**The Iranian Political Language** Yadullah Shahibzadeh,2015-10-14 In this detailed study of modern Iran, Yadullah Shahibzadeh examines changes in people's understanding of politics and democracy. **Iran in the 20th Century** Touraj Atabaki,2009-06-17 Political upheaval has marked Iran's history throughout the twentieth century. Wars, revolutions, coups and the impact of modernism have shaped Iran's historiography, as they have the country's history. Originally based on oral and written sources, which underpinned traditional genealogical and dynastic history, Iran's historiography was transformed in the early 20th century with the development of a 'new' school of presenting history. Here emphasis shifted from the anecdotal story-telling genre to social, political, economic, cultural and religious history-writing. A new understanding of the nation state and the importance of identity and foreign relations in defining Iran's place in the modern world all served to transform the perspective of Iranian historiography. Touraj Atabaki here brings together a range of rich contributions from international scholars who cover the leading themes of the historiography of 20th-century Iran, including constitutional reform and revolution, literature and architecture, identity, women and gender, nationalism, modernism, Orientalism, Marxism and Islamism.

*The Shah, the Islamic Revolution and the United States* Darioush Bayandor,2018-12-02 The Islamic Revolution in 1979 transformed Iranian society and reshaped the political landscape of the Middle East. Four decades later, Darioush Bayandor draws upon heretofore untapped archival evidence to reexamine the complex domestic and international dynamics that led to the Revolution. Beginning with the socioeconomic transformation of the 1960s, this book follows the Shah's rule through the 1970s, tracing the emergence of opposition movements, the Shah's blunders and miscalculations, the influence of the post-Vietnam zeitgeist and the role of the Carter administration. *The Shah, the Islamic Revolution and the United States* offers new revelations about how Iran was thrown into chaos and an ailing ruler lost control, with consequences that still reverberate today.

**Legal Literacy in Premodern European Societies** Mia Korpiola,2018-10-10 This book analyses the legal literacy, knowledge and skills of people in premodern and modernizing Europe. It examines how laymen belonging both to the

common people and the elite acquired legal knowledge and skills, how they used these in advocacy and legal writing and how legal literacy became an avenue for social mobility. Taking a comparative approach, contributors consider the historical contexts of England, Finland, France, Germany, Italy and Sweden. This book is divided into two main parts. The first part discusses various groups of legal literates (scriveners, court of appeal judges and advocates) and their different paths to legal literacy from the Middle Ages to the nineteenth century. The second part analyses the rise of the ownership and production of legal literature - especially legal books meant for laymen - as means for acquiring a degree of legal literacy from the eighteenth to the early twentieth century.

The second deals with the recruitment and training of officers and men. In the third, contemporary reactions to war are analysed in a variety of social and intellectual contexts.
