The Reception of Jane Austen in Europe Anthony Mandal 2007-10-13 This volume of international research provides a wide-ranging account of Jane Austen's reception across the length and breadth of Europe, from Russia and Finland in the North to Italy and Spain in the South. In historical terms, the survey ranges from the near-contemporary - since Austen's novels were available in French very soon after their original publication - to modern times, in those countries which for various reasons, linguistic, historical or ideological, have taken up the novels only in recent years. For many, Austen's novels are valued for their romantic content, as love stories, but increasingly they are being perceived as sophisticated, ironic narratives. In this, the quality of translation has been a significant factor and the many film and television adaptations have played an important part in establishing Austen's reputation amongst the public at large. It will be seen from this that across Europe Austen's 'reception history' is far from uniform and has been shaped by a complex of extra-literary forces.

Less Translated Languages Albert Branchadell 2005 This is the first collection of articles devoted entirely to less translated languages, a term that brings together well-known, widely used languages such as Arabic or Chinese, and long-neglected minority languages with power as the key word at play. It starts with some views on English, the dominant language in Translation as elsewhere, considers the role of translation for minority languages both a source of inequality and a means to overcome it, takes a look at translation from less translated major languages and cultures, and ends up with a closer look at translation into Catalan, a paradigmatic case of less translated language, in a final section that includes a vindication of six prominent Catalan translators. Combining sound theoretical insight and accurate analysis of relevant case studies, the contributors to this collection make a convincing case for a more thorough examination of less translated languages within the field of Translation Studies.

Dark Vales Raimon Casellas 2014-01-31 The protagonist, Father Latzer, a priest banished for doctrinal heresy to an isolated, backward mountain parish, struggles to achieve personal redemption by bringing salvation to his primitive, taciturn, rural flock. Their mute atavism is disturbed only by the local whore, Footloose, embodying all the forces against which the priest's reforming mission is directed. The action is set in a recognisable time and a landscape which, through the power of Casellas' language, is endowed with a complex complex poetic charge and is as compelling today as when it was written.

The Genesis of Modernism Sven Loevgren 1983

In Translation Paul St-Pierre 2007-01-01 With contributions by researchers from India, Europe, North America and the Caribbean, In Translation Reflects, refractions, transformations touches on questions of method and on topics including copyright, cultural hybridity, globalization, identity construction, and minority languages which are important for the disciplinary development of translation studies but also of interest to other fields as well, most notably comparative literature, cultural studies and world literature. The volume provides a forum for new voices to be heard alongside those of well-established scholars and for current concerns to express themselves, often focusing on practices in areas of the world other than Europe or North America, which have until now tended to dominate the field. Acknowledging difference and celebrating it, the contributions conceive of translation as a process which reconstitutes and transforms, which brings renewal and growth, an interaction in a new context, a new reading, a new writing.

The Middle Sea Viscount John Julius Norwich 2010-08-31 An electrifying narrative history of the Mediterranean from Ancient Egypt to 1919, from the bestselling author of The Popes and Sicily: A Short History The Mediterranean has nurtured three of the most dazzling civilisations of antiquity, witnessed the growth of three of our greatest religions and links three of the world's six continents. John Julius Norwich has visited every country around its shores; now he tells the story of the Middle Sea - a tale that begins with the Pharaohs and ends with the Treaty of Versailles - in a dramatic account of the remarkable civilisations that rose and fell on the lands of the Mediterranean. Expertly researched and ingeniously executed, Norwich takes us through the Arab conquests of Syria and North Africa; the Holy Roman Empire and the Crusades; Ferdinand and Isabella and the Spanish Inquisition; the great sieges of Rhodes and Malta by the Sultan Süleyman the Magnificent; the pirates of the Barbary Coast and the Battle of Lepanto; Nelson and Napoleon; the Greek War of Independence and the Italian Risorgimento. The Middle Sea is colourful, character-driven history at its most enjoyable and is the culmination of John Julius Norwich's distinguished career as one of the greatest enthusiasts for anecdotal history. **Anthropology Through the Looking-Glass** Michael Herzfeld 1987 Despite having emerged in the heyday of a dominant Europe, of which Ancient Greece is the hallowed spiritual and intellectual ancestor, anthropology has paradoxically shown relatively little interest in contemporary Greek culture. In this innovative and ambitious book, Michael Herzfeld moves Greek Ethnography from the margins to the centre of anthropological theory, revealing the theoretical insights that can be gained by so doing. He shows that the ideology that originally led to the creation of anthropology also played a large part in the growth of the modern Greek nation-state, and that Greek ethnography can therefore serve as a mirror for an ethnography of anthropology itself. He further demonstrates the role that scholarly fields, including anthropology, have played in the construction of contemporary Greek culture and Greek identity.

**Studebaker** Patrick Foster 2015-04-22 Studebaker began business as a builder of covered wagons. By 1921 they were the number four automaker in the nation. By 1932 they were bankrupt. And for
Studebaker, one of the most remarkable stories in American automotive history, that was only the beginning. Studebaker: America's Most Successful Independent Automaker tells the full and fabulously colorful history of this icon of the American automotive scene. Rife with triumph and tragedy, brilliant moves and boneheaded decisions, Studebaker's decades of building cars makes for a tempestuous saga featuring some of the more interesting characters in the twentieth-century business world. But, above all, the story features cars that, for countless Americans, truly defined driving: not just the Champion, which rocketed the company back to the top in 1939, or the 1950s Raymond Lowey-designed Starliner, deemed a "work of art" by the Museum of Modern Art, but also the Hawks and Larks that so many drivers loved. As the book traces Studebaker's fortunes from success to crisis to merger and back, it also dwells with loving photographic attention on the vehicles, from the first electric car to the last Avanti.

The Undying Spirit of France Maurice Barrès 1917

The Making of Modern Colombia David Bushnell 1993-02-09 Colombia's status as the fourth largest nation in Latin America and third most populous—as well as its largest exporter of such disparate commodities as emeralds, books, processed cocaine, and cut flowers—makes this, the first history of Colombia written in English, a much-needed book. It tells the remarkable story of a country that has consistently defied modern Latin American stereotypes—a country where military dictators are virtually unknown, where the political left is congenitally weak, and where urbanization and industrialization have spawned no lasting populist movement. There is more to Colombia than the drug trafficking and violence that have recently gripped the world's attention. In the face of both cocaine wars and guerrilla conflict, the country has maintained steady economic growth as well as a relatively open and democratic government based on a two-party system. It has also produced an impressive body of art and literature. David Bushnell traces the process of state-building in Colombia from the struggle for independence, territorial consolidation, and reform in the nineteenth century to economic development and social and political democratization in the twentieth. He also sheds light on the modern history of Latin America as a whole.

Obscure Religious Cults Shashi Bhushan Dasgupta 1995

Sammlung 中上健次 1998 When Kenji Nakagami burst onto the literary scene in the 1970s, he was seen as a breath of fresh air in the stuffy world of Japanese letters. He came from "the Alley", the ghetto world of Japan's underclass that for centuries has been condemned to do "unclean" work. He had left school to work on construction sites, thought of becoming a sumo wrestler, and then, out of the blue, won a major literary prize. The seven stories collected here span the whole range of his writing. Nakagami's birthplace was a mountainous region of dense forests, waterfalls, and remote temples. Nakagami draws on this background in several tales of red-eyed demons and mountain bandits, but he focuses mainly on the
violent lives of his contemporaries: drunks and day laborers, gamblers and battered wives. His prose is
tough, spare, and stylish, making him known to many of his readers as the Japanese Hemingway.

_The Waning of the Mediterranean, 1550-1870_ Faruk Tabak 2008-02-06 Conventional scholarship on the
Mediterranean portrays the Inner Sea as a timeless entity with unchanging ecological and agrarian
features. But, Faruk Tabak argues, some of the "traditional" and "olden" characteristics that we attribute
to it today are actually products of relatively recent developments. Locating the shifting fortunes of
Mediterranean city-states and empires in patterns of long-term economic and ecological change, this
study shows how the quintessential properties of the basin -- the trinity of cereals, tree crops, and small
livestock -- were reestablished as the Mediterranean's importance in global commerce, agriculture, and
politics waned. Tabak narrates this history not from the vantage point of colossal empires, but from that
of the mercantile republics that played a pivotal role as empire-building city-states. His unique
juxtaposition of analyses of world economic developments that flowed from the decline of these city-
states and the ecological change associated with the Little Ice Age depicts large-scale, long-term social
change. Integrating the story of the western and eastern Mediterranean -- from Genoa and the Habsburg
empire to Venice and the Ottoman and Byzantine empires -- Tabak unveils the complex process of
devolution and regeneration that brought about the eclipse of the Mediterranean.

_Uncertain Glory_ Joan Sales 2014-10-02 SPAIN, 1937. Posted to the Aragonese front, Lieutenant Lluís
Ruscalleda eschews the drunken antics of his comrades and goes in search of intrigue. But the lady of
Castel de Olivo - a beautiful widow with a shadowy past - puts a high price on her affections. In
Barcelona, Trini Milmany struggles to raise Lluís' son on her own, letters from the front her only solace.
With bombs falling as fast as the city's morale, she leaves to winter with Lluís' brigade on a quiet section
of the line. But even on 'dead' fronts the guns do not stay silent for long. Trini's decision will put her
family's fate in the hands of Juli Solerás, old friend and traitor of easy conscience, a philosopher-cynic
locked in an eternal struggle with himself. Joan Sales, a combatant in the civil war, distilled his
experiences into a timeless story of thwarted love, lost youth and crushed illusions. A thrilling epic that
has drawn comparison with the work of Dostoevsky and Stendhal, Uncertain Glory is a homegrown
counterpart to classics such as Homage to Catalonia and For Whom the Bell Tolls.
