The Dirty Dozen Robert A. Levy 2009-08-01 Alexander Hamilton wrote that "the judiciary, from the nature of its functions, will always be the least dangerous to the political rights of the Constitution." If only that were true. The Founding Fathers wanted the judicial branch to serve as a check on the power of the legislative and executive, and gave the Supreme Court the responsibility of interpreting the Constitution in a way that would safeguard individual freedoms. In some cases, like *Brown V. Board of Education* and *United States V. Lopez*, the Court fulfilled its role, protecting us from racial discrimination and the heavy hand of the federal government. But sadly, the Supreme Court has also handed down many destructive decisions on cases you probably never learned about in school. In *The*

Dirty Dozen, two distinguished legal scholars shed light on the twelve worst cases, which allowed government to interfere in your private contractual agreements; curtail your rights to criticize or support political candidates; arrest and imprison you indefinitely, without filing charges; and seize your private property, without compensation, when someone uses the property for criminal activity—even if you don't know about it! This is not a book just for lawyers. It's for all Americans who want to understand how the Supreme Court can affect our right to life, liberty, and the pursuit of happiness. This paperback edition includes a new preface, "Guns, Bailouts, and Empathetic Judges," which highlights new and critical issues that have arisen since the book's initial edition was published in 2008.

A Girl Like Her Talia Hibbert 2018-03-14 Ruth Kabbah is okay with being an outcast. Ex-military man Evan is gorgeous, confident... and he's Ruth's new neighbour. Unlike everyone else, he doesn't seem to mind her crotchety ways or her cooking disasters. In fact, if Ruth didn't know any better, she might think Evan *likes* her. But Ruth's been burned before, and some lessons are hard to forget. She can't let her guard down—no matter how many home-cooked meals Evan brings over. Because affection is temporary, trust is made to be broken, and the heat of desire is a dangerous thing to play with. So why does this man feel so safe? Children Of Freedom Marc Levy 2009-04-14 Eighteen-year-old Jeannot—named Raymond before he fled from the Nazis—and his younger brother, Claude, have found refuge in Toulouse, but freedom is a fleeting illusion in the south of France. Decrees are issued daily limiting the rights of foreigners, and Jews like Jeannot and Claude are still in danger. Determined to fight the Germans and the Vichy collaborators, Jeannot seeks out the Resistance and joins the 35th Brigade, a band of young foreigners who have escaped arrest and now fight back with stolen weapons and the desperation of youth. In the Brigade, Jeannot finds friends, forbidden romance and even a kind of normalcy until tragedy and treachery strike, and everything he has built is torn apart. Marc Levy is France's #1 bestselling novelist, with more than 15 million copies of his seven books sold around the world. In *The Children of Freedom*, he has created a gut-wrenching portrait of young men and women forced to grow up too fast and denied their place in the country they love. Based on true stories of the Resistance, including the

story of Levy's own father, *The Children of Freedom* resurrects untold tales of the Second World War and gives them their rightful place in our narrative history.

The Long Song Andrea Levy 2010-04-20 You do not know me yet but I am the narrator of this work. My son Thomas, who is printing this book, tells me it is customary at this place in a novel to give the reader a little taste of the story that is held within its pages. As your storyteller, I am to convey that this tale is set in Jamaica during the last turbulent years of slavery and the early years of freedom that followed. July is a slave girl who lives upon a sugar plantation called Amity and it is her life that is the subject of this tale. She was there when the Baptist War raged in 1831, and she was also present when slavery was declared no more. My son says I must convey how the story also tells of July's mama, Kitty; of the negroes that worked the plantation land; of Caroline Mortimer, the white woman who owned the plantation; and many more persons besides—far too many for me to list here. But what befalls them all is carefully chronicled upon these pages for you to peruse. Perhaps, my son suggests, I might write that it is a thrilling journey through that time in the company of people who lived it. All this he wishes me to pen so the reader can decide if this is a novel they might care to consider. Cha, I tell my son, what fuss-fuss. Come, let them just read it for themselves.

The First Day Marc Levy 2012-10-01T00:00:00Z A mysterious object found in a dormant volcano will forever change the lives of Adrian and Keira. Together they embark on an extraordinary adventure which takes them from the banks of Lake Turkana in the heart of Africa to the mountains of China. They seek to reveal the object's hidden secrets and answer the age-old question: how did life begin? Keira is a passionate and ambitious archaeologist leading her first dig in the isolated Omo Valley in Ethiopia. When a sand storm destroys the site, she has no choice but to abandon her field work and go home: to Paris, to her sister and to the mundane city life she despises. She returns with an unusual stone, which was given to her by a local orphan boy. While visiting the museum where her sister works, a probing elderly professor takes a particular interest in Keira and above all in the talisman she wears around her neck. Adrian is an accomplished astrophysicist, who has taken a leave of absence from the illustrious Academy of Sciences in London to pursue his study of the stars in a remote observatory on the Atacama plateau in Chile. Ill-adapted to the altitude, he has to be rushed back to England before he can fully pursue his bold and unconventional research. Keira and Adrian's paths briefly cross while competing for an illustrious grant in London. Years earlier they had spent one brief, romantic summer together before going their separate ways. Keira leaves her necklace behind in Adrian's apartment, sparking his interest as a scientist and fuelling his hopes for a rekindling of old passions. With the help of a hapless administrator from the Academy, Adrian begins his own investigation of the stone's origins, but it quickly becomes apparent that he is not the only one interested in the mysterious object, and that the other party is determined to get hold of it at any cost. Adrian seeks out Keira who has returned to Africa. What innocently begins as a common pursuit of knowledge soon takes a dangerous turn when their guide is found dead. Despite heightening threats to their own safety, Keira and Adrian continue their search, which takes them across the world, from cutting edge laboratories to venerable museums, from forgotten Greek islands to monasteries hidden in the mountains. They follow maps written in the stars and clues buried within the earth, always guided by the slowly unraveling secrets of the strange object from Ethiopia. But the professor and his cohorts are always on their tracks and one step ahead... "A wonderful read" - Le Parisien "Over the years, Marc Levy has seduced millions of readers. What's his secret? He writes about quintessential themes, such as love, friendship, and the mysteries of life, in an accessible way." - Paris Match "A page-turning adventure story." - Nice Matin

An extraordinary story of love and vengeance in the international art world... A fast-paced and gripping tale... Jonathan and Anna are in the final stages of planning their Bostonian high-society wedding, when Peter, an auctioneer for Christie's and Jonathan's best friend, calls with news that will change all of their lives. He has just been informed that a small London art gallery has come in to possession of five canvases by the 19th century artist, Vladimir Radskin. Jonathan, the world's foremost expert on Radskin, immediately understands the significance of the information. If the gallery indeed has five paintings, then the collection could very well include Radskin's final canvas - a painting that has become legendary ever since it went missing in mysterious circumstances before its public unveiling in 1868. For Jonathan, who has spent the last twenty years of his career searching for this painting, its discovery and authentication would finally establish the under-appreciated Radskin as a true master. For Peter, whose recent auctions have come under fire from the critics, an ensuing high-profile sale would represent an opportunity to salvage his career. When Jonathan meets Clara, the owner of the London gallery, he is overwhelmed by a dizzying sense of déjà-vu. But in the desperate rush to authenticate the fifth painting, he simply puts this strange feeling down to their shared passion for the late Russian painter. He and Clara are both convinced that this breath-taking painting is Radskin's mythical last work, but they need proof: for *The Young Girl in the Red Dress* is unsigned. Their quest takes them from a gallery in Piccadilly to a paint workshop in Florence, from a laboratory in the Louvre to a mysterious manor in the English countryside. The more Jonathan and Clara uncover about Radskin's last painting, the more they discover about themselves: three very different lives, three inextricably intertwined destinies, caught in a race against time. "His writing flows, it is elegant and fast paced... In *Another Life* is *Romeo and Juliet*, set in today's modern world. It's dense, beautiful, and just as tragic." - Paris Match "His stories make us dream, his writing fills us with emotion." - Elle

An Ugly Truth Sheera Frenkel 2021-07-13 'The ultimate takedown' New York Times 'The problem of Facebook is Zuckerberg. And the question posed by this splendid book is: what are we going to do about him?' Observer 'A comprehensive account . . . drawn from first-hand testimonies. Thoroughly engaging' The Times 'What marks this book out is how it gets under the corporate bonnet . . . to build a picture of astounding corporate arrogance and irresponsibility' Sunday Times 'An explosive new book' Daily Mail _____ Award-winning New York Times reporters Sheera Frenkel and Cecilia Kang unveil the tech story of our times in a riveting, behind-the-scenes exposé that offers the definitive account of Facebook's fall from grace. Once one of Silicon Valley's greatest success stories, for the past five years, Facebook has been under constant fire, roiled by controversies and crises. It turns out that while the tech giant was connecting the world, they were also mishandling users' data, allowing the spread of fake news, and the amplification of dangerous, polarising hate speech. Critics framed the narrative as the irreconcilable conflict between the platform's lofty mission to advance society by bringing people together while also profiting off of them. The company, many said, had simply lost its way. But the truth is far more complex. Drawing on their unrivalled sources, Frenkel and Kang take readers inside the complex court politics, alliances and rivalries within the company, its growing political influence as well as its skirmishes with privacy groups and the FTC, to shine a light on the fatal cracks in the architecture of the tech behemoth. Their explosive, exclusive reporting led them to a shocking conclusion: The missteps of the last five years were not an anomaly but an inevitability - this is how the platform was built to perform. In a period of great upheaval, growth has remained the one constant under the leadership of Mark Zuckerberg and Sheryl Sandberg. Each has stood by as their technology is co-opted by hate-mongers, criminals and corrupt political regimes across the globe, with devastating consequences. In *An Ugly Truth*, they are at last held accountable.

Undaunted, he uses his new-found employment to further his mission - and now he has a pirate costume and a hot-dog cart to do it with...
