Global Wage Report 2018/19, 2018 The 2018/19 edition analyses the gender pay gap. The report focuses on two main challenges: how to find the most useful means for measurement, and how to break down the gender pay gap in ways that best inform policy-makers and social partners of the factors that underlie it. The report also includes a review of key policy issues regarding wages and the reduction of gender pay gaps in different national circumstances. "The Global Wage Report is an indispensable for economists, trade unionists, employers and the interested public." – Hansjörg Herr, Berlin School of Economics and Law.

Higher education Great Britain: Department for Business, Innovation and Skills, 2011-06-28 This White Paper sets out the government's policies for the reform of higher education. The reforms seek to tackle three challenges (i) Putting higher education on a sustainable footing; (ii) Seeking to deliver a better student experience - that is, improvements in teaching, assessment, feedback and preparing the student for the world of work; (iii) Pushing for higher education institutions to take more responsibility for increasing social mobility. The Paper is divided into six chapters, with an annex. Chapter 1: Sustainable and fair funding; Chapter 2: Well-informed students driving teaching excellence; Chapter 3: A better student experience and better-qualified graduates; Chapter 4: A diverse and responsive sector; Chapter 5: Improved social mobility through fairer access; Chapter 6: A new, fit-for-purpose regulatory framework. By shifting public spending away from teaching grants and towards repayable tuition loans, the government believes higher education will receive the funding it needs whilst making savings on public expenditure. The reforms aim to deliver a more responsive higher education sector in which funding follows the decisions of learners and successful institutions are freed to thrive. Also, creating an environment in which there is a new focus on the student experience and the quality of teaching and in which further education colleges and other alternative providers are encouraged to offer a diverse range of higher education provision. The Government, through the Office for Fair Access (OFFA), will be introducing a National Scholarship Programme and will also increase

maintenance grants and loans for nearly all students. New Technology Innovation Centres will also be rolled out followed by publication of an innovation and research strategy, exploring the roles of knowledge creation, business investment, skills and training.

Non-University Higher Education in Europe James S. Taylor, José Brites Ferreira, Maria de Lourdes Machado, Rui Santiago, 2008-06-01 Today, a substantial portion of higher education is provided outside of the traditional universities in non-university institutions with a multitude of varied characteristics. In recent decades, higher education systems have been subjected to many changes and reforms throughout the world. One of the most important was undoubtedly the expansion of higher education in the second half of the last century from an elite system to one for the masses. While institutions of higher learning have been in existence for approximately 1,000 years, this exponential growth has been much more recent. This movement toward mass higher education has created substantial national impacts on the development of the systems of higher education. While common denominators of change and adaptation can be identified globally, there remain important differences from country to country. There are many factors challenging higher education today and in the foreseeable future. In one form or another, these issues and trends can be seen in higher education systems throughout the world. They include chronic underfunding, marketisation and competition, alternative providers, massification, internationalisation, governance, leadership, strategic management, accountability, accreditation, and social relevance. Another key factor for many countries, especially in Europe, and the focus of this book, is the current and future status of the higher education systems that differentiate the university and non-university sectors.

Who's Who in Plastics Polymers, First Edition James P. Harrington, 2000-05-09 This is the first edition of a unique new plastics industry resource: Who's Who in Plastics & Polymers. It is the only biographical directory of its kind and includes contact, affiliation and background information on more than 3300 individuals who are active leaders in this industry and related organizations. The biographical directory is in alphabetical order by individual name. After each individual name, current affiliation and contact information is provided. This includes job title, full name of affiliation (e.g., business, university, association, research institute), business address, and electronic contacts-telephone, fax, e-mail and Web site. Home addresses and contacts are also provided for most of the entries. In the biographical summary section for each

individual, the following information is provided: date and place of birth, education and educational achievements, work experience including company or other organization names, positions held and time periods. Also included in this section are the number of patents awarded, articles, and book chapters authored, and conference sessions chaired. Other information includes titles of books edited or written by the individual, listing of conferences where the person had a leadership position, and listing of memberships and positions held in professional organizations. Finally, professional and civic awards are listed. Indexes provide listings of individuals by company or other organization name, and also by geographical location. Who's Who in Plastics & Polymers is now published in a limited edition of 1,000 copies. This edition will not be reprinted. To be sure of receiving your copy, please act now. Information on ordering follows sample pages on the reverse.

Inclusive Wealth Report 2018 Shunsuke Managi,Pushpam Kumar,2018-07-18 The Inclusive Wealth Index provides important insights into long-term economic growth and human well-being. The Index measures the wealth of nations through a comprehensive analysis of a country's productive base and the country's wealth in terms of progress, well-being and long-term sustainability. It measures all assets which human well-being is based upon, in particular, produced, human and natural capital to create and maintain human well-being over time.

Global Education Digest UNESCO Institute for Statistics,2009 The 2009 Global Education Digest (GED) presents a wide range of education indicators to assess progress towards Education for All and Millennium Development Goals. These cross-nationally comparable indicators also provide benchmarks for the performance of national education systems. The Digest provides data for the school year ending in 2007 or the latest year available, as well as data for 2008 for a small number of countries. It includes data tables from the World Education Indicators (WEI) programme, which are comparable across a group of 62 countries, including those that are members of the Organisation for Economic Co-operation and Development (OECD). In addition, time series data on tertiary education from 1970 onwards are presented. The special focus of this edition is the analysis of emerging global trends in tertiary education, highlighting the rapid growth of tertiary education systems since 1970, changing patterns in tertiary education graduates by

Challenging Behaviour in Dementia Graham Stokes,2017-07-05 Understanding socially disruptive behavior in dementia is never easy. Most explanations offer neither solace nor solutions for families and carers, and treatment is often characterized by policies of control and containment. The result of Graham Stokes' 15 years of clinical work with people who are challenging, this book: disputes the traditional medical model of dementia and asserts that if we reach behind the barrier of cognitive devastation and decipher the cryptic messages, it can be shown that much behavior is not meaningless but meaningful. It contrasts the medical interpretation that sees anti-social behavior as mere symptoms of disease with a person-centered interpretation that resonates change and resolution. It offers a radical and innovative interpretation of challenging behavior consistent with the new culture of dementia care, focusing on needs to be met rather than problems to be managed.

Cattle Behaviour and Welfare Clive Phillips, 2008-04-15 Cattle are one of our major domesticated animals, a higher mammal with complex mental and physical needs. The benefit of a knowledge of cattle behaviour means veterinarians and stockpeople can recognise abnormal behaviour signs for disease diagnosis and indication of an inadequate environment. This book replaces the book *Cattle Behaviour*, written by the same author and published by Farming Press in 1993. The text has been revised and updated and four new chapters on cattle welfare have been added. The main interest of many reading a book on behaviour is its relation to the welfare of the species, so the combination of welfare and behaviour is a logical one.
