The Senate Intelligence Committee Report on Torture (Academic Edition) Senate Select Committee On Intelligence, 2020-02-18 The study edition of book the Los Angeles Times called, The most extensive review of U.S. intelligence-gathering tactics in generations. This is the complete Executive Summary of the Senate Intelligence Committee's investigation into the CIA's interrogation and detention programs -- a.k.a., The Torture Report. Based on over six million pages of secret CIA documents, the report details a covert program of secret prisons, prisoner deaths, interrogation practices, and cooperation with other foreign and domestic agencies, as well as the CIA's efforts to hide the details of the program from the White House, the Department of Justice, the Congress, and the American people. Over five years in the making, it is presented here exactly as redacted and released by the United States government on December 9, 2014, with an introduction by Daniel J. Jones, who led the Senate investigation. This special edition includes: • Large, easy-to-read format. • Almost 3,000 notes formatted as footnotes, exactly as they appeared in the original report. This allows readers to see obscured or clarifying details as they read the main text. • An introduction by Senate staffer Daniel J. Jones who led the investigation and wrote the report for the Senate Intelligence Committee, and a forward by the head of that committee, Senator Dianne Feinstein.

Social Capital Partha Dasgupta, Ismail Serageldin, 2000 This book contains a number of papers presented at a workshop organised by the World Bank in 1997 on the theme of 'Social Capital: Integrating the Economist's and the Sociologist's Perspectives'. The concept of 'social capital' is considered through a number of theoretical and empirical studies which discuss its analytical foundations, as well as institutional and statistical analyses of the concept. It includes the classic 1987 article by the late James Coleman, 'Social Capital in the Creation of Human Capital', which formed the basis for the development of social capital as an organising concept in the social sciences.

Reining in the Imperial Presidency United States. Congress. House. Committee on the Judiciary. Majority Staff, 2009 Documents the various abuses that occurred during the Bush Admin. relating to the House Judiciary Committee's review and jurisdiction, and to develop a comprehensive set of recommendations to prevent the recurrence of these or similar abuses in the future. Contents: Preface: 'Deconstructing the Imperial Presidency,' which describes and critiques the key war power memos that gave rise to the concept of broad-based, unreviewable, and secret presidential powers in time of war. Also describes specific abuses of the Imperial Presidency relating to Judiciary Comm. inquiries. Includes a comprehensive set of 47 policy recommendations designed to respond to the abuses and excesses of the Bush Imperial Presidency.

Conflict of Interest in Medical Research, Education, and Practice Institute of Medicine, Board on Health Sciences Policy, Committee on Conflict of Interest in Medical Research, Education, and Practice, 2009-09-16 Collaborations of physicians and researchers with industry can provide valuable benefits to society, particularly in the translation of basic scientific discoveries to new therapies and products. Recent reports and news stories have, however, documented disturbing examples of relationships and practices that put at risk the integrity of medical research, the objectivity of professional education, the quality of patient care, the soundness of clinical practice guidelines, and the public's trust in medicine. Conflict of Interest in Medical Research, Education, and Practice provides a comprehensive look at conflict of interest in medicine. It offers principles to inform the design of policies to identify, limit, and manage conflicts of interest without damaging constructive collaboration with industry. It calls for both short-term actions and long-term commitments by

institutions and individuals, including leaders of academic medical centers, professional societies, patient advocacy groups, government agencies, and drug, device, and pharmaceutical companies. Failure of the medical community to take convincing action on conflicts of interest invites additional legislative or regulatory measures that may be overly broad or unduly burdensome. Conflict of Interest in Medical Research, Education, and Practice makes several recommendations for strengthening conflict of interest policies and curbing relationships that create risks with little benefit. The book will serve as an invaluable resource for individuals and organizations committed to high ethical standards in all realms of medicine.

The Effects of Early Social-Emotional and Relationship Experience on the Development of Young Orphanage Children The St. Petersburg-USA Orphanage Research Team,2009-04-27 Undertaken at orphanages in Russia, this study tests the role of early social and emotion experience in the development of children. Children were exposed to either multiple caregivers who performed routine duties in a perfunctory manner with minimal interaction or fewer caregivers who were trained to engage in warm, responsive, and developmentally appropriate interactions during routine care. Engaged and responsive caregivers were associated with substantial improvements in child development and these findings provide a rationale for making similar improvements in other institutions, programs, and organizations.

Beyond the Water's Edge Kathleen H. Hicks,Louis Lauter,Colin McElhinny,2018-10-15 This report assesses domestic political support for internationalist foreign policy by analyzing the motivations of members of Congress on key foreign policy issues. It includes case studies on major foreign policy debates in recent years, including the use of force, foreign aid, trade policy and U.S.-Russia relations. It also develops a new series of archetypes for describing the foreign policy worldviews of members of the 115th Congress to replace the current stale and unsophisticated labels of internationalist, isolationist, hawk and dove. Report findings emphasize areas of bipartisan cooperation on foreign policy issues given member ideologies.

Plea Bargaining's Triumph George Fisher,2003 Though originally an interloper in a system of justice mediated by courtroom battles, plea bargaining now dominates American criminal justice. This book traces the evolution of plea bargaining from its beginnings in the early nineteenth century to its present pervasive role. Through the first three quarters of the nineteenth century, judges showed far less enthusiasm for plea bargaining than did prosecutors. After all, plea bargaining did not assure judges "victory"; judges did not suffer under the workload that prosecutors faced; and judges had

principled objections to dickering for justice and to sharing sentencing authority with prosecutors. The revolution in tort law, however, brought on a flood of complex civil cases, which persuaded judges of the wisdom of efficient settlement of criminal cases. Having secured the patronage of both prosecutors and judges, plea bargaining quickly grew to be the dominant institution of American criminal procedure. Indeed, it is difficult to name a single innovation in criminal procedure during the last 150 years that has been incompatible with plea bargaining's progress and survived.

Perils of Judicial Self-Government in Transitional Societies David Kosař,2016-04 This book investigates the mechanisms of judicial control to determine an efficient methodology for independence and accountability. Using over 800 case studies from the Czech and Slovak disciplinary courts, the author creates a theoretical framework that can be applied to future case studies and decrease the frequency of accountability perversions.

Pensées Blaise Pascal,1995-12 Blaise Pascal, the precociously brilliant contemporary of Descartes, was a gifted mathematician and physicist, but it is his unfinished apologia for the Christian religion upon which his reputation now rests. The *Pensées* is a collection of philosophical fragments, notes and essays in which Pascal explores the contradictions of human nature in psychological, social, metaphysical and - above all - theological terms. Mankind emerges from Pascal's analysis as a wretched and desolate creature within an impersonal universe, but who can be transformed through faith in God's grace.
