Research and Applications in Global Supercomputing Segall, Richard S., 2015-01-31 Rapidly generating and processing large amounts of data, supercomputers are currently at the leading edge of computing technologies. Supercomputers are employed in many different fields, establishing them as an integral part of the computational sciences. Research and Applications in Global Supercomputing investigates current and emerging research in the field, as well as the application of this technology to a variety of areas. Highlighting a broad range of concepts, this publication is a comprehensive reference source for professionals, researchers, students, and practitioners interested in the various topics pertaining to supercomputing and how this technology can be applied to solve problems in a multitude of disciplines.

Silver, Sword, and Stone Marie Arana, 2020-08-18 Winner, American Library Association Booklist's Top of the List, 2019 Adult Nonfiction Acclaimed writer Marie Arana delivers a cultural history of Latin America and the three driving forces that have shaped the character of the region: exploitation (silver), violence (sword), and religion (stone). "Meticulously researched, [this] book's greatest strengths are the power of its epic narrative, the beauty of its prose, and its rich portrayals of character...Marvelous" (The Washington Post). Leonor Gonzales lives in a tiny community perched 18,000 feet above sea level in the Andean cordillera of Peru, the highest human habitation on earth. Like her late husband, she works the gold mines much as the Indians were forced to do at the time of the Spanish Conquest. Illiteracy, malnutrition, and disease reign as they did five hundred years ago. And now, just as then, a miner's survival depends on a vast global market whose fluctuations are controlled in faraway places. Carlos Buergos is a Cuban who fought in the civil war in Angola and now lives in a quiet community outside New Orleans. He was among hundreds of criminals Cuba expelled to the US in 1980. His story echoes the violence that has coursed through the Americas since before Columbus to the crushing savagery of the Spanish Conquest, and from 19th- and 20th-century wars and revolutions to the military crackdowns that convulse Latin America to this day. Xavier Albó is a Jesuit priest from Barcelona who emigrated to Bolivia, where he works among the indigenous people. He considers himself an Indian in head and heart and, for this, is well known in his adopted country. Although his aim is to learn rather than proselytize, he is an inheritor of a checkered past, where priests marched alongside conquistadors,

converting the natives to Christianity, often forcibly, in the effort to win the New World. Ever since, the Catholic Church has played a central role in the political life of Latin America—sometimes for good, sometimes not. In this “timely and excellent volume” (NPR) Marie Arana seamlessly weaves these stories with the history of the past millennium to explain three enduring themes that have defined Latin America since pre-Columbian times: the foreign greed for its mineral riches, an ingrained propensity to violence, and the abiding power of religion. Silver, Sword, and Stone combines “learned historical analysis with in-depth reporting and political commentary...[and] an informed and authoritative voice, one that deserves a wide audience” (The New York Times Book Review).

Chicago's Only Castle Errol Magidson,2023-07-30 The compelling stories of the five keepers of Chicago's only Castle, located in the Beverly neighborhood, unfold against the backdrop of Chicago's rich history.

The American War in Afghanistan Carter Malkasian,2021 A history of the war in Afghanistan between 2001 and 2020. The work follows a narrative format to go through the 2001 US invasion, the state-building of 2002-2005, the Taliban offensive of 2006, the US surge of 2009-2011, the subsequent drawdown, and the peace talks of 2019-2020

A Tiger Too Many Antony Wootten,2011 Set in London Zoo during World War II, *A Tiger Too Many* is a tense tale of a young girl's desperate struggle to save her beloved tiger-cub.

Ancient Libraries Jason König,Katerina Oikonomopoulou,Greg Woolf,2013-04-25 The circulation of books was the motor of classical civilization. However, books were both expensive and rare, and so libraries - private and public, royal and civic - played key roles in articulating intellectual life. This collection, written by an international team of scholars, presents a fundamental reassessment of how ancient libraries came into being, how they were organized and how they were used. Drawing on papyrology and archaeology, and on accounts written by those who read and wrote in them, it presents new research on reading cultures, on book collecting and on the origins of monumental library buildings. Many of the traditional stories told about ancient libraries are challenged. Few were really enormous, none were designed as research centres, and occasional conflagrations do not explain the loss of most ancient texts. But the central place of libraries in Greco-Roman culture emerges more clearly than ever.

Stella's Stellar Hair Yesenia Moises,2021-01-05 Black girl magic takes the solar system in *Stella's Stellar Hair*, a celebration of hair, family, and self-love from debut author-illustrator Yesenia Moises! It's the day of the Big Star Little Gala, and Stella's hair just isn't acting right! What's a girl to do? Simple! Just hop on her hoverboard, visit each of her fabulous aunties across the solar system, and find the perfect hairdo along the way. *Stella's Stellar Hair* celebrates the joy of self-empowerment, shows off our solar system, and beautifully illustrates a variety of hairstyles from the African diaspora. Backmatter provides more information about each style and each planet. An Imprint Book

The Children's Book A S Byatt, 2009-10-06 Famous author Olive Wellwood writes a special private book, bound in different colours, for each of her children. In their rambling house near Romney Marsh they play in a story-book world - but their lives, and those of their rich cousins and their friends, the son and daughter of a curator at the new Victoria and Albert Museum, are already inscribed with mystery. Each family carries its own secrets. They grow up in the golden summers of Edwardian times, but as the sons rebel against their parents and the girls dream of independent futures, they are unaware that in the darkness ahead they will be betrayed unintentionally by the adults who love them. This is the children's book.

Hacker Packer Cassidy McFadzean, 2015-04-14 A playfully inventive and invigorating debut collection of poetry from a finalist for the CBC Poetry Prize and The Walrus Poetry Prize. With settings ranging from the ancient sites and lavish museums of Europe to the inner-city neighbourhood in North Central Regina where the poet grew up, the poems in Cassidy McFadzean's startling first collection embrace myth and metaphysics and explore the contradictory human impulses to create art and enact cruelty. A child burn victim is conscripted into a Grade Eight fire safety seminar; various road-killed animals make their cases for sainthood; and the fantastical visions in Hieronymus Bosch's *The Garden of Earthly Delights* move off the canvas and onto the speaker's splendid pair of leggings. Precociously wise, formally dexterous, and unrepentantly strange, the poems in *Hacker Packer* present a wholly memorable poetic debut.

Muslim Americans Nahid Afrose Kabir, 2016-08-12 With Islamophobia on the rise in the US since 9/11, Muslims remain the most misunderstood people in American society. Taking as its point of departure the question of the compatibility of Islam and democracy, this book examines Muslims' sense of belonging in American society. Based on extensive interview data across seven states in the US, the author explores the question of what it means to be American or un-American amongst Muslims, offering insights into common views of community, culture, and wider society. Through a combination of interviewees' responses and discourse analysis of print media, *Muslim Americans* also raises the question of whether media coverage of the issue might itself be considered 'un-American'. An empirically grounded study of race and faith-based relations, this book undertakes a rigorous questioning of what it means to be American in the contemporary US. As such, it will appeal to scholars of sociology and political science with interests in race, ethnicity, religion and national identity.

Lies Like Poison Chelsea Pitcher, 2020-11-10 Riverdale meets Kara Thomas's *The Cheerleaders* in this electrifying, twisted thriller about estranged friends who reunite when someone commits the murder they'd planned—but didn't go through with—and leaves one of their own to take the fall. Poppy, Lily, and Belladonna would do anything to protect their best friend, Raven. So when they discovered he was suffering abuse at the hands of his stepmother, they came up with a lethal plan: petals of poppy, belladonna, and lily in her evening tea so she'd never be able to hurt Raven again. But someone got cold feet, the plot faded to a secret of the past, and the group fell apart. Three years later, on the eve of Raven's seventeenth birthday, his stepmother turns up dead. But it's only belladonna found in her tea, and it's only Belladonna who's

carted off to jail. Desperate for help, Belle reaches out to her estranged friends to prove her innocence. They answer the call, but no one is prepared for what comes next. Now, everyone has something to lose and something equally dangerous to hide. And when the tangled web of secrets and betrayal is finally unwound, what lies at its heart will change the group forever.

Dark Mirror Barton Gellman, 2020-05-21 'A remarkable, authentic and chilling exposé of a global conspiracy that reads like a first-rate conspiracy thriller: a book of gripping, compulsive and disturbing impact' William Boyd *Dark Mirror* is the ultimate inside account of the vast, global surveillance network that now pervades all our lives. Barton Gellman's informant called himself 'Verax' - the truth-teller. It was only later that Verax unmasked himself as Edward Snowden. But Gellman's primary role in bringing Snowden's revelations to light, for which he shared the Pulitzer prize, is only the beginning of this gripping real-life spy story. Snowden unlocked the door: here Gellman describes what he found on the other side over the course of a years-long journey of investigation. It is also the story of his own escalating battle against unknown digital adversaries after he discovered his own name on a file in the leaked document trove and realised that he himself was under attack. Through a gripping narrative of paranoia, clandestine operations and jaw-dropping revelations, *Dark Mirror* delineates in full for the first time the hidden superstructure that connects government espionage with Silicon Valley. Who is spying on us and why? Here are the answers.

Community Policing in Indigenous Communities Mahesh K. Nalla, Graeme R. Newman, 2013-03-04 Indigenous communities are typically those that challenge the laws of the nation states of which they have become—often very reluctantly—a part. Around the world, community policing has emerged in many of these regions as a product of their physical environments and cultures. Through a series of case studies, *Community Policing in Indigenous Communities* explores how these often deeply divided societies operate under the community policing paradigm. Drawing on the local expertise of policing practitioners and researchers across the globe, the book explores several themes with regard to each region: How community policing originated or evolved in the community and how it has changed over time The type of policing style used—whether informal or formal and uniformed or non-uniformed, whether partnerships are developed with local community organizations or businesses, and the extent of covert operations, if any The role played by community policing in the region, including the relative emphasis of calls for service, the extent to which advice and help is offered to citizens, whether local records are kept of citizen movement and locations, and investigation and arrest procedures The community's special cultural or indigenous attributes that set it apart from other models of community policing

Organizational attributes, including status in the hierarchy of control within the regional or national organization of policing. The positive and negative features of community policing as it is practiced in the community. Its effectiveness in reducing and or preventing crime and disorder. The book demonstrates that community policing cannot be imposed from above without grassroots input from local citizens. It is a strategy—not simply for policing with consent—but for policing in contexts where there is often little, if any, consent. It is an aspirational practice aimed to help police and communities within contested contexts to recognize that positive gains can be made, enabling communities to live in relative safety.

Government for the Public Good Max Rashbrooke, 2018-09-26 In a time of global political ferment, established ideas are coming under renewed scrutiny. Chief among them is one of the dominant notions of our era: that we should entrust markets with many of the tasks previously carried out by government. In this wide-ranging book, Max Rashbrooke goes beyond anecdote and partisanship, delving deep into the latest research about the sweeping changes made to the public services that shape our collective lives. What he unearths is startling: it challenges established thinking on the effectiveness of market-based reforms and charts a new form of 'deep' democracy for the twenty-first century. Refreshing and far-sighted, this stimulating book offers New Zealanders a new way of thinking about government and how it can navigate the turbulent world ahead. The market is often not the solution to our problems. Markets have often been the problem. Max Rashbrooke makes the convincing case for models of government that work better, as well as those to be more wary of. Greater democracy can bring with it greater equality - but, Rashbrooke warns, democracy itself is imperilled by our current levels of inequality. Fast paced, globally informed and wittily written. – Professor Danny Dorling, Oxford University This book provides a wide range of excellent evidence-based arguments that help counter the oft-dominant small-government ideology of our times. Its defence of democracy, government and voter competence is a story that needs to be told more. – Laura O'Connell Rapira, Director of ActionStation
