Legal Status of Non-governmental Organisations in Europe Council of Europe. Committee of Ministers, 2008-01-01
This recommendation covers the creation, functioning and activities of non-governmental organisations (NGOs). it underlines their role in every democratic society and aims at strengthening the legal framework for civil society in Europe. The recommendation's basic principles, applicable to NGOs, mirror and build upon the interpretation of the guarantees of human rights and fundamental freedoms set out in the case law of the European Court of Human Rights. This text, which represents considerable progress in the promotion of the activities of NGOs, places an emphasis on their legal and fiscal framework. it deals in particular with NGOs' objectives and activities, their legal personality, their obligations and responsibilities as well as cases of public support. Aimed at lawmakers, national authorities And The NGOs themselves, The goal of the recommendation is to be incorporated into member states' legislation and practices.

Psychological Management of Individual Performance Sabine Sonnentag, 2003-01-17 Psychological Management of Individual Performance is a unique combination of contributions from an academic and a practitioner for each topic. Leading international authors come together in this integrative and comprehensive handbook, to combine academic research findings and to provide detailed practice-relevant information, on subjects such as performance concepts, work design, cognitive ability and personality as predictors of performance, performance appraisal and potential analysis, goal setting, training,

mentoring, reward systems, strategic HRM as well as broader issues such as well-being and organizational culture. This Handbook is a valuable resource for researchers, academics and advanced students in psychology and related fields; as well as consultants, practitioners and professionals in HR, who want to contribute to the enhancement and maintenance of high individual performance.

Politics and Literature in Modern Britain George Watson,1977

Atlas of Cities Paul Knox,2022-01-11 A unique, stunningly illustrated look at the origins, development, and future prospects of cities More than half the world's population lives in cities, and that proportion is expected to rise to three-quarters by 2050. Urbanization is a global phenomenon, but the way cities are developing, the experience of city life, and the prospects for the future of cities vary widely from region to region. The Atlas of Cities presents a unique taxonomy of cities that looks at different aspects of their physical, economic, social, and political structures; their interactions with each other and with their hinterlands; the challenges and opportunities they present; and where cities might be going in the future. Each chapter explores a particular type of city—from the foundational cities of Greece and Rome and the networked cities of the Hanseatic League, through the nineteenth-century modernization of Paris and the industrialization of Manchester, to the green and smart cities of today. Expert contributors explore how the development of these cities reflects one or more of the common themes of urban development: the mobilizing function (transport, communication, and infrastructure); the generative function (innovation and technology); the decision-making capacity (governance, economics, and institutions); and the transformative capacity (society, lifestyle, and culture). Using stunning info-graphics, maps, charts, tables, and photographs, the Atlas of Cities is a comprehensive overview of the patterns of production, consumption, generation, and decay of the twenty-first century's defining form. Presents a one-of-a-kind taxonomy of cities that looks at their origins, development, and future prospects Features core case studies of particular types of cities, from the foundational cities of Greece and Rome to the smart cities of today Explores common themes of urban development, from transport and communication to lifestyle and culture Includes stunning info-graphics, maps, charts, tables, and photos Cities Featured: Abuja, Alexandria, Amsterdam, Athens, Augsburg, Babylon, Beijing, Berlin, Brasilia, Bruges, Budapest, Cairo, Canberra, Chandigarh, Chicago, Constantinople, Curitiba, Detroit, Dubai, Dublin, Düsseldorf, Florence, Frankfurt, Freiburg, Geneva, Ghent, Glasgow, Güssing, Hong Kong, Innsbruck, Istanbul, Jakarta, Karachi, Knossos, Las Vegas, London, Los Angeles, Lübeck, Manchester, Marseille, Masdar City, Mexico City, Miami, Milan, Mumba, Mumbai, Nairobi, New York, Paris, Pella, Portland, Rome, San Francisco, Santorini, São Paulo, Seoul, Shanghai, Sheffield, Singapore, Sparta, St. Petersburg, Stockholm, Sydney, Syracuse, Tokyo, Vancouver, Venice, Vienna, Washington, D.C., Wildpoldsried

Russia's Diamond Colony John Tichotsky,2014-01-02 This study looks at the reform process in Sakha and at a one hundred year history of economic development. The research revealed that Sakha's progress has always been determined by

the export of key resources.

Megalops Randy Wayne White,2023-09-05 The Professional Tarpon Rodeo is back, and Doc Ford needs help from the trio of brave friends who make up Sharks Inc.—Luke, Maribel, and Sabina—to investigate the million-dollar competition in bestselling author Randy Wayne White’s fourth Sharks Incorporated novel, *Megalops*. The Professional Tarpon Rodeo is back on Sanibel Island, offering any celebrity contestant who lands a rare piebald tarpon a one-million-dollar prize. But marine biologist Doc Ford is certain that people are cheating to win. When an angler team illegally catches a tarpon to feed it to sharks for attention, Doc enlists the kids of Sharks Inc.—Luke, Maribel, and Sabina—to uncover their scheme. Would introverted Luke rather be trapped between a hammerhead shark and an injured tarpon—or trapped in the spotlight of internet adoration? With the help of an unlikely new friend, the intrepid Sharks Inc. trio will unmask a band of zombies, outwit a devious celebrity manager, and rescue one elusive tarpon.

Major Challenges Facing Higher Education in the Arab World: Quality Assurance and Relevance Adnan

Badran,Elias Baydoun,John R. Hillman,2019-03-25 This book focuses on two crucial issues that need to be addressed as a matter of urgency by universities in the Arab region, namely (a) conducting independent assessments of the quality of their teaching, research, administration, governance, and planning; and (b) determining the relevance of their teaching, research, and societal impacts. Although well-established around the world in manufacturing industries and private-sector service industries, including the research and commercialisation arms of the major universities and research institutes, it is only in recent years that quality-assurance (QA) assessments have started to be applied to most aspects education. Several Arab universities are adopting various forms of QA but some variants are little more than bureaucratic “box-ticking” exercises with minimal commitment by staff to the ultimate aim of continuing self-improvement. This book will be of interest to senior management at faculty and departmental level and above in all Arab universities specifically, and more generally in Islamic institutions of higher education. Senior management in other universities, especially in the developing world will benefit from its analyses and recommendations.

Chrysanthemum Sou Macmillan,2007-02-01

Developing the Institutional Framework for the Management of Animal Genetic Resources ,2011 The guidelines on the Development of Institutional Frameworks for the Management of Animal genetic resources have been endorsed by the Commission on Genetic Resources for Food and Agriculture. They are part of a series of guidelines prepared to support countries in the implementation of the Global Plan of Action. They complement, in particular, the guidelines on the

Preparation of national strategies and action plans for animal genetic resources. A sound institutional framework provides a basis for effective management of animal genetic resources both nationally and internationally. The guidelines present an overview of the components of the global network for the management of animal genetic resources and advice on how they can be strengthened at national and regional levels. Detailed guidance is provided on the role of National Coordinators for the Management of Animal Genetic Resources and the development and operation of National Focal Points for the Management of Animal Genetic Resources supported by National Advisory Committees, working groups and country stakeholder networks. Progress towards the establishment of a network of Regional Focal Points for Animal Genetic Resources is reviewed and advice is offered in the form of a series of steps that can be followed by stakeholders wishing to establish and sustain focal points in their regions. The guidelines draw on lessons learned from many years of experience in the implementation of programmes and focal points for the management of animal genetic resources in many parts of the world, and include personal contributions from individuals who have been actively involved in this work.--Publisher description.

Joseph Beuys and Italy Marc Gundel,Rita E. Täuber,2016 Joseph Beuys and Italy focuses on (and up to now) the rarely noted special relationship that Beuys to Italy throughout his life.
