Preventing HIV Among Young People in Southern and Eastern Africa Kaymarlin Govender,Nana K

Poku,2020-12-30 This book provides an overview of the current epidemiology of the HIV epidemic among young people in Eastern and Southern Africa (ESA) and examines the efforts to confront and reduce the high level of new HIV infections amongst young people. Taking a multi-dimensional approach to prevention, the contributors discuss the many challenges facing these efforts, in view of the slow progress in curbing the incidence of HIV amongst young people, focusing particularly on the structural and social drivers of HIV. Through an examination of these issues, chapters in this book provide valuable insights on how to mitigate HIV risk among young people and what can be regarded as the catalysts to mounting credible policy and programmatic responses required to achieve epidemic control in the region. The contributors draw on examples from a range of primary and secondary data sources to illustrate promising practices and challenges in HIV prevention, demonstrating links between conceptual approaches to prevention and lessons learnt from implementation projects in the region. Bringing together social scientists and public health experts who are actively engaged in finding effective solutions, the book discusses 'which interventions works', 'why they work', and the limitations and gaps in our knowledge to curb the pandemic amongst young people. As such it is an important read for researchers focusing on HIV/AIDS and public health. Anthropogenic Geomorphology József Szabó,Lóránt Dávid,Denes Loczy,2010-04-10 Anthropogenic geomorphology studies society's impact on the geographical environment, and especially on the Earth's surface. This volume provides guidance to students discussing the basic topics of anthropogenic geomorphology. The chapters cover both its system, and its connections with other sciences, as well as the way the subject can contribute to tackling today's practical problems. The book represents all fields of geomorphology, giving an introduction to the diversity of the discipline through examples taken from a range of contexts and periods, and focusing on examples from Europe. It is no accident that anthropogenic geomorphology has been gaining ground within geomorphology itself. Its results advance not only the theoretical development of the science but can be applied directly to social and economic issues. Worldwide, anthropogenic geomorphology is an integral and expanding part of earth sciences curricula in higher education, making this a timely and

relevant text.

Second Language Writing Systems Vivian Cook, Benedetta Bassetti, 2005-01-01 Second Language Writing Systems looks at how people learn and use a second language writing system, arguing that they are affected by characteristics of the first and second writing systems, to a certain extent independently of the languages involved. This book for the first time presents the effects of writing systems on second language reading and writing and on second language awareness, and provides a new platform for discussing bilingualism, biliteracy and writing systems.

Taposiris Magna gyz voros, 2006 The coastal acropolis of Taposiris Magna, 45 km west of Alexandria on Egypt's north coast, was founded by Ptolemy Philadelphos II in the early third century BC. Between 1998 and 2004, Hungarian excavations, led by charismatic archaeologist Gyzo Vörös, revealed many of the hidden secrets of the history of this important site. Within the Egyptian-style pylons and enclosure walls, the team discovered the foundations of a Greek-style sanctuary-the only Greek temple so far found in Egypt. That sanctuary was carefully and deliberately dismantled in the Roman period in order to turn the whole temple into a garrisoned fortress: columns from the sanctuary were used to heighten the enclosure walls. Later, at the end of the fourth century, a Christian basilica was constructed inside the fortress complex, and the temple became a monastery. This fully illustrated book reveals all the discoveries of the Hungarian excavations at this remarkably protean site, including plans and reconstructions of the Greek sanctuary and the Byzantine basilica, as well as a series of stunning finds: a beautiful basalt statue of Isis, a cache of Roman bronze cultic paraphernalia, and a hoard of Byzantine gold coins and jewelry.

Applied Decision Analysis Francisco Javier Girón, 2013-03-09 Taking advantage of the many specialists visiting Spain prior to the INFORMS Meeting in Barcelona, held from July 14th to July 17th 1997, we organized a work shop on Decision Analysis Applications at the Real Academia de Ciencias, Madrid, Spain, from July 11th to 12th 1997, under the sponsorship of the Instituto Español. This workshop had a precedent in the International Conference Decision Making: Towards the 21st Century also held at the Real Academia de Ciencias in 1993. The idea of organizing an event, this time devoted to applications of Decision Analysis, was due to Prof. Sixto Ríos, who some four years ago, sponsored and encouraged by the Royal Academy of Sciences, was the creator of an Interdisciplinary Working Group on Decision Analysis -formed with researchers from within and outside this Academy- which has been active since then, organizing periodical meetings, and whose last project has turned out into this Workshop. The workshop turned out to be an stimulating opportunity for communicating and discussing the enormous variety of applications of Decision Sciences. In this volume we have included

most of the invited papers and a selection of refereed contributed papers. Due to the varied nature of the applications, we have grouped them into five groups ending, as way of an epilog, with a paper by Sarin which contains important insights and reflections on the nature of Decision Analysis in public and private sectors.

The Human Element in Shipping Casualties Donald T. Bryant,1991-01-01

The Hebrew Israelite Community Alexander Paul Hare,1998 The Hebrew Israelite Community introduces the African-Americans who are members of the Hebrew Israelite Community in Israel from a sociological and anthropological perspective. This community has passed through several phases since its beginning in Chicago in 1963 as the followers of a charismatic leader, to the Black Africa movement in Liberia, a millennial cult, to a utopian community. The spiritual leader of this community, Ben Ammi provides a foreword to the book. The author begins with an introduction to the Black Americans and their children who are members of the Hebrew Israelite Community in Israel that provides a description of the social structure and activities of the community. He moves into a discussion of the holistic lifestyle of the community that includes high moral standards, communal sharing, and the production of clothing from natural fibers, as well as the unique system of preventive health care. The well defined structures of both the society and the family, including the place of priests and women are presented. Most of all the author emphasizes the importance of the community and its place within the larger world.

Secret Daughter Shilpi Somaya Gowda,2010-03-09 “Moving and thought-provoking and informative and imaginative and beautifully executed. What a wonderful story!” —Mary Jane Clark “This book is a must for anyone touched by adoption, or India, or the delicate dynamic between adolescent girls and their mothers.” —Sujata Massey, author of *Shimura Trouble* Secret Daughter, a first novel by Shilpi Somaya Gowda, explores powerfully and poignantly the emotional terrain of motherhood, loss, identity, and love through the experiences of two families—one Indian, one American—and the child that binds them together. A masterful work set partially in the Mumbai slums so vividly portrayed in the hit film *Slumdog Millionaire*, Secret Daughter recalls the acclaimed novels of Kim Edwards and Thrity Umrigar, yet sparkles with the freshness of a truly exciting new literary voice.

The Tennis Partner Abraham Verghese,2023-12-12 An unforgettable, illuminating story of how men live and how they survive, from Abraham Verghese, the acclaimed New York Times bestselling author of *Cutting for Stone* and *The Covenant of Water*, an Oprah's Book Club Pick. “Heartbreaking. . . . Indelible and haunting, [The Tennis Partner] is an elegy to friendship found, and an ode to a good friend lost.”—The Boston Globe When Abraham Verghese, a physician whose marriage is unraveling, relocates to El Paso, Texas, he hopes to make a fresh start as a staff member at the county hospital. There he meets David Smith, a medical student recovering from drug addiction, and the two men begin a tennis ritual that allows them to shed their inhibitions and find security in the sport they love and with each other. This friendship between doctor and

intern grows increasingly rich and complex, more intimate than two men usually allow. Just when it seems nothing can go wrong, the dark beast from David's past emerges once again—and almost everything Verghese has come to trust and believe in is threatened as David spirals out of control.

Animal Ethics in Context Clare Palmer, 2010 It is widely agreed that because animals feel pain we should not make them suffer gratuitously. Some ethical theories go even further: because of the capacities that they possess, animals have the right not to be harmed or killed. These views concern what not to do to animals, but we also face questions about when we should, and should not, assist animals that are hungry or distressed. Should we feed a starving stray kitten? And if so, does this commit us, if we are to be consistent, to feeding wild animals during a hard winter? In this controversial book, Clare Palmer advances a theory that claims, with respect to assisting animals, that what is owed to one is not necessarily owed to all, even if animals share similar psychological capacities. Context, history, and relation can be critical ethical factors. If animals live independently in the wild, their fate is not any of our moral business. Yet if humans create dependent animals, or destroy their habitats, we may have a responsibility to assist them. Such arguments are familiar in human cases—we think that parents have special obligations to their children, for example, or that some groups owe reparations to others. Palmer develops such relational concerns in the context of wild animals, domesticated animals, and urban scavengers, arguing that

different contexts can create different moral relationships.

The Normalization of the HIV and AIDS Epidemic in South Africa Katinka de Wet, 2019-08-22 This book explores the normalization of HIV and AIDS, reflecting upon the intended and unintended consequences of the multifarious AIDS industry. The Normalization of the HIV and AIDS Epidemic in South Africa deals with the manner in which the HIV and AIDS epidemic has become such a well-known disease with such wide-ranging ramifications. With its focus on the AIDS industry, this book examines issues such as the framing of the HIV and AIDS epidemic in a manner that greatly fostered notions of stigmatization and moralization. This book looks at the complexities of dealing with the epidemic in contemporary South Africa, examining the difficulties of addressing the social aspects of a disease in the context of increased focus on technological quick-fix solutions. De Wet explores these issues thoroughly, looking at the social determinants of the spread of the disease as well as the configuration and the nature of the responses to it, and their increasing marginalization as factors to address in an era of increased biomedicalization and concomitant normalization. This book will intrigue scholars and students of public health, global health care, medical sociology, and African Studies.
