AFRICA THE WAY FORWARD O GAWAIN AKO, 2013-02-08 The hour of reawakening is now. Mother Africa beckons to her children in love. Africa moves forward and there will be happiness once more. Her beauty will radiate in harmony with the Will of the Creator. She will cry no more. True leaders will arise in this time of judgement and the noble woman of Africa will recognize her calling and she will be called the true mother. True knowledge shall once more descend on the inhabitants, spiritual maturity will be seen in the nobility and deeds of her sons. Africa the way forward clarifies and readdresses the confusion that surrounds the African lands today. From governance to spirituality and religion, it tries to simplify and re-directs the seeker to the eternal unchangeable Truth which can only break the stronghold of the darkness and destroy it. This book directs he who reads without prejudice to the right path of freedom and liberation.

Nigerian Languages, Literatures, Culture and Reforms Ndimele, Ozo-mekuri, 2016-04-30 The papers in this volume were selected from the Silver Jubilee edition of the Annual Conference of the Linguistic Association of Nigerian (LAN) which was held at the Nigerian Educational Research and Development Council (NERDC), Abuja, Nigeria. The Silver Jubilee edition is dedicated to the father of Nigerian Linguistics, Professor Emeritus Ayo Bamgbose. Professor Emeritus Bamgbose was the first indigenous Professor of Linguistics in Nigeria, and the first black African to teach linguistics in any known university south of the Sahara. He was there from the very beginning, and together with co-operation of people such as the late Professor Kay Williamson, he nurtured Nigerian linguistics. He is not just a foremost Nigerian linguist, but also a most famous, respected, celebrated, distinguished, and cherished African linguist of all times. To be candid, Nigerian linguistics is synonymous with Professor Emeritus Bamgbose. In 58 well-written chapters by experts in their fields, the book covers aspects of Nigerian languages, linguistics, literatures and culture. The papers have not been categorized into sections; rather they flow, hence there is some overlapping in the arrangement. The book is an essential resource for all who are interested to learn about current trends in the study of languages, linguistics and related subject-matters in Nigeria.

Alphaherpesviruses Sandra Knowles Weller, 2011 Alphaherpesviruses are a fascinating group of DNA viruses that includes important human pathogens such as herpes simplex virus type 1 (HSV-1), HSV-2, and varicella-zoster virus (VZV): the causative agents of cold sores, genital ulcerous disease, and chickenpox/shingles, respectively. A key attribute of these viruses is their ability to establish lifelong latent infection in the peripheral nervous system of the host. Such persistence requires subversion of the host's immune system and intrinsic antiviral defense mechanisms. Understanding the mechanisms of the immune evasion and what triggers viral reactivation is a major challenge for today's researchers. This has prompted enormous research efforts into understanding the molecular and cellular biology of these viruses. This up-to-date and comprehensive volume aims to distill the most important research in this area providing a timely overview of the field. Topics covered include: transcriptional regulation, DNA replication, translational control, virus entry and capsid assembly, the role of microRNAs in infection and oncolytic vectors for cancer therapy. In addition there is coverage of virus-host interactions, including apoptosis, subversion of host protein quality control and DNA damage response pathways, autophagy, establishment and reactivation from latency, interferon responses, immunity and vaccine development. Essential reading for everyone working with alphaherpesviruses and of interest to all virologists working on latent infections.

Environmental Contaminants in Food United States. Congress. Office of Technology Assessment, 1979 Abstract: The Office of Technology Assessment presents an evaluation of federal and state efforts to control environmental contamination of food by organic chemicals, metals and radioactive substances. Economic impacts are enormous, not only in food loss but health costs. The only sure method of preventing contamination is to prevent release of toxic substances into the

environment. The Food and Drug Administration is responsible on the interstate level for identifying and regulating environmental contaminants, which is done by setting tolerance or action levels. However, no policy exists which defines the balance of health hazards, and problems are aggravated by the complexity of the food industry, and lack of coordination by various agencies. Options for the future are to continue in the present mode; amend the Food, Drug and Cosmetic Act to deal specifically with the issues; establish an investigating and monitoring system; and improve federal response to problems.

The Voice of the Night Masquerade Ezenwa-Ohaeto, 1996 The author explains his poetic mission thus: 'it is the cultural tradition in my part of the world, that when abominations become unbearable, and the truth must be told with great courage, then the night masquerade appears...in order to set a senseless practice right; sometimes the night masquerade must confront the ruler and point out the nakedness of his utterances...this is the voice of the night masquerade, I am only the medium.' The ensuing collection of poems is divided into three sections: 'Night' - alluding to the night the mother of the spirits walked the length and breadth of the clan, weeping for her murdered son, in 'Things Fall Apart'; 'Night Vigil', and 'Night Passages'. This book was joint winner of the Association of Nigerian Authors' Poetry Prize in 1997.

Languages and Culture in Nigeria Ozo-Mekuri Ndimele, 2019-09-06 Language and Culture in Nigeria contains 97 papers from a wide range of areas in Language and Linguistics written by colleagues, friends and former students of Professor Okon Essien. The collection fulfills a gap in the quest for a documented piece of work on the general pattern and structure of Nigerian names and is an invaluable material for comparative purposes. There are 19 papers in section A focusing mainly on various aspects of sociolinguistics and the role of language in society. Section B comprises 24 papers which fall in the area of stylistics, literature and gender studies. Section C contains 21 papers focusing on applied areas of linguistics. Section D comprises 11 papers on information science and communication studies. Section E contains papers that focus on the formal areas of linguistics, i.e. phonetics, phonology, morphology, syntax & semantics. Section F is on Okon Essien as a celebrity. It comprises papers which not only x-ray the contributions of the celebrity to the study of languages and linguistics in Nigeria, but also situate him in the context of other linguistic celebrities globally. Section F is rapped up with a collection of brilliant poems dedicated to Professor Okon Essien by the 'Ode Grandmaster', Dr. Obed Ojukwu. There is also an appendix at the end of the work which is Professor Okon Essien's intimidating curriculum vitae.
