Slow Violence and the Environmentalism of the Poor Rob Nixon, 2011-06-14 “Groundbreaking in its call to reconsider our approach to the slow rhythm of time in the very concrete realms of environmental health and social justice.” —Wold Literature Today The violence wrought by climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war takes place gradually and often invisibly. Using the innovative concept of slow violence to describe these threats, Rob Nixon focuses on the inattention we have paid to the attritional lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today. Slow violence, because it is so readily ignored by a hard-charging capitalism, exacerbates the vulnerability of ecosystems and of people who are poor, disempowered, and often involuntarily displaced, while fueling social conflicts that arise from desperation as life-sustaining conditions erode. In a book of extraordinary scope, Nixon examines a cluster of writer-activists affiliated with the environmentalism of the poor in the global South. By approaching environmental justice literature from this transnational perspective, he exposes the limitations of the national and local frames that dominate environmental writing. And by skillfully illuminating the strategies these writer-activists deploy to give dramatic visibility to environmental emergencies, Nixon invites his readers to engage with some of the most pressing challenges of our time.

The Great Caliphs Amira K. Bennison, 2014-05-14 This endlessly informative history brings the classical Islamic world to life. In this accessibly written history, Amira K. Bennison contradicts the common assumption that Islam somehow interrupted the smooth flow of Western civilization from its Graeco-Roman origins to its more recent European and American manifestations. Instead, she places Islamic civilization in the longer trajectory of Mediterranean civilizations and sees the ‘Abbasid Empire (750–1258 CE) as the inheritor and interpreter of Graeco-Roman traditions. At its zenith the ‘Abbasid caliphate stretched over the entire Middle East and part of North Africa, and influenced Islamic regimes as far west as Spain. Bennison’s examination of the politics, society, and culture of the ‘Abbasid period presents a picture of a society that nurtured many of the “civilized” values that Western civilization claims to represent, albeit in different premodern forms: from urban planning and international trade networks to religious pluralism and academic research. Bennison’s argument

counters the common Western view of Muslim culture as alien and offers a new perspective on the relationship between Western and Islamic cultures.

The Books of Catullus Gaius Valerius Catullus, 2018-04-05 The Books of Catullus is the first full English translation to take the Roman poet at his word. Simon Smith's versions are scholarly yet eccentric, mapping theme and register to contemporary equivalents (such as poem 16, which echoes Frank O'Hara). He divides Catullus's complete verses into three 'books', the form in which it is thought the poems were originally received. 'Smith gets the all-important rhythm of Catullus, whose meters, like all else about this poet, are deceptively complex', writes Vincent Katz. 'He achieves a delicious frisson again and again by fusing the classical and the contemporary. The reader is repeatedly pleased by unexpected felicities.' (Peter Hughes)

The Emergence of Biophilic Design Jana Söderlund, 2019-10-18 This book addresses the emergence of biophilic design, a form of design that looks at people's intrinsic connection with nature. There is no denying that biophilic design is rapidly expanding globally as an effective response to pressing issues in urban areas and built environments. From being a term few had heard of in 2012, when the author's research began, to one that is currently trending in a broad range of disciplines, the story of its emergence has never been properly told. The story of the emergence of biophilic design is the story of a social movement and how a gathering of people with a common interest and passion can spark a global trend. The book and the stories within are not only engaging but also informative and educational, offering readers an in-depth understanding of what biophilic design is all about, and how to promote its implementation in their own built environment. Hopefully, they will inspire people to act, to campaign and to implement initiatives in their urban environment, with the confidence that they are capable of making a difference. The author spent three years researching the emergence of biophilic design, and why and how it was driven by certain people who championed the concept. Part of the author's research involved a three-month tour of ten North American cities, during which she interviewed 26 key players. These people ranged from community leaders, landscape architects, and academics, to the CEOs of NGOs and government leaders. The result is a collection of stories that illustrate the evolution of biophilic design, and how it was frequently born from a passion for, belief in and love of nature, as well as a response to an urban crisis.

Naked for Tea Rosemerry Wahtola Trommer, 2018-07-09 Naked for Tea, a finalist in the Able Muse Book Award, is a uniquely uplifting and inspirational collection. Rosemerry Wahtola Trommer's poems are at times humorously surreal, at times touchingly real, as they explore the ways in which our own brokenness can open us to new possibilities in a beautifully imperfect world. Naked for Tea proves that poems that are disarmingly witty on the surface can have surprising depths of wisdom. This is a collection not to be missed. PRAISE FOR NAKED FOR TEA Most anyone can make lemonade out of lemons.

However, Rosemerry Wahtola Trommer's welcoming voice, receptive heart, artistic mastery, and empathic vision become an alchemy of being. Out of mudslides, misunderstandings, the exploits of Wild Rose, deep loss, and chocolate cake that sinks in the center, she makes courage, care, joy, and compassion. When "what's the use" breaks down the back door, she is there, her great good soul encouraging us to sigh, laugh, renew our attention, and feel grateful for and delighted by any cake that sinks in the center. — Jack Ridl, author of *Practicing to Walk Like a Heron and Saint Peter and the Goldfinch Heart-thawingly honest, deliriously sexy, and compassionate down to the fingertips. A book of kindness and bewilderment and delight from one of our best poets.* — Teddy Macker, author of *This World There is still rich ore in the Colorado San Juans.* Rosemerry Wahtola Trommer is a treasure. In an era of seeming nonstop, subject-matterless, first person mirror dancing at the Temple of Narcissus incomprehension, it is a delight to find a poet who can tell a crackling story laced with gorgeous imagery and euphony that will appeal to the ancient seats of learning: the heart, belly, and brain. These are poems Sappho and Horace would love: they delight and instruct. They can be read and sung, and they will echo from the proverbial Colorado mountaintops through the archetypal red rock canyons of your mind. Prepare thyself to be smitten and to fall in love. — David Lee, Utah State Poet Laureate emeritus, author of *Last Call and A Legacy of Shadows* Reading Rosemerry Wahtola Trommer is to float upon a never-ending waterfall of wonder . . . Pay attention. The elegance of her simplicity will blind you to her mastery. Then, she will let you fall, head over heels, in Love. With everything. — Wayne Muller (from the foreword), author of *Sabbath and Legacy of the Heart*

The Environmentalism of the Poor Joan Martínez-Alier, 2003-01-01 This is a wonderful book rich in empirical detail, full of theoretical insights, offering hope in a bleak world, altogether inspiring. . . a tremendous achievement of having helped to create the disciplines of ecological economics and political ecology, bringing them alive in this book, and making their insights available to the developing worldwide movement for environmental justice. Pat Devine, *Environmental Values* Any book by the ecological economist Joan Martinez-Alier is a Big Publishing Event. . . this is a book by a writer who loves his subject, knows it well, respects its history, and is driven by the desire to do justice. These are qualities enough to send you to the bookshop or the library in search of *The Environmentalism of the Poor*. Andrew Dobson, *Environment Politics* The book is a worthy and in-depth contribution to debates about political ecology and ecological economics. It should be read by all environmental and ecological economists who wish to make their analysis more relevant. Tim Forsyth, *Progress in Development Studies* A marvellous combination of insight, research and activism. . . A must-read for policymakers, practitioners and academics alike, and for anyone concerned with sustainable development, environmentalism or poverty alleviation. *Human Ecology Journal* . . . one of the most important environmental books to have been published recently. Martinez-Alier integrates two of the most significant areas of environmental theory political ecology and ecological economics. Eurig Scandrett, *Friends of the Earth Scotland* The book has three main strengths: its bibliography, which is

extensive; the global perspective on the environmental movement and the relationship with poverty; and the general theme of this interdisciplinary work, which is not so much to provide new information, but to consider the existing information in a new light. Martinez-Alier is to be commended for taking such a step in the literature . . . the writing style is extremely approachable . . . Recommended. B.J. Peterson, Choice [Joan] Martinez-Alier combines the honest discipline of a scholar with the passionate energy of an activist. The result, *The Environmentalism of the Poor*, is highly recommended! Herman E. Daly, University of Maryland, College Park, US *The Environmentalism of the Poor* has the explicit intention of helping to establish two emerging fields of study political ecology and ecological economics whilst also investigating the relations between them. The book analyses several manifestations of the growing environmental justice movement , and also of popular environmentalism and the environmentalism of the poor , which will be seen in the coming decades as driving forces in the process to achieve an ecologically sustainable society. The author studies, in detail, many ecological distribution conflicts in history and at present, in urban and rural settings, showing how poor people often favour resource conservation. The environment is thus not so much a luxury of the rich as a necessity of the poor. It concludes with the fundamental questions: who has the right to impose a language of valuation and who has the power to simplify complexity? Joan Martinez-Alier combines the study of ecological conflicts and the study of environmental valuation in a totally original approach that will appeal to a wide cross-section of academics, ecologists and environmentalists.

Wicket Season Gabrielle Prendergast,2012-03-14 He'll do whatever it takes to make the school cricket team -- even if it means stepping out of the spotlight

Capricious Gabrielle Prendergast,2014-04-01 Ella's grade-eleven year was a disaster (Audacious), but as summer approaches, things are looking up. She's back together with her brooding boyfriend, Samir, although they both want to keep that a secret. She's also best buddies with David and still not entirely sure about making him boyfriend number two. Though part of her wants to conform to high school norms, the temptation to be radical is just too great. Managing two secret boyfriends proves harder than Ella expected, especially when Samir and David face separate family crises, and Ella finds herself at the center of an emotional maelstrom. Someone will get hurt. Someone risks losing true love. Someone might finally learn that self-serving actions can have public consequences. And that someone is Ella.

Won Ton Lee Wardlaw,2011-02-15 Sometimes funny, sometimes touching, this adoption story, Won Ton, told entirely in haiku, is unforgettable. Nice place they got here. Bed. Bowl. Blankie. Just like home! Or so I've been told. Visiting hours! Yawn. I pretend not to care. Yet -- I sneak a peek. So begins this beguiling tale of a wary shelter cat and the boy who takes him home.

Jack & Sadie Jb Salsbury,2019-10-03 Sadie Slade was the love of my life. I left for college promising her I'd be back in four years. She stayed behind promising me she'd wait. We both broke our promises.When we bump into each other five years later my feelings for her come rushing to the surface. I want her back. She wants me gone. How quickly my Sadie Girl has forgotten-I've never been the type of man who accepts defeat. No matter the cost. Jack Daniels was my entire life. Until he wasn't. Now he's back and thinks we should pick up where we left off. I miss the simplicity of what we had. I miss how easily we fit together. Truthfully...I miss him.But if I allow him to get too close, he'll see I'm not the same girl he left behind five years ago. He thinks I'm upset about our break up. The truth is so much worse.

Buyology Martin Lindstrom,2010-02-02 NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today's message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today's consumer that will captivate anyone who's been seduced—or turned off—by marketers' relentless attempts to win our loyalty, our money, and our minds.

Over in the Wetlands Caroline Starr Rose,2015-07-14 Publishing in time for the tenth anniversary of Hurricane Katrina, here is a beautiful read-aloud about animal families preparing for an impending storm in their bayou habitat. Journey to the Louisiana wetlands and watch as all the animals of the bayou experience one of nature's most dramatic and awe-inspiring

events: a hurricane. The animals prepare—swimming for safer seas, finding cover in dens, and nestling their young close to protect them. During the height of the storm, even the trees react, cracking and moaning in the wind. At last, the hurricane yawns and rests, and animals come out to explore their world anew.
