Intra-Asian Trade and the World Market A.J.H. Latham, Heita Kawakatsu, 2006-04-18 Intra-Asian trade is a major theme of recent writing on Asian economic history. From the second half of the nineteenth century, intra-Asian trade flows linked Asia into an integrated economic system, with reciprocal benefits for all participants. But although this was a network from which all gained, there was also considerable inter-Asian competition between Asian producers for these Asian markets, and those of the wider world. This collection presents captivating snap-shots of trade in specific commodities, alongside chapters comprehensively covering the region. The book covers: China's relative backwardness, Japanese copper exports, Japan's fur trade, Siam's luxury rice trade, Korea, Japanese shipbuilding, the silk trade, the refined sugar trade, competition in the rice trade, the Japanese cotton textile trade to Africa, multilateral settlements in Asia, the cotton textile trade to Britain, and the growth of the palm oil industry in Malaysia and Indonesia. The opening of Asia, especially in Japan and China, liberated the creative forces of the market within the new intra-Asian economy. Filling a particular gap in the literature on intra-Asian trade prior to the twentieth century, this is an insightful study that makes a considerable contribution to our knowledge of the Asian trade both prior to, and after, the arrival of colonial states. It will be of great interest to historians and economists focusing on Asia.

The Victorians and Ancient Rome Norman Vance, 1997-04-21 THE VICTORIANS & ANCIENT ROME Norman Vance has written the first full-length study of the impact on Victorian Britain of the history and literature of ancient Rome. His comprehensive account shows how not only scholars and poets but also engineers, soldiers, scientists and politicians gained

inspiration from the writing, theory and practice of their Roman predecessors. The Roman theme is traced in nineteenth-century painting and music as well as literature and political discussion. There are chapters on the imaginative influence throughout the nineteenth century of five major Roman poets, framed by other chapters on Rome and European revolutions, nineteenth-century versions of Roman history, fictions of Rome, imperialism and decadence. Attention is also paid to the influence of developments in archaeology both at Rome and Pompeii and at Romano-British sites. Professor Vance provides a fascinating account of the sense of connection Victorian Britain felt with the Roman experience, a connection made the more complex because Britain had once been a Roman colony and because Christianity took hold and spread under the Roman Empire.

Equity and inclusion need not be seen as extra work but as important objectives that guide curriculum development. This book provides strategies to create a more purposeful, intentional curriculum that addresses equity and inclusion across disciplines without compromising content. We bring together practical lesson plans and instructional options that faculty can use and adapt to deliver content in a way that is

mindful of inclusion and equity.

In the Shadow of Hitler Rebecca Haynes,Martyn Rady,2014-02-18 Many important right-wing political figures from the late nineteenth century and inter-war period have been overshadowed in history by Nazi Germany and Adolf Hitler. 'In the Shadow of Hitler: Personalities of the Right in Central and Eastern Europe' reviews the careers of sixteen of the most important figures in right-wing politics in Central and Eastern Europe during this period. It includes politicians, ideologue sand 'men of action' in Germany and Austria, Hungary, Czechoslovakia, Ukraine, Poland, Romania, Serbia and Croatia. Some of these were Nazi sympathisers or contributed to the making of Nazi ideology. Others rejected German National Socialism in favour of rival nationalist and right-wing ideologies and programmes, deliberately distancing themselves from Nazism. As th epower and ambition of the Third Reich grew in the1930s, so many of the personalities reviewed here were obliged to come to terms with the shadow cast over the region by Nazi Germany and to make their own political and other compromises. This volume includes chapters on the principal fascist and right-wing politicians in inter-war Central and Eastern Europe - among others, Codreanu and Antonescu in Romania, Gombos and Szalasi inHungary, Ljotic in Serbia, Dmowski in Poland, Henlein and Tiso in Czechoslovakia - while also analysing the intellectual contribution to the development of the right made by an earlier generation including D'Annunzio, Schonerer and Fritsch. All of these 'personalities of the right' are recognized as influential in the development and making of right-wing politics in their home countries and internationally. Nevertheless, in most historical writing on the history of the European right, they have been generally accorded a lesser place since the focus of interest is so often directed upon Nazi Germany and its leader. It is the purpose of this volume to bring the right-wing leadership of late nineteenth century and inter-war Central and Eastern Europe out from under the shadow cast by Adolf Hitler.
