The Joy of Clojure Chris Houser, Michael Fogus, 2014-05-28 Summary The Joy of Clojure, Second Edition is a deep look at the Clojure language. Fully updated for Clojure 1.6, this new edition goes beyond just syntax to show you the why of Clojure and how to write fluent Clojure code. You'll learn functional and declarative approaches to programming and will master the techniques that make Clojure so elegant and efficient. Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications. About the Technology The Clojure programming language is a dialect of Lisp that runs on the Java Virtual Machine and JavaScript runtimes. It is a functional programming language that offers great performance, expressive power, and stability by design. It gives you built-in concurrency and the predictable precision of immutable and persistent data structures. And it's really, really fast. The instant you see long blocks of Java or Ruby dissolve into a few lines of Clojure, you'll know why the authors of this book call it a joyful language. It's no wonder that enterprises like Staples are betting their infrastructure on Clojure. About the Book The Joy of Clojure, Second Edition is a deep account of the Clojure language. Merchants of Truth Jill Abramson, 2019-02-07 The gripping and definitive in-the-room account of the revolution that has swept the news industry over the last decade and reshaped our world. The last decade has seen the News industry face unprecedented change. The sometimes-century old institutions which were once the bastions of truth have had their dominance eroded by vast innovations in viral technology and, as millennial appetites force the industry to choose between principles of objectivity and impartiality, the survivors must confront the horrifying cost of their success: sexual scandal, fake news, the election of President Trump and the shaking of democracy. Taking us behind the scenes at four media titans - BuzzFeed, VICE, The New York Times and The Washington Post - Abramson reveals the human drama behind this shift: one involving deal-making tycoons, thrusting reporters, hard-bitten editors, egomaniacs, bullshitters, provocateurs and bullies, with some surfing and others drowning in the breaking wave of change. 'A cracking, essential read... Abramson knows where most of the bodies are buried and is prepared to draw the reader a detailed map' Guardian
