Biology and Ecology of Pharmaceutical Marine Tunicates Ramasamy Santhanam,Santhanam Ramesh,2019-10-10 The ocean is a source of unique natural products, mainly accumulated in living organisms. The c.4000 species of tunicates or sea squirts (Phylum, Chordata; Subphylum, Urochordata) are a high-potential yet under-studied source of bioactive compounds for pharmaceuticals. The secondary metabolites such as alkaloids isolated from these organisms have led to the discovery of an approved anti-tumor drug, anti-cancer drugs Yondelis® and Aplidin®, as well as many others in clinical trial. There is an urgent need for more research on the bioactive compounds of marine tunicates and better knowledge about the identification and biology of these species. This is the first focused book to meet this need. The taxonomy, common name, global distribution, habitat, diagnostic features and pharmaceutical compounds (along with their activities) of 165 key species of tunicates are given, with high-quality illustrations. Contributed by scientists of both Marine Biology and Pharmacy disciplines, this book will serve as a standard reference for researchers, teachers and students of Fisheries Science, Marine Biology, Life Sciences, Biotechnology, Natural Products, and Pharmacy, and as a valuable guide for pharmaceutical companies involved in the development of new drugs from marine organisms.

First Exposures Erik Auerbach,2006 In 1993 First Exposures was born from a small group of concerned photographers in San Francisco to become the only mentoring program in the area to offer free weekly photography classes to at-risk youth ages 11-18. In 1996 First Exposures became part of San Francisco Camerawork and has since become nationally recognized as a model for many other similar programs. One of the unique aspects of this program is the pairing of a photographer who serves as a mentor with each child. The students of First Exposures created all of the work published in this book. The Little Dreams of Lara Cliffe Milly Johnson,2020-02-20 *** From the Sunday Times bestselling author *** It only takes one small step to change your life! Fifteen years ago the love of her life, Danny Belfont, walked out on her three weeks before their wedding and she has never been able to fully get him out of her heart. Then, on the overnight ferry, Lara finds out that Danny is playing in the onboard band and he spots her in the crowd. Will she meet him the next night to talk? As the wonderful city of Amsterdam works its magic on Lara, she tries to sort out her thoughts. And if fate has brought Lara and Danny back together ... is it really for love or for something quite different?

Comparative Federalism and Covid-19 Nico Steytler, 2021-10-27 This comprehensive scholarly book on comparative federalism and the Covid-19 pandemic is written by some of the world's leading federal scholars and national experts. The Covid-19 pandemic presented an unprecedented emergency for countries worldwide, including all those with a federal or hybrid-federal system of government, which account for more than 40 per cent of the world's population. With case studies from 19 federal countries, this book explores the core elements of federalism that came to the fore in combatting the pandemic: the division of responsibilities (disaster management, health care, social welfare, and education), the need for centralisation, and intergovernmental relations and cooperation. As the pandemic struck federal countries at roughly the same time, it provided a unique opportunity for comparative research on the question of how the various federal systems responded. The authors adopt a multidisciplinary approach to question whether federalism has been a help or a hindrance in tackling the pandemic. The value of the book lies in understanding how the Covid-19 pandemic affected federal dynamics and how it may have changed them, as well as providing useful lessons for how to combat such pandemics in federal countries in the future. This book will be of great interest to students and scholars of politics and international relations, comparative federalism, health care, and disaster management. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.
