Knowledge Societies Robin Mansell, Uta Wehn de Montalvo, 1998 Revolutionary information and communication technologies are contributing to dramatic changes in the competitiveness of global and local markets and in the way people conduct their business and everyday lives. The potential benefits and risks these changes present for developing countries and the economies in transition are enormous. This comprehensive, authoritative reference book examines the ways in which these powerful technologies are being harnessed to development goals, helping to reduce the risk of exclusion and create new opportunities for developing countries. The report emphasizes the urgency of developing new social and technological infrastructures to help ensure that new technologies are used effectively. It also offers guidelines and practical steps that can be taken by stakeholders to shape their future innovative knowledge societies.

Supporting Entrepreneurship and Innovation in Higher Education in Ireland Collectif, 2017-10-23 This report presents evidence-based analysis on Ireland's higher education transformation process towards an innovative, interconnected and multidisciplinary entrepreneurial system, designed to empower its students and staff to demonstrate enterprise, innovation and creativity in teaching, research and societal engagement. Using the OECD-European Commission HEInnovate guidance for the entrepreneurial and innovative higher education institution, the report assesses strategies and practices for entrepreneurship and innovation in Ireland's higher education institutions and the systemic support provided by government. Higher education institutions play a critical role in Ireland's economy and innovation system, which is based on a strong and growing engagement agenda with industry and local communities, the emergence of new learning environments

and strong multidisciplinary research teams. This report offers practical recommendations on how Ireland can enhance and sustain the outcomes.

The Four Steps to the Epiphany Steve Blank, 2020-03-17 The bestselling classic that launched 10,000 startups and new corporate ventures - The Four Steps to the Epiphany is one of the most influential and practical business books of all time. The Four Steps to the Epiphany launched the Lean Startup approach to new ventures. It was the first book to offer that startups are not smaller versions of large companies and that new ventures are different than existing ones. Startups search for business models while existing companies execute them. The book offers the practical and proven four-step Customer Development process for search and offers insight into what makes some startups successful and leaves others selling off their furniture. Rather than blindly execute a plan, The Four Steps helps uncover flaws in product and business plans and correct them before they become costly. Rapid iteration, customer feedback, testing your assumptions are all explained in this book. Packed with concrete examples of what to do, how to do it and when to do it, the book will leave you with new skills to organize sales, marketing and your business for success. If your organization is starting a new venture, and you're thinking how to successfully organize sales, marketing and business development you need The Four Steps to the Epiphany. Essential reading for anyone starting something new. The Four Steps to the Epiphany was originally published by K&S Ranch Publishing Inc. and is now available from Wiley. The cover, design, and content are the same as the prior release and should not be considered a new or updated product.

Entrepreneurship In Asia: Social Enterprise, Network And Grassroots Case Studies Jersan Hu, Stephen Dun-hou Tsai, Ted Yu Chung Liu, Shang Jen Li, 2014-11-07 This book focuses on the importance of entrepreneurship in sustaining the prosperity of society and uses the case studies from Taiwan, Japan as well as China, to provide an insight into Societal Entrepreneurship in Asia, and the construction of an entrepreneurial society. In order to provide a comprehensive and complete picture on entrepreneurship, the authors have also included both case studies of commercial endeavors as well as non-profit making business endeavours. These collective experiences would be invaluable to readers who are seeking to understand the role of entrepreneurship in Asian society.

Leader Development Deconstructed Matthew G. Clark, Craig W. Gruber, 2017-10-10 This book examines both academic and practical theories relating to leader development. It broadens the scope of this topic by including data-driven theory and proposals from diverse areas that are either not currently represented or are poorly addressed in existing literature. This 15th volume in the Annals of Theoretical Psychology series aims to propose, identify, and characterize new theoretical, educational, and practical gaps in leader development. The initial chapters explore concepts related to individual or internal

aspects of leaders. Subsequent chapters deconstruct leader development by considering behaviors or skills and various environmental factors that affect development. The book also examines shortcomings of our current understanding of this topic that cuts across multiple disciplines. Topics featured in this book include: Cognition, readiness to lead, courage through dialogue, and relationship considerations Behavioral elements and approaches for developing followership, conflict management, creativity, virtue, and epistemic cognition in growing leaders for complex environments. Seven Steps to establish a Leader and Leadership Education and Development Program. The Dark Triad of personality, psychobiosocial perspectives, and mental ability in leaders Leader Development Deconstructed will be of interest to research scholars, academics, educators, and practitioners as well as executive coaches, college or university administrators, military leaders, philanthropic and non-profit organization leaders, and management consultants.

Despite the extensive body of knowledge associated with leader and leadership development, significant gaps still exist in our understanding of these processes. This book is a noteworthy effort to help fill in the blanks through empirical research and contextual application. It is worthy of perusal by anyone interested in becoming a more effective leader or leader developer. Bernard Banks, Ph.D., Associate Dean of Leadership Development, Northwestern University Kellogg School of Management One of the most powerful ways leaders can have an impact on others and their mission is to manage for innovation... This book is a great step in moving towards exploring how you do that, and I'm thrilled to be a part of that conversation! The Ocean and Cryosphere in a Changing Climate Intergovernmental Panel on Climate Change (IPCC), 2022-05-19
The Intergovernmental Panel on Climate Change (IPCC) is the leading international body for assessing the science related to climate change. It provides policymakers with regular assessments of the scientific basis of human-induced climate change, its impacts and future risks, and options for adaptation and mitigation. This IPCC Special Report on the Ocean and Cryosphere in a Changing Climate is the most comprehensive and up-to-date assessment of the observed and projected changes to the ocean and cryosphere and their associated impacts and risks, with a focus on resilience, risk management response options, and adaptation measures, considering both their potential and limitations. It brings together knowledge on physical and biogeochemical changes, the interplay with ecosystem changes, and the implications for human communities. It serves policymakers, decision makers, stakeholders, and all interested parties with unbiased, up-to-date, policy-relevant information. This title is also available as Open Access on Cambridge Core.

Entrepreneurship for Women Carol Eliason, 1981 Report reviewing characteristics and training needs of small business

entrepreneurs in the USA, with particular reference to woman workers - discusses equal opportunities, occupational choice and related aspects of education of women, considers vocational guidance issues, and distinguishes between public sector support and private sector initiatives. Bibliography pp. 19 to 21.

The 71F Advantage National Defense University Press, 2010-09 Includes a foreword by Major General David A. Rubenstein. From the editor: 71F, or 71 Foxtrot, is the AOC (area of concentration) code assigned by the U.S. Army to the specialty of Research Psychology. Qualifying as an Army research psychologist requires, first of all, a Ph.D. from a research (not clinical) intensive graduate psychology program. Due to their advanced education, research psychologists receive a direct commission as Army officers in the Medical Service Corps at the rank of captain. In terms of numbers, the 71F AOC is a small one, with only 25 to 30 officers serving in any given year. However, the 71F impact is much bigger than this small cadre suggests. Army research psychologists apply their extensive training and expertise in the science of psychology and social behavior toward understanding, preserving, and enhancing the health, well being, morale, and performance of Soldiers and military families. As is clear throughout the pages of this book, they do this in many ways and in many areas, but always with a scientific approach. This is the 71F advantage: applying the science of psychology to understand the human dimension, and developing programs, policies, and products to benefit the person in military operations. This book grew out of the April 2008 biennial conference of U.S. Army Research Psychologists, held in Bethesda, Maryland. This meeting was to be my last as Consultant to the Surgeon General for Research Psychology, and I thought it would be a good idea to publish proceedings, which had not been done before. As Consultant, I'd often wished for such a document to help explain to people what it is that Army Research Psychologists do for a living. In addition to our core group of 71Fs, at the Bethesda 2008 meeting we had several brand-new members, and a number of distinguished retirees, the grey-beards of the 71F clan. Together with longtime 71F colleagues Ross Pastel and Mark Vaitkus, I also saw an unusual opportunity to capture some of the history of the Army Research Psychology specialty while providing a representative sample of current 71F research and activities. It seemed to us especially important to do this at a time when the operational demands on the Army and the total force were reaching unprecedented levels, with no sign of easing, and with the Army in turn relying more heavily on research psychology to inform its programs for protecting the health, well being, and performance of Soldiers and their families.

Disability and Development Report United Nations Publications, 2019-08-16 Disability-inclusive development is an essential condition for a sustainable future. In 2015, the United Nations adopted the 2030 Agenda for Sustainable Development, pledging to leave no one behind in the global efforts to realize the 17 Sustainable Development Goals. Without the world's one billion persons with disabilities - 15% of the world population - being included as both agents and

beneficiaries of development, these Goals will never be achieved. Yet, persons with disabilities are still invisible and often left behind. This United Nations flagship report is the first publication to address, at the global level, the nexus between disability and the Sustainable Development Goals. It is also the first global analysis based on an unprecedented amount of data, legislation and policies from over 100 countries to understand the socio-economic circumstances of persons with disabilities and the challenges and barriers they face in their daily lives. This report examines new areas, like the role of access to energy to enable persons with disabilities to use assistive technology, for which no global research was previously available. And explores the linkages between the Sustainable Development Goals and the Convention on the Rights of Persons with Disabilities as well as other international relevant norms and standards relating to disability. Against the backdrop of all the available evidence, the report identifies good practices and recommends urgent actions to be taken for the achievement of the Sustainable Development Goals by, for and with persons with disabilities. The e-book for this publication has been converted into an accessible format for the visually impaired and people with print reading disabilities. It is fully compatible with leading screen-reader technologies such as JAWS and NVDA.

Historical Painting Techniques, Materials, and Studio Practice Arie Wallert,Erma Hermens,Marja Peek,1995-08-24
Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled Historical Painting Techniques, Materials, and Studio Practice at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Encyclopedia of Ethical Failure Department of Defense,2009-12-31 The Standards of Conduct Office of the Department of Defense General Counsel's Office has assembled an encyclopedia of cases of ethical failure for use as a training tool. These are real examples of Federal employees who have intentionally or unwittingly violated standards of conduct. Some cases are

humorous, some sad, and all are real. Some will anger you as a Federal employee and some will anger you as an American taxpayer. Note the multiple jail and probation sentences, fines, employment terminations and other sanctions that were taken as a result of these ethical failures. Violations of many ethical standards involve criminal statutes. This updated (end of 2009) edition is organized by type of violations, including conflicts of interest, misuse of Government equipment, violations of post-employment restrictions, and travel.
