The Shape of Things to Come H. G. Wells,2016-09-14 First published in 1933, *The Shape of Things to Come* is science fiction novel written by H. G. Wells. Within it, world events between 1933 and 2106 are speculated with a single superstate representing the solution to all humanity's problems. A classic example of Wellsian prophesy, this volume is highly recommended for fans of his work and of the science fiction genre. Herbert George Wells (1866 - 1946) was a prolific English writer who wrote in a variety of genres, including the novel, politics, history, and social commentary. Today, he is perhaps best remembered for his contributions to the science fiction genre thanks to such novels as *The Time Machine* (1895), *The Invisible Man* (1897), and *The War of the Worlds* (1898). Many vintage books such as this are becoming increasingly scarce and expensive. We are republishing this book now in an affordable, modern, high-quality edition complete with a specially commissioned new biography of the author.

Abbé Sicard's Deaf Education Emmet Kennedy, 2015-09-01 Abbé Sicard was a French revolutionary priest and an innovator of French and American sign language. He enjoyed a meteoric rise from Toulouse and Bordeaux to Paris and, despite his non-conformist tendencies, he escaped the guillotine. In fact, the revolutionaries acknowledged his position and during the Terror of 1794, they made him the director of the first school for the deaf. Later, he became a member of the first Ecole Normale, the National Institute, and the Académie Française. He is recognized today as having developed Enlightenment theories of pantomime, signing, and a form of universal language that later spread to Russia, Spain, and America. This is the first book-length biography of Sicard published in any language since 1873, despite Sicard's international renown. This thoughtful, engaging work explores French and American sign language and deaf studies set against the backdrop of the French Revolution and Napoleon.

Economic Sophisms ; And, What is Seen and what is Not Seen édéric Bastiat,2017 This volume, the third in our Collected Works of Frederic Bastiat, includes two of Bastiat's best-known works, *Economic Sophisms* and the pamphlet *What is Seen & What is Not Seen*. Both *Economic Sophisms* and *What is Seen and What is Not Seen* share similar stylistic features and were written with much the same purpose in mind, namely, to disabuse people of misperceptions they might have had about the benefits of free trade and free markets. *Economic Sophisms* and the other writings in this volume show Bastiat at his creative journalistic best: his skill at mixing serious and amusing ways of making his arguments is unsurpassed; the quality of his insights into profound economic issues is often exceptional and sometimes well ahead of his time; his ability to combine his political lobbying for the Free Trade Movement, his journalism, his political activities during the 1848 Revolution, and his scholarly activities is most unusual; and the humour, wit and literary knowledge that he scatters throughout his writings demonstrate that he deserves his reputation as a most gifted writer on economic matters, one who still deserves our attention today.
