*Obsessed* R. J. Lewis 2016-01-29 Elise I'm obsessed with Aston. He became my addiction the moment I met him at 10 years old. He was my best friend from childhood. He protected me and guided me. I loved him fiercely long before I really understood what love was. We were inseparable. He knew how I felt, and sometimes he would stare at me in ways that made me breathless. But there were boundaries. Lines that couldn't be crossed. Looks that shouldn't be exchanged. Lips that shouldn't be kissed. We weren't supposed to love each other. Not in **\*\*that\*\*** way. Because, you see, Aston was also my adopted brother... Aston Elise was off-limits, a temptation that cursed my existence with this visceral hunger to have her, possess her, and taste her like she was made for me. I was tormented and on the brink of falling. If I stepped over that boundary, if I gave into my want, I wasn't sure I could survive the disappointment of my adopted parents. We would all be affected. Our lives wouldn't be the way it was. That change was irreversible, and the damage would be permanent. It was a scary thought, destroying a foundation and rebuilding it without knowing what it might end up looking like. But my want for her...it sat in the core of me, growing and growing. And want is a dangerous fucking thing. It clouds your judgment, it makes you weak, and I knew...I knew without a doubt, it was only a matter of time before I cracked. Obsession was devotion. Obsession was mania and need. It was a compulsive urge to self-gratify by wanting, and wanting, and wanting 'til it hurt, 'til you could feel it there in your bones, gnawing its way deeper within you. Obsession was my craze for Elise. She was my impulse. My...pulse itself. It wasn't healthy. I knew that. I didn't fucking care either.

*Mapping Courtship and Kinship in Classical Japan* Doris G. Bargen 2015-08-31 Literary critiques of Murasaki Shikibu's eleventh-century *The Tale of Genji* have often focused on the amorous adventures of its eponymous hero. In this paradigm-shifting analysis of the *Genji* and other mid-Heian literature, Doris G. Bargen emphasizes the thematic importance of Japan's complex polygynous kinship system as the domain within which courtship occurs. Heian courtship, conducted mainly to form secondary marriages, was driven by power struggles of succession among lineages that focused on achieving the highest position possible at court. Thus interpreting courtship in light of genealogies is essential for comprehending the politics of interpersonal behavior in many of these texts. Bargen focuses on the genealogical maze—the literal and figurative space through which several generations of men and women in the *Genji* moved. She demonstrates that courtship politics sought to control kinship by strengthening genealogical lines, while secret affairs and illicit offspring produced genealogical uncertainty that could be dealt with only by reconnecting dissociated lineages or ignoring or even terminating them. The work examines in detail the literary construction of a courtship practice known as *kaimami*, or “looking through a gap in the fence,” in pre-*Genji* tales and diaries, and Sei Shōnagon's famous *Pillow Book*. In Murasaki Shikibu's *Genji*, courtship takes on multigenerational complexity and is often used as a political strategy to vindicate injustices, counteract sexual transgressions, or resist the pressure of imperial succession. Bargen argues persuasively that a woman observed by a man was not wholly deprived of agency: She could choose how much to reveal or conceal as she peeked through shutters, from behind partitions, fans, and kimono sleeves, or through narrow carriage windows. That mid-Heian authors showed courtship in its innumerable forms as being influenced by the spatial considerations of the Heian capital and its environs and by the architectural details of the residences within which aristocratic women were sequestered adds a fascinating topographical dimension to courtship. In *Mapping Courtship and Kinship in Classical Japan* readers both familiar with and new to *The Tale of Genji* and its predecessors will be introduced to a wholly new interpretive lens through which to view these classic texts. In addition, the book includes charts that trace *Genji* characters' lineages, maps and diagrams that plot the movements of courtiers as they make their way through the capital and beyond, and color reproductions of paintings that capture the drama of courtship.

to understand the otherness of different societies and their beliefs, histories and practices. This book focuses on a burning cultural issue: how concepts and constructions of gender and sexuality impact upon health, medicine and healthcare. Starting from the premise that health is neither a universal nor a unitary concept, it offers a series of interdisciplinary analyses of what sickness and well-being have been, are and can be. The originality of this book is its cross-cultural and trans-historical approach. Bringing together specially commissioned work by both major critical voices and young scholars in fields ranging from anthropology and art history to philosophy, political science and sociology, this volume challenges many traditional assumptions about gender, medicine and health-care. Issues addressed include: the politics and realities of female genital mutilation; sex-work and migration; the portrayal of mothering in contemporary African writing; the representation of AIDS in literature, photography and the media; the place of gender in ancient Egyptian health papyri; the dramatisation of morality and sexual over-indulgence in Thai literature; the relationship between myths of menstruation and power in early modern England; the role of anger in traditional Chinese medicine; and the ways in which both disease and sexual identities were redefined by cholera in the nineteenth century. The wide-ranging Introduction provides a historical and theoretical framework for what is defined here as Cultural Medicine, whilst fifteen original essays demonstrate from different perspectives that health is not merely a physiological and medical issue, but also a cultural and ethical one. An invaluable research and study resource, this book is written in a clear and accessible style and will be of interest to the general reader as well as to students of all levels, to teachers of a wide range of disciplines, and to specialist researchers of cultural studies and of medicine.

Oba, an African male-child from the Buganda tribe, was destined to join with Iloree, a female-child from the Yoruba tribe. Joshua Lobett, a young man distraught over the death of his beloved mother, vows to change the laws of life and death. MANAWYDAN was a specially designed clipper ship for crossing the Middle Passage with its belly full of Black Gold. While on her maiden voyage, MANAWYDAN experienced mutiny, revolt, and a horrific supernatural storm. Then it suddenly vanished dead center of The Devils Triangle, only to reappear generations later in the 21st Century.
