Gildas Tanguy, Jean-Michel Eymeri-Douzans

The Governors of Guam ,

Present Day Political Organization of China H.S. Brunnert, V.V. Hagelstrom, 2013-04-15 Originally published in 1910, this work presents a fascinating insight into the government and administration of the China of the day. The period was one of immense change as China's leaders turned the nation towards modernity. As student interpreters to the Imperial Russian Legation, the authors had privileged access to the corridors of power and found themselves very much at the heart of the republican ferment that gripped the country.

Malfeasance Dr. Andrew P. Wierenga, 2022-12-06 The 2020 Presidential Election was determined by the votes provided in six battleground states. This book provides analysis of previous elections, the four years that led up to the election, the level of interference and lack of coverage during the campaigns, and the six states that provided the finality to the vote. This reading is intended to provide you the facts about what actually went on during the campaign, and the vote tabulation. It opens your mind to the facts from numerous sources.

Prefects, Governors and Commissioners Gildas Tanguy, Jean-Michel Eymeri-Douzans, 2020-12-28 Is the Prefect an exception, surviving only in France and some countries influenced by Napoleon? No! This book tells the varied stories of the resilience, in most European States and under different names, of the prefectural institution. It is the first comparative book in English studying these territorial administrators who have a go-between role in centre-periphery relations and a nodal role in territorial governance. Gathering a multidisciplinary team of scholars under the auspices of the European Group for Public Administration, this volume offers a fine-grained analysis of 17 national cases, examines cross-country data, and proposes a theoretical frame made of a Weberian ideal-type with three variants, to better comprehend and explain the permanence and changes of the prefectural figure.

Who Governs the Globe? Deborah D. Avant, Martha Finnemore, Susan K. Sell, 2010-06-03 Academics and policymakers frequently discuss global governance but they treat governance as a structure or process, rarely considering who actually does the governing. This volume focuses on the agents of global governance: 'global governors'. The global policy arena is filled with a wide variety of actors such as international organizations, corporations, professional associations, and advocacy groups, all seeking to 'govern' activity surrounding their issues of concern. Who Governs the Globe? lays out a theoretical

framework for understanding and investigating governors in world politics. It then applies this framework to various governors and policy arenas, including arms control, human rights, economic development, and global education. Edited by three of the world's leading international relations scholars, this is an important contribution that will be useful for courses, as well as for researchers in international studies and international organizations.

Blowing up the Rock: German, Italian and Spanish Sabotage attacks on Gibraltar during the Second World War Bernard O'Connor,2020-01-05 During the Second World War, Gibraltar faced the threat of invasion by Italy, Germany, and Spain. The Abwehr, the German Intelligence Service, rather than use their own saboteurs, paid young Spanish men to undertake over sixty sabotage attacks on military installations and shipping with limited success. The Italian Decima Flotilla MAS, a specialist team of underwater frogmen, launched eight attacks which were relatively successful and Spanish Falangists made several unsuccessful attempts. The British Secret Intelligence Service endeavoured to stop or at least limit such attacks. Using contemporary files from the National Archives in Kew, autobiographies, biographies, histories and newspaper articles, this documentary history investigates the successes and failures of these attacks on Gibraltar and the roles played by intelligence officers, agents, double agents in discovering and preventing such acts. The book sheds light on an unusual and largely overlooked aspect of Gibraltar's history.

The Three Governors Controversy Charles S. Bullock,Scott E. Buchanan,Ronald Keith Gaddie,2015 The death of Georgia governor-elect Eugene Talmadge in late 1946 launched a constitutional crisis that ranks as one of the most unusual political events in U.S. history: the state had three active governors at once, each claiming that he was the true elected official. This is the first full-length examination of that episode, which wasn't just a crazy quirk of Georgia politics (though it was that) but the decisive battle in a struggle between the state's progressive and rustic forces that had continued since the onset of the Great Depression. In 1946, rural forces aided by the county unit system, Jim Crow intimidation of black voters, and the Talmadge machine's loyal 100,000 voters united to claim the governorship. In the aftermath, progressive political forces in Georgia would shrink into obscurity for the better part of a generation. In this volume is the story of how the political, governmental, and Jim Crow social institutions not only defeated Georgia's progressive forces but forestalled their effectiveness for a decade and a half.

The Christian Slaves of Depok Nonja Peters,2021-07-28 This book recounts the little-known history of Cornelis Chastelein, a high-ranking official of the Dutch East India Company and the 150-200 slaves he purchased from slave markets

around South-East Asia, to work his landed estates in the Batavian (Jakarta) hinterlands. It traces the making and unravelling of his dream to create a self-sustaining Christian community of freed slaves in the midst of a Muslim stronghold. To this end, on his death on 28 June 1714, he freed most of his slaves, and bequeathed those who had embraced Christianity, his 1244-hectare Depok estate in 'collective ownership.' The book isolates behaviours and events that influenced these Depokers' lives after Chastelein's death, such as endogamy, religion, war, revolution and diaspora. Its main characters are the missionaries bent on Depokers' Dutchification, the Japanese invaders who demand obedience to their 'Asia for the Asians' thinking, and the Indonesian Pemuda (freedom fighters), who insist Depokers throw their weight behind the Independence movement. Enslavement made Depokers inbetweeners. In the Netherlands, they were considered Indonesian, and the Dutch to whom they thought they belonged painfully excluded them. Following the transfer of sovereignty, the Republic of Indonesia confiscated the rice fields of those that stayed and labelled them Belanda Depok (black Hollanders). The history of the Depokers is a tale of survival in the face of adversity that takes in the dying embers of the Netherlands East Indies and the birth of Indonesia.
