**ESG and Responsible Institutional Investing Around the World: A Critical Review** Pedro Matos, 2020-05-29 This survey examines the vibrant academic literature on environmental, social, and governance (ESG) investing. While there is no consensus on the exact list of ESG issues, responsible investors increasingly assess stocks in their portfolios based on nonfinancial data on environmental impact (e.g., carbon emissions), social impact (e.g., employee satisfaction), and governance attributes (e.g., board structure). The objective is to reduce exposure to investments that pose greater ESG risks or to influence companies to become more sustainable. One active area of research at present involves assessing portfolio risk exposure to climate change. This literature review focuses on institutional investors, which have grown in importance such that they have now become the largest holders of shares in public companies globally. Historically, institutional investors tended to concentrate their ESG efforts mostly on corporate governance (the “G” in ESG). These efforts included seeking to eliminate provisions that restrict shareholder rights and enhance managerial power, such as staggered boards, supermajority rules, golden parachutes, and poison pills. Highlights from this section: · There is no consensus on the exact list of ESG issues and their materiality. · The ESG issue that gets the most attention from institutional investors is climate change, in particular their portfolio companies’ exposure to carbon risk and “stranded assets.” · Investors should be positioning themselves for increased regulation, with the regulatory agenda being more ambitious in the European Union than in the United States. Readers might come away from this survey skeptical about the potential for ESG investing to affect positive change. I prefer to characterize the current state of the literature as having a “healthy dose of skepticism,” with much more remaining to be explored. Here, I hope the reader comes away with a call to action. For the industry practitioner, I believe that the investment industry should strive to achieve positive societal goals. CFA Institute provides an exemplary

case in its Future of Finance series ([www.cfainstitute.org/research/future-finance](http://www.cfainstitute.org/research/future-finance)). For the academic community, I suggest we ramp up research aimed at tackling some of the open questions around the pressing societal goals of ESG investing. I am optimistic that practitioners and academics will identify meaningful ways to better harness the power of global financial markets for addressing the pressing ESG issues facing our society.

The History of Greenock Robert Murray Smith,1921

**The Armed Forces Officer** Richard Moody Swain,Albert C. Pierce,2017 In 1950, when he commissioned the first edition of *The Armed Forces Officer*, Secretary of Defense George C. Marshall told its author, S.L.A. Marshall, that American military officers, of whatever service, should share common ground ethically and morally. In this new edition, the authors methodically explore that common ground, reflecting on the basics of the Profession of Arms, and the officer's special place and distinctive obligations within that profession and especially to the Constitution.

**Foundations of the Nazi Police State** George C. Browder,2014-07-11 The abbreviation Nazi, the acronym Gestapo, and the initials SS have become resonant elements of our vocabulary. Less known is SD, and hardly anyone recognizes the combination Sipo and SD. Although Sipo and SD formed the heart of the National Socialist police state, the phrase carries none of the ominous impact that it should. Although no single organization carries full responsibility for the evils of the Third Reich, the SS-police system was the executor of terrorism and population policy in the same way the military carried out the Reich's imperialistic aggression. Within the police state, even the concentration camps could not rival the impact of Sipo and SD. It was the source not only of the desk murderers who administered terror and genocide by assigning victims to the camps, but also of the police executives for identification and arrest, and of the command and staff for a major instrument of execution, the Einsatzgruppen. *Foundations of the Nazi Police State* offers the narrative and analysis of the external struggle that created Sipo and SD. This book is the author's preface to his discussion of the internal evolution of these organizations in *Hitler's Enforcers: The Gestapo and the SS Security Service in the Nazi Revolution*.

**The Social Life of Coffee** Brian Cowan,2008-10-01 What induced the British to adopt foreign coffee-drinking customs in the seventeenth century? Why did an entirely new social institution, the coffeehouse, emerge as the primary place for consumption of this new drink? In this lively book, Brian Cowan locates the answers to these questions in the particularly British combination of curiosity, commerce, and civil society. Cowan provides the definitive account of the origins of coffee drinking and coffeehouse society, and in so doing he reshapes our understanding of the commercial and consumer revolutions in Britain during the long Stuart century. Britain's virtuosi, gentlemanly patrons of the arts and sciences, were profoundly interested in things strange and exotic. Cowan explores how such virtuosi spurred initial consumer interest in

coffee and invented the social template for the first coffeehouses. As the coffeehouse evolved, rising to take a central role in British commercial and civil society, the virtuosi were also transformed by their own invention.

**Dilettanti** Bruce Redford,2008-08-07 Bruce Redford re-creates the vibrant culture of connoisseurship in Enlightenment England by investigating the multifaceted activities and achievements of the Society of Dilettanti. Elegantly and wittily he dissects the British connoisseurs whose expeditions, collections, and publications laid the groundwork for the Neoclassical revival and for the scholarly study of Graeco-Roman antiquity. After the foundation of the society in 1732, the Dilettanti commissioned portraits of the members. Including a striking group of mock-classical and mock-religious representations, these portraits were painted by George Knapp, Sir Joshua Reynolds, and Sir Thomas Lawrence. During the second half of the century, the society's expeditions to the Levant yielded a series of pioneering architectural folios, beginning with the first volume *The Antiquities of Athens* in 1762. These monumental volumes aspired to empirical exactitude in text and image alike. They prepared the way for *Specimens of Antient Sculpture* (1809), which combines the didactic (detailed investigations into technique, condition, restoration, and provenance) with the connoisseurial (plates that bring the illustration of ancient sculpture to new artistic heights). The Society of Dilettanti's projects and publications exemplify the Enlightenment ideal of the gentleman amateur, which is linked in turn to a culture of wide-ranging curiosity.

*Neighbourhood Effects Research: New Perspectives* Maarten van Ham, David Manley, Nick Bailey, Ludi Simpson, Duncan MacLennan, 2011-11-22 Over the last 25 years a vast body of literature has been published on neighbourhood effects: the idea that living in more deprived neighbourhoods has a negative effect on residents' life chances over and above the effect of their individual characteristics. The volume of work not only reflects academic and policy interest in this topic, but also the fact that we are still no closer to answering the question of how important neighbourhood effects actually are. There is little doubt that these effects exist, but we do not know enough about the causal mechanisms which produce them, their relative importance in shaping individual's life chances, the circumstances or conditions under which they are most important, or the most effective policy responses. Collectively, the chapters in this book offer new perspectives on these questions, and refocus

the academic debate on neighbourhood effects. The book enriches the neighbourhood effects literature with insights from a wide range of disciplines and countries.

Directory of Grants in the Humanities, 2002/2003 Grants Program, Jeremy T Miner, 2002 Helping you from your earliest brainstorm to fully funded projects, this essential directory offers countless tips and resources for artists and arts organizations seeking funding for performances, exhibits, residencies, general operations, fellowships, and numerous other program types. Grants are supposed to enable work, not create more of it. You need a guide, a map, and the right tools for the job. Helping you from your earliest brainstorm to fully funded projects, this essential directory offers countless tips and resources for artists and arts organizations seeking funding for performances, exhibits, residencies, general operations, fellowships, and numerous other program types. *Legal Records at Risk* Clare Cowling, 2019 Why do so few institutions in the legal sector have professional records managers or archivists on their staff? This book is the culmination of a three year project by experienced archivist and records managers on private sector legal records at risk in England and Wales. It summarises the work of the Legal Records at Risk (LRAR) project and its predecessors, diagnoses the problems of preservation of archives in the legal sector in England and Wales and outlines a national strategy for such records.
