Celebrating Women Choi Chatterjee, 2012-02-07 The first International Women's Day was celebrated in Copenhagen in 1910 and adopted by the Bolsheviks in 1913 as a means to popularize their political program among factory women in Russia. By 1918, Women's Day had joined May Day and the anniversary of the October Revolution as the most important national holidays on the calendar. Choi Chatterjee analyzes both Bolshevik attitudes towards women and invented state rituals surrounding Women's Day in Russia and the early Soviet Union to demonstrate the ways in which these celebrations were a strategic form of cultural practice that marked the distinctiveness of Soviet civilization, legitimized the Soviet mission for women, and articulated the Soviet construction of gender. Unlike previous scholars who have criticized the Bolsheviks' for repudiating their initial commitment to Marxist feminism, Chatterjee has discovered considerable continuity in the way that they imagined the ideal woman and her role in a communist society. Through the years, Women's Day celebrations temporarily empowered women as they sang revolutionary songs, acted as strong protagonists in plays, and marched in processions carrying slogans about gender equality. In speeches, state policies, reports, historical sketches, plays, cartoons, and short stories, the passive Russian woman was transformed into an iconic Soviet Woman, one who could survive, improvise, and prevail over the most challenging of circumstances.

Celebrate International Women's Day ,1971

Introduction to International Women's Day Gilad James, PhD, International Women's Day is celebrated on March 8th every year. This day is dedicated to celebrating the social, economic, cultural, and political achievements of women all over the world. It is also an opportunity to draw attention to the ongoing struggle for gender equality and women's rights across the globe. Throughout history, women have had to fight for their right to vote, to receive an education, to work outside of the home, and to be treated equally under the law. While progress has been made, there is still a long way to go before women are truly equal to men in all areas of life. International Women's Day is a reminder of both how far we've come and how far we still have to go. By bringing attention to the challenges faced by women and celebrating their victories, we can all work towards a more equitable and just world. The theme for International Women's Day 2021 is Choose to Challenge. This theme encourages everyone to challenge and call out gender bias and inequality. It is a reminder that we all have a role to play in

creating a more gender-equal world. The COVID-19 pandemic has also highlighted the gender inequalities that still exist in our society. Women make up the majority of frontline workers and healthcare professionals, but they also face the burden of caring for children and elderly family members at home. Domestic violence rates have also increased during the pandemic, showing how important it is to continue fighting for women's rights. On International Women's Day, we can choose to challenge these inequalities and work towards creating a more equal and just world for everyone.

Through the lens of Barbara Ehrenreich and Arlie Russell Hochschild's groundbreaking work, *Global Woman: Nannies, Maids, and Sex Workers in the New Economy*, readers are transported into the lives of women who navigate the complexities of the modern world, often facing exploitation, discrimination, and hardship. Yet, amidst these challenges, they find resilience, strength, and a fierce determination to create a better future for themselves and their communities. As readers journey through the pages of this book, they'll encounter stories of triumph and adversity, of struggle and resilience, of hope and empowerment. They'll witness the transformative power of education, healthcare, and economic opportunity in shaping the lives of women around the world. And most importantly, they'll be inspired to join the global movement for gender equality and justice.
