tumble world of construction. As well as tracking the survival and eventual growth of Hutchies into the dynamic and well respected company of today, the book outlines its evolution through successive generations of Jack Hutchinsons at the helm with a fifth generation poised to take on that role. That story is told by way of a historical account as well as captured through the republication and inclusion of every back issue of Hutchies' Truth, the company's colourful, tabloid-style newsletter covering those years.

Give Sorrow Words Dorothy Judd,2014-02-04 Give Sorrow Words gives an overview of children's attitudes toward death and considers the moral and ethical issues raised by treatments for life-threatening illnesses in children. In this new edition, available for the first time in the United States, Dorothy Judd draws on her increasing experiences with dying children and

their parents to refine and clarify her work as presented in the earlier edition. This book helps readers to make sense out of the irreconcilable tension of embracing death as a part of life and accepting the death of a child. Through her work with Robert, a young boy dying of acute myeloblastic leukemia, Judd helps readers to see anew the need to reconcile the two tensions and to make the necessary decisions for medical care.

*Captain Rock* James S. Donnelly, Jr, 2009-12-15 Named for its mythical leader “Captain Rock,” avenger of agrarian wrongs, the Rockite movement of 1821–24 in Ireland was notorious for its extraordinary violence. In *Captain Rock*, James S. Donnelly, Jr., offers both a fine-grained analysis of the conflict and a broad exploration of Irish rural society after the French revolutionary and Napoleonic wars. Originating in west Limerick, the Rockite movement spread quickly under the impact of a prolonged economic depression. Before long the insurgency embraced many of the better-off farmers. The intensity of the Rockites’ grievances, the frequency of their resort to sensational violence, and their appeal on such key issues as rents and tithes presented a nightmarish challenge to Dublin Castle—prompting in turn a major reorganization of the police, a purging of the local magistracy, the introduction of large military reinforcements, and a determined campaign of judicial repression. A great upsurge in sectarianism and millenarianism, Donnelly shows, added fuel to the conflagration. Inspired by prophecies of doom for the Anglo-Irish Protestants who ruled the country, the overwhelmingly Catholic Rockites strove to hasten the demise of the landed elite they viewed as oppressors. Drawing on a wealth of sources—including reports from policemen, military officers, magistrates, and landowners as well as from newspapers, pamphlets, parliamentary inquiries, depositions, rebel proclamations, and threatening missives sent by Rockites to their enemies—*Captain Rock* offers a detailed anatomy of a dangerous, widespread insurgency whose distinctive political contours will force historians to expand their notions of how agrarian militancy influenced Irish nationalism in the years before the Great Famine of 1845–51.
