Global Wage Report 2018/19 ,2018 The 2018/19 edition analyses the gender pay gap. The report focuses on two main challenges: how to find the most useful means for measurement, and how to break down the gender pay gap in ways that best inform policy-makers and social partners of the factors that underlie it. The report also includes a review of key policy issues regarding wages and the reduction of gender pay gaps in different national circumstances. “The Global Wage Report is an indispensable for economists, trade unionists, employers and the interested public.” – Hansjörg Herr, Berlin School of Economics and Law.

Post-16 Skills Plan Great Britain: Department for Education,Great Britain: Department for Business, Innovation and Skills,2016-07-08 Dated July 2016. Print and web pdfs available at <https://www.gov.uk/government/publications> Web ISBN=9781474132381

Higher education Great Britain: Department for Business, Innovation and Skills,2011-06-28 This White Paper sets out the government's policies for the reform of higher education. The reforms seek to tackle three challenges (i) Putting higher education on a sustainable footing; (ii) Seeking to deliver a better student experience - that is, improvements in teaching, assessment, feedback and preparing the student for the world of work; (iii) Pushing for higher education institutions to take more responsibility for increasing social mobility. The Paper is divided into six chapters, with an annex. Chapter 1: Sustainable and fair funding; Chapter 2: Well-informed students driving teaching excellence; Chapter 3: A better student experience and better-qualified graduates; Chapter 4: A diverse and responsive sector; Chapter 5: Improved social mobility through fairer access; Chapter 6: A new, fit-for-purpose regulatory framework. By shifting public spending away from teaching grants and towards repayable tuition loans, the government believes higher education will receive the funding it needs whilst making savings on public expenditure. The reforms aim to deliver a more responsive higher education sector in which funding follows the decisions of learners and successful institutions are freed to thrive. Also, creating an environment in which there is a new focus on the student experience and the quality of teaching and in which further education colleges and other alternative providers are encouraged to offer a diverse range of higher education provision. The Government,

through the Office for Fair Access (OFFA), will be introducing a National Scholarship Programme and will also increase maintenance grants and loans for nearly all students. New Technology Innovation Centres will also be rolled out followed by publication of an innovation and research strategy, exploring the roles of knowledge creation, business investment, skills and training.

Inclusive Wealth Report 2018 Shunsuke Managi,Pushpam Kumar,2018-07-18 The Inclusive Wealth Index provides important insights into long-term economic growth and human well-being. The Index measures the wealth of nations through a comprehensive analysis of a country's productive base and the country's wealth in terms of progress, well-being and long-term sustainability. It measures all assets which human well-being is based upon, in particular, produced, human and natural capital to create and maintain human well-being over time.

Mathematical Epidemiology Fred Brauer,Pauline van den Driessche,J. Wu,2008-04-30 Based on lecture notes of two summer schools with a mixed audience from mathematical sciences, epidemiology and public health, this volume offers a comprehensive introduction to basic ideas and techniques in modeling infectious diseases, for the comparison of strategies to plan for an anticipated epidemic or pandemic, and to deal with a disease outbreak in real time. It covers detailed case studies for diseases including pandemic influenza, West Nile virus, and childhood diseases. Models for other diseases including Severe Acute Respiratory Syndrome, fox rabies, and sexually transmitted infections are included as applications. Its chapters are coherent and complementary independent units. In order to accustom students to look at the current literature and to experience different perspectives, no attempt has been made to achieve united writing style or unified notation. Notes on some mathematical background (calculus, matrix algebra, differential equations, and probability) have been prepared and may be downloaded at the web site of the Centre for Disease Modeling (www.cdm.yorku.ca).

Human Factors Psychology P.A. Hancock,1987-10-01 This book is a collection of contemporary applications of psychological insights into practical human factors issues. The topics are arranged largely according to an information processing/energetic approach to human behavior. Consideration is also given to human-computer interaction and organizational design.

Black Marxism Cedric J. Robinson,2021-02-04 'A towering achievement. There is simply nothing like it in the history of Black radical thought' Cornel West 'Cedric Robinson's brilliant analyses revealed new ways of thinking and acting' Angela Davis 'This work is about our people's struggle, the historical Black struggle' Any struggle must be fought on a people's own terms, argues Cedric Robinson's landmark account of Black radicalism. Marxism is a western construction, and therefore inadequate to describe the significance of Black communities as agents of change against 'racial capitalism'. Tracing the emergence of European radicalism, the history of Black African resistance and the influence of these on such key thinkers as W. E. B. Du Bois, C. L. R. James and Richard Wright, Black Marxism reclaims the story of a movement.

The Government's alcohol strategy Great Britain: Home Office, 2012-03-23 This strategy signals a radical change in the approach to irresponsible drinking and resultant criminal and anti-social behaviour and the increasing health problems created by the current levels of alcohol consumption. In 2012-11 there were nearly 1 million alcohol-related violent crimes and 1.2 million alcohol-related hospital admissions. The problem has developed because cheap alcohol is too readily available; increasing numbers of people drink at home before going on a night out (pre-loading); the Licensing Act failed to deliver a café culture; too many places cater for people who drink to get drunk regardless of the consequences for themselves or others; and individuals who cause the problems have not been challenged enough over their behaviour. The availability of cheap alcohol will be curtailed through the introduction of a minimum unit price for alcohol. The exact level is to be agreed, but if it was 40p, it is estimated there would be 50,000 fewer crimes each year and 900 fewer alcohol-related deaths by the end of the decade. Consultations will also aim to end multi-buy promotions. Local areas and agencies will be given powers to challenge people's behaviour and make it easier to take action against, and even close down, problem premises. Other measures include early morning restriction orders and a late night levy so that businesses open late contribute to the costs of policing. The drinks industry has a crucial role to play in changing the drinking culture towards positive socialising. And the risks of excessive consumption will be widely circulated.

Croatia: Past, Present and Future Perspectives Matko Marusić, 2020-09-24 Croatia is today popularly known as a beautiful country, with an excellent soccer team, but the rest of its long history is still not well known outside scholarly circles. It is less known for example that Croatia started as an ancient kingdom established in the 7th century. It lost its independence in the 11th century and had a troubled history until the first democratic elections in 1990 and independence in 1991. Since the Great Schism in the 11th century, Croatia has been the easternmost country of the Catholic West facing the Orthodox East. Attacked by the Ottoman Turks in the 15th century, it has been called ever since *Antemurale Christianitatis* (The Bulwark of Christianity). Croatia went through difficult times during the two World Wars and in the inter-war and the post-war periods until it won its independence and later gained membership to the European Union in 2013. This book reveals important information about its history, the struggles it endured to gain independence, the key problems of post-communist social and economic transition, and prospects for the future, summarized at the end as an analysis of its strengths and weaknesses, as well as its external threats and opportunities. The book is divided into two parts, Croatian History Timeline and Past in Present and Future, because the Croatian past informs its present and future in a profound way. There are few sources in English that present so many until-now unknown aspects of this European country as does this book. It may be said that it is the first reliable and objective guide to give essential understanding of the Republic of Croatia published so far in the English language--

10 Things I Wish I Knew About Depression Before it Almost Took My Life Beth-Sarah Wright, 2014-03-08 This book addresses the power of stigmas surrounding depression. It breaks down their power and builds hope for those who may be struggling with depression to recognize the symptoms, respond to them by seeking help and to ultimately get relief from this illness. Based on her own journey with depression, Dr. Wright uses humor, faith and a practical sensibility to turn 10 common stigmas on their heads and to educate and encourage people to feel safe and courageous when facing depression.

Contemporary Issues in International Business Davide Castellani, Rajneesh Narula, Quyen T. K. Nguyen, Irina Surdu, James T. Walker, 2018-02-14 The ACADEMY OF INTERNATIONAL BUSINESS (UK and Ireland Chapter) Published in association with the UK and Ireland Chapter of the Academy of International Business. This brand new edited collection addresses the growing uncertainty and socio-economic challenges of globalisation and its profound implications for the strategies and operations of multinational enterprises (MNEs). Responding to the new balance in international business, the authors offer valuable insights into the co-evolutionary processes involved in headquarters-subsidiary relationships, the need for novel strategies by MNEs to retain competitive advantage, improve performance and contribute to the global economy.

Reserves in the Future Force 2020 Great Britain. Ministry of Defence, Great Britain. Parliament, 2013-07-01 This White Paper sets out the future relationships Defence seeks with reservists and their families, their employers and society. Under the Future Reserves 2020 programme the Government has committed an additional £1.8 billion over ten years. The route from selection, is being simplified, making it easier for reservists to get to the level of training required. There will be improved alignment of pay and benefits with regulars. Reservists' total remuneration will be increased through the provision of a paid annual leave entitlement. From April 2015, when the new Armed Forces pension scheme is introduced, reservists will accrue pension entitlements for time spent on training as well as when mobilised. Welfare support will also be delivered to regulars and reservists alike, and their families, according to the impact of military service and their need. Recruitment of Army Reserve officers and those leaving the Regular Army will be encouraged to join the Reserves through bonuses of up to £5,000. A National Relationship Management scheme will be established to strengthen relationships with employer organisations and the largest employers from both the public and private sector and there will be provision of extra financial support to small and medium sized employers. New legislation will be introduced to enable mobilisation for the full range of tasks which our Armed Forces may be asked to undertake. The Territorial Army will also be renamed the 'Army Reserve' to reflect the significant changes in its role and its integration into the Whole Force.

Inclusive Wealth Report 2012 United Nations University International Human Dimensions Programme, United Nations Environment Programme, 2012-06-07 The indicators used in the past to measure human societies' success have proven to be insufficient. Economic production indicators such as gross domestic product (GDP) and the Human Development Index (HDI) fail to reflect the state of natural resources or ecological conditions and both focus exclusively on the short term, without indicating whether national policies are sustainable over longer periods of time. The Inclusive Wealth Report 2012 presents an index that measures the wealth of nations by carrying out a comprehensive analysis of a country's capital assets, including manufactured, human and natural capital, and its corresponding values: the Inclusive Wealth Index (IWI). Results show changes in inclusive wealth from 1990 to 2008 and feature a long-term comparison to GDP for an initial group of 20 countries. This report provides policy-makers and planning authorities with a tool to assess the state of a country's productive base and its development over time.

Contemporary Mathematics for Business and Consumers Robert A. Brechner, 1999-06-18 This book is an adventure into today's business world of the new millennium and its associated mathematical procedures. It is designed to provide solid mathematical preparation and foundation for students going on to various courses and careers. Packed with current real-life examples, discussions and illustrations, it features today's most important and frequently used business math procedures and applications. Bob Brechner's expansive expertise, both inside and out of the classroom is reflected in the text's reader-friendly writing style. The book begins with a business-oriented review of the basic operations, including whole numbers, fractions, and decimals. Once students have mastered these operations, they are introduced to the concept of basic equations and how equations are used to solve business problems. From that point, each chapter presents a business math topic that utilizes the student's knowledge of the basic operations and equations. In keeping with the philosophy of 'practice make perfect' the text contains over 2000 realistic business math exercises-many with multiple steps and answers- designed to prepare students to use math to make business decisions and develop critical-thinking and problem-solving skills.
