Problèmes langagiers et apprentissage du philosophe Fayol Meny Inkou Ingoulanguou,2018-08-27 La didactique de philosophie, comparativement aux didactiques des autres disciplines, ne doit pas être un ensemble tout fait de méthodes d'enseignement de la philosophie. Au contraire, elle se doit d'être une interrogation permanente sur deux aspects : comment enseigner la philosophie et quelles sont les difficultés rencontrées lors de l'enseignement de la philosophie ? En d'autres termes, la didactique de philosophie se veut interrogative aussi bien sur les méthodes d'enseignement de la science philosophique et les problèmes relatifs.

Bibliographie de la France ,1985

Reasoning in Physics L. Viennot,2007-05-08 For a meaningful understanding of physics, it is necessary to realise that

this corpus of knowledge operates in a register different from natural thought. This book aims at situating the main trends of common reasoning in physics with respect to some essential aspects of accepted theory. It analyses a great many research results based on studies of pupils and students at various academic levels, involving a range of physical situations. It shows the impressive generality of the trends of common thought, as well as their resistance to teaching. The book's main focus is to underline to what extent natural thought is organised. As a result of this mapping out of trends of reasoning, some suggestions for teaching are presented; these have already influenced recent curricula in France. This book is intended for teachers and teacher trainers principally, but students can also benefit from it to improve their understanding of physics and of their own ways of reasoning.

Un grand lycée de province Jean Guiffan, Joël Barreau, Jean-Louis Liters, 1981-12-31T23:00:00+01:00 Le « Grand Lycée » de Nantes a été un de ces établissements publics, qui ont joué un rôle important dans la vie culturelle et sociale des XIXe et XXe siècles. À travers son histoire, depuis sa création par Napoléon 1er, c'est aussi l'histoire de l'enseignement public, qui est ici présentée de façon concrète et vivante. Histoire d'autant plus significative, que le lycée de Nantes a été en première ligne dans la « querelle scolaire » particulièrement vive dans la France de l'Ouest. De nombreux écrivains ont évoqué dans leur œuvre leurs souvenirs d'élèves ou de professeurs du lycée de Nantes : Jules Vallès, Charles Le Goffic, Alphonse de Châteaubriant, Marc Elder, Jean Sarment, Julien Gracq, Morvan Lebesque, René-Guy Cadou, Thomas Narcejac. Les plus intéressants de ces textes sont ici présentés sous forme d'anthologie. Enfin, dans cet ouvrage, une place est consacrée à des notes biographiques concernant plusieurs centaines d'anciens élèves ou professeurs, qui ont acquis une grande notoriété : Louis Amieux, le général Boulanger, Aristide Briand, Georges Clemenceau, Tristan Corbière, Jules Grandjouan, Édouard Herriot, Louis Lefèvre-Utile, Maxime Maufra, Olivier Messiaen, Paul Mizan, Marcel Schwob, Jacques Vaché, Jules Verne etc. Les auteurs : Joël Barreau, Jean Guiffan, Jean-Louis Liters.
