Cinematic Digital Television Chris Comerford,2022-12-20 Chris Comerford explores cinematic digital television as an artistic classification and an academic object of study, and illuminates the slippage in definitions of previously understood media forms. The growth of television as an artistic, informative medium has given rise to shifts in the aesthetic style of the programmes we watch, and this book outlines these shifts along with the contemporary debates and critical theory surrounding them. Comerford looks at the forms and aesthetics of television, the production standards influencing streaming television and the agency of audiences, and provides case studies of key TV shows illustrating these shifts, including *Twin Peaks: The Return*, *WandaVision*, *Hacks* and *Russian Doll*. Navigating the levels of production and reception in cinematic digital television, the book uses film-inspired TV as a lightning rod for understanding our narrative screen media landscape and the classifications we use to negotiate it. As an essential reading for both scholars and students of media and television studies, this book provides a much-needed consideration of the changing landscape of television.

Shakespeare and Game of Thrones Jeffrey R. Wilson, 2020-11-29 It is widely acknowledged that the hit franchise Game of Thrones is based on the Wars of the Roses, a bloody fifteenth-century civil war between feuding English families. In this book, Jeffrey R. Wilson shows how that connection was mediated by Shakespeare, and how a knowledge of the Shakespearean context enriches our understanding of the literary elements of Game of Thrones. On the one hand, Shakespeare influenced Game of Thrones indirectly because his history plays significantly shaped the way the Wars of the Roses are now remembered, including the modern histories and historical fictions George R.R. Martin drew upon. On the other, Game of Thrones also responds to Shakespeare's first tetralogy directly by adapting several of its literary strategies (such as shifting perspectives, mixed genres, and metatheater) and tropes (including the stigmatized protagonist and the prince who was promised). Presenting new interviews with the Game of Thrones cast, and comparing contextual circumstances of composition—such as collaborative authorship and political currents—this book also lodges a series of provocations about writing and acting for the stage in the Elizabethan age and for the screen in the twenty-first century. An essential read for fans of the franchise, as well as students and academics looking at Shakespeare and Renaissance literature in the context of modern media.

Welcome... to The Land! The battle of the dead was won, but at a great cost. Sion, leader of the Mist Village was left with only pain and regret as Richter was claimed by the abyss. Now, surrounded by miles of darkness and tons of crushing rock, Richter has to find his way back into the light. The only problem is that this monster of a man is being pursued by monsters, a demon and his own foolish choices. Faced with all the dangers of the deep dark, what will Richter say when the buried horrors of The Land come a calling and asked if he's paid his dues? The Chaos Gods Come to Meatlandia Ahi Kerp, Wind Lothamer, 2016-02-02 If you always wanted to play a Bard but hate that they've been weak for so long, this book is for you. Compatible with all OSR systems, the world of Meatlandia is bloody

and horrific and just a little silly. It resembles Stuart Gordon's *Reanimator* more than H.P. Lovecraft's. Materials include: 1 New City: Meatlandia, which is ruled by the Meat Lord and his juicy meat magic. 5 New Classes: Meet the disgusting Carnomancer, the fourth wall breaking Chaos DJ, the charming Raconteur, the spider-headed Kaldane, and the reality altering Nexus Bard. 42 New Spells: Carnomancers use buckets of blood and metric shittons of meat and as they grow in power they risk transformation into hideous worms themselves. Various rules, nutritional supplements, new monsters, catacombs, maps, and five game seeds to get you started playing right away. The mechanics in this book are unbalanced, ridiculous, and overpowered. Enjoy.

Global Perspectives on Literary Tourism and Film-Induced Tourism Baleiro, Rita, Pereira, Rosária, 2021-12-10 At the end of the 20th century, the traditional forms of tourism transformed; they expanded by the introduction of new postmodern tourist forms, bringing innovative offers to the marketplace. Two of these new fast-growing forms are literary tourism and film-induced tourism, both of which fall under the umbrella of cultural tourism. Both niches of cultural tourism share the need to create products and experiences that meet the tourists' expectations. *Global Perspectives on Literary Tourism and Film-Induced Tourism* discusses literary tourism and film-induced tourism and documents the advances in research on the intersections of literature, film, and the act of traveling. Covering a wide range of topics from film tourism destinations to digital literary tourism, this book is ideal for travel agents, tourism agencies, tour operators, government officials, postgraduate students, researchers, academicians, cultural development councils and associations, and policymakers.

Literary Theory and Criminology Rafe McGregor, 2023-07-31 *Literary Theory and Criminology* demonstrates the significance of contemporary literary theory to the discipline of criminology, particularly to those criminologists who are primarily concerned with questions of power, inequality, and harm. Drawing on innovations in philosophical, narrative, cultural, and pulp criminology, it sets out a deconstructive framework as part of a critical criminological critique-praxis. This book comprises eight essays - on globalisation, criminological fiction, poststructuralism, patriarchal political economy, racial capitalism, anthropocidal ecocide, critical theory, and critical praxis - that argue for the value of contemporary literary theory to a critical criminology concerned with the construction of a just and sustainable reality in the face of climate change and other mass harms. This is the first criminology book to engage with literary theory from the perspective of criminology and provides a guide for criminologists who want to deploy literary theory as part of their research programmes. It supersedes existing engagements with poststructuralism in the philosophical criminological tradition because it entails neither a constructionist ontology nor a relativist epistemology. It shows criminologists how literary theory offers the tools to first deconstruct and then reconstruct meaning and value. *Literary Theory and Criminology* is essential reading for all critical criminological theorists.

Too often, we blame women. For walking home alone at night. For not demanding a seat at the table. For not overcoming the odds that are stacked against them. This distracts us from the real problem: the failings and biases of a society that was not built for women. In this explosive book, feminist writer and activist Laura Bates exposes the systemic prejudice at the heart of five of our key institutions. Race for the Iron Throne: Political and Historical Analysis of a Game of Thrones Steven Attewell,2018-05-16 A GAME OF THRONES How would you like to read *A Game of Thrones* with a PhD by your side? Steven Attewell, creator of *Race for the Iron Throne* (racefortheironthrone.wordpress.com), is one of the most insightful scholars in political theory and history, but instead of devoting his talents to academia, he's delving into George R.R. Martin's *A Song of Ice and Fire* saga to give the most comprehensive deconstruction - and explanation - yet offered. Each one of *Thrones*'s 73 chapters is broken down in meticulous detail in four key areas. The Political and Historical Analyses explore the political ramifications that each character's decisions entail while digging into the real-world historical incidents that inspired Martin's narrative twists and turns. *What If?* offers up a tantalizing look at how these political and historical elements could have played out in dozens of alternative scenarios, underscoring the majesty and complexity of Martin's storytelling. *And Book vs. Show* looks at the key differences - both good and bad - between the story as originally conceived on the printed page and as realized in HBO's *Game of Thrones*. At nearly 204,000 words, it's almost literally impossible to imagine a more exhaustive or authoritative reading companion for any novel ever before published. Note: there are spoilers for all five published novels in the *Song of Ice*

and Fire series. About the author Steven Attewell is the author of Race for the Iron Throne, a blog that examines the history and politics of the Song of Ice and Fire series and HBO's Game of Thrones. He has a PhD in History from the University of California, Santa Barbara, where he studied the history of public policy and was a political and union activist. In addition to Race for the Iron Throne, Steven is also a co-podcaster on Game of Thrones at the Lawyers, Guns, and Money podcast, writes about public policy at the Realignment Project, and is a co-author of the Tower of the Hand: A Hymn for Spring anthology book.

Consumer Tribes in Tourism Christof Pforr, Ross Dowling, Michael Volgger, 2020-11-18 This book adopts a collectivist perspective on special interest tourism consumption, bringing together research on 'special interest tourism' and 'niche tourism' as well as more recent research into the interdisciplinary applications of the sociological concept of neo-tribes. It promotes a shift in perspective away from special interest tourism understood as a sum of similarly motivated individuals, to a collective view of special interest tourists who share common characteristics (e.g., shared values, beliefs and mutual interests) and group structures. This approach provides a better understanding of groupings that are not unified by a common tourism motivation, but brought together by otherwise conditioned commonalities in actual behavior triggered by supply-side contexts (e.g., Airbnb). The book considers tourism micro-segments as consumer tribes (i.e., as symbolic communities) in which individuals are embedded and loosely bound together. As there is limited research on the collectivist perspective on special interest tourism consumption, in the first part the book's conceptual/theoretical discourse contributes to a better understanding of 'groupings' in tourism behavior but also collectives that are not unified by a common tourism motivation. Presenting international examples, the book explores in Part 2 the group culture of a range of tourist tribes by describing emerging tourism micro-segments, identifying shared identities, and analyzing their collective mechanisms.
