Sàngó in Africa and the African Diaspora Joel E. Tishken,Toyin Falola,Akintunde Akinyemi,2009-06-22 Sàngó in Africa and the African Diaspora is a multidisciplinary, transregional exploration of Sàngó religious traditions in West Africa and beyond. Sàngó—the Yoruba god of thunder and lightning—is a powerful, fearful deity who controls the forces of nature, but has not received the same attention as other Yoruba orishas. This volume considers the spread of polytheistic religious traditions from West Africa, the mythic Sàngó, the historical Sàngó, and syncretic traditions of Sàngó worship. Readers with an interest in the Yoruba and their religious cultures will find a diverse, complex, and comprehensive portrait of Sàngó worship in Africa and the African world.

Oil, Politics and Violence Max Siollun,2009 An insider traces the details of hope and ambition gone wrong in the Giant of Africa, Nigeria, Africa's most populous country. When it gained independence from Britain in 1960, hopes were high that, with mineral wealth and over 140 million people, the most educated workforce in Africa, Nigeria would become Africa s first superpower and a stabilizing democratic influence in the region. However, these lofty hopes were soon dashed and the country lumbered from crisis to crisis, with the democratic government eventually being overthrown in a violent military

coup in January 1966. From 1966 until 1999, the army held onto power almost uninterrupted under a succession of increasingly authoritarian military governments and army coups. Military coups and military rule (which began as an emergency aberration) became a seemingly permanent feature of Nigerian politics. The author names names, and explores how British influence aggravated indigenous rivalries. He shows how various factions in the military were able to hold onto power and resist civil and international pressure for democratic governance by exploiting the country's oil wealth and ethnic divisions to its advantage.--Publisher's description.

Africa Richard Dowden,2014-01-02 A revised and updated edition of the landmark book about the miraculous continent by the finest living Africa correspondent. Every time you try to say 'Africa is...' the words crumble and break. From every generalisation you must exclude at least five countries. And just as you think you've nailed down a certainty, you find the opposite is also true. Africa is full of surprises. For the past three decades, Richard Dowden has travelled this vast and varied continent, listening, learning, and constantly re-evaluating all he thinks he knows. Country by country, he has sought out the local and the personal, the incidents, actions, and characters to tell a story of modern sub-Saharan Africa - an area affected by poverty, disease and war, but also a place of breathtaking beauty, generosity and possibility. The result is a landmark book, compelling, illuminating, and always surprising. This revised edition has an additional chapter on Ethiopia and has been updated throughout to reflect changes such as the death of Mandela and the attack on the Westgate Mall in Nairobi. It also includes two new maps and a new final chapter considering the shape of Africa's future.
