Narratives of Qualitative PhD Research Laura Gurney,Yi Wang,Roger Barnard,2022-06-19 The book provides a grounded, narrative exploration of contemporary qualitative PhD research in the fields of language education and applied linguistics. The chapters are authored by current and former PhD candidates studying in New Zealand, with commentaries from international experts in the field. The book contains ten chapters in addition to the foreword, introduction and afterword. Each chapter addresses a different stage of PhD candidature: pre-enrolment; the first six months, research design, literature review, data collection, data analysis, drafting chapters, supervision and feedback, publishing and the examination process. Each chapter includes a set of questions for the readers to reflect on issues raised by the authors, and a comprehensive list of references. The book is intended for an audience of prospective and current PhD candidates, PhD supervisors, academic language and learning advisors who work with PhD candidates, researchers working in the field of doctoral education, and university administrators in pertinent leadership roles.

Social and Sustainability Marketing Jishnu Bhattacharyya,Manoj Kumar Dash,Chandana Hewege,M.S. Balaji,Weng Marc Lim,2021-09-26 ... an important intervention in the conversation around social and ecological sustainability that draws on both micromarketing and macromarketing scholarship to help the reader understand the challenges with illustrations from insightful cases both from emerging and developed economies. This compilation should be essential reading for the discerning student of sustainable consumption and production. -- Professor Pierre McDonagh, Associate Editor, Journal of Macromarketing (USA); Professor of Critical Marketing & Society, University of Bath, UK Experts in the field of economics, management science, and particularly in the marketing domain have always been interested in and acknowledged the importance of sustaining profitable businesses while incorporating societal and environmental concerns; however, the level of existing literature and availability of teaching cases reflect a dearth of real case studies, especially those focused on marketing for social good. This book of actual case studies will address that need. In addition, this book is important and timely in providing a case book for instructors (those in both industry and academia) to help them in teaching and training the next generation of leaders through corporate training and universities. Currently, marketing for social good is

increasingly becoming a part of most curriculums under the umbrella of different titles, such as social marketing, green marketing, and sustainability marketing. The relevance of these studies is increasing across the globe. This book is composed of long and short real cases with varying complexity in different sectors. This case book will also cover some review articles for an overview of the recent developments in the study area. With these case studies, collections of questions, teaching materials, and real-life marketing scenarios, this book offers a unique source of knowledge to marketing professionals, students, and educators across the world. The main objective of this case book is to understand the applicability of marketing science (marketing for social good context, such as social marketing and sustainability marketing) in internet marketing related to e-buying behavior and e-WOM. In addition, it illustrates the various types of existing marketing practices that are relevant from both theoretical and practical points of view in this electronic era, as well as discussing other non-electronic marketing practices and focusing on consumer buying behavior. As a result, marketing managers can treat their customers according to their desired value. This book particularly explores the possibilities and advantages created by social marketing and sustainability marketing through the presentation of thorough review articles and case studies. This case book helps corporate training centers and universities with compact teaching reference materials in their relevant courses.

Routledge Handbook of Sport for Development and Peace Holly Collison, Simon C. Darnell, Richard Giulianotti, P. David Howe, 2018-10-09 Sport and physical activity are now regularly used to promote social and economic development, peacebuilding and conflict resolution, on an international scale. The emergence of the 'Sport for Development and Peace' (SDP) sector, comprised of governments, NGOs, sport organizations and others, reveals a high level of institutionalization of this activity, while SDP now constitutes an important element of the scholarly analysis of sport. This volume analyses and critically discusses the central elements of, and research issues within, the field of SDP and also provides a series of case studies (substantive and geographic) of key research. It is the most holistic and far-reaching text published on this topic to date. Featuring multidisciplinary perspectives from world-leading researchers and practitioners from around the world, the book covers a wide range of topics, including SDP structures, policies and funding streams, how SDP relates to human rights, social exclusion and corporate social responsibility, SDP and gender, SDP and disability, SDP and health, SDP and homelessness, and SDP and the environment. The Handbook of Sport for Development and Peace is a vital resource for researchers, students and educators in the fields of sports studies, physical education, sport for development and peace, sport-based youth development, sport and politics, sociology of sport, and sport policy.

Critical Dialogues Urban Governance De Livingstone BUNCE, 2020-12 Cities have been some of the most visible manifestations of the evolution of globalization and population expansion, and global cities are at the cutting edge of such changes. Critical Dialogues of Urban Governance, Development and Activism examines changes in governance, property development, urban politics, and community activism in two key global cities: London and Toronto. By taking these two cities

as empirical cases, the book engages in constructive dialogues about the forms, governmental mechanisms and practices, and policy and community-based responses to the concerns facing modern urban centers. Through three central issues, governance, real estate and housing, and community activism and engagement, the authors seek to understand London and Toronto from a nuanced perspective, promoting critical reflection on the experiences and evaluative critiques of each urban context, providing insight into each city's trajectory and engaging critically with wider phenomena and influences on the urban governance challenges in cities beyond.

Of Love and Papers Laura E. Enriquez, 2020-04-28 A free open access ebook is available upon publication. Learn more at www.luminosoa.org. *Of Love and Papers* explores how immigration policies are fundamentally reshaping Latino families. Drawing on two waves of interviews with undocumented young adults, Enriquez investigates how immigration status creeps into the most personal aspects of everyday life, intersecting with gender to constrain family formation. The imprint of illegality remains, even upon obtaining DACA or permanent residency. Interweaving the perspectives of US citizen romantic partners and children, Enriquez illustrates the multigenerational punishment that limits the upward mobility of Latino families. *Of Love and Papers* sparks an intimate understanding of contemporary US immigration policies and their enduring consequences for immigrant families.

Understanding the High Performance Workplace Neal M. Ashkanasy, Rebecca J. Bennett, Mark J. Martinko, 2016-06-10 This book asks the crucial question: When does high performance supervision become abusive supervision? As more organizations push to adopt high performance work practices (HPWP), the onus increasingly falls on supervisors to do whatever it takes to maximize the productivity of their work teams. In this rigorous, research-based volume, international contributors offer insight into how and when seemingly-beneficial workplace practices cross the line from motivation to abuse. By reviewing critical issues in both high performance work practices and abusive supervision, it illuminates the crossover between these two modes of work, and forges a path for future scholarship.

Skilled Interpersonal Communication Owen Hargie, 2004-06-01 Previous editions ('Social Skills in Interpersonal Communication') have established this work as the standard textbook on communication. Directly relevant to a multiplicity of research areas and professions, this thoroughly revised and updated edition has been expanded to include the latest research as well as a new chapter on negotiating. Key examples and summaries have been augmented to help contextualise the theory of skilled interpersonal communication in terms of its practical applications. Combining both clarity and a deep understanding of the subject matter, the authors have succeeded in creating a new edition which will be essential to anyone studying or working in the field of interpersonal communication.

The Aura in the Age of Digital Materiality. Rethinking Preservation in the Shadow of an Uncertain Future ,2020 This publication focuses on Factum Foundation's work to promote the use of high-resolution recording, digital restoration and creative re-materialisation while bringing into focus the changing attitudes towards owning, sharing, preserving and displaying cultural artefacts. It accompanies the exhibition 'La Riscoperta di un Capolavoro' at Palazzo Fava in Bologna, which has reunified the sixteen original panels that still exist from the Polittico Griffroni, a remarkable example of painting from the Bolognese Renaissance.0The altarpiece stood in the Griffroni Chapel in the Church of San Petronio until it was broken up in 1725. The 16 tempera paintings by Francesco del Cossa and Ercole de? Roberti will be exhibited together with 16 facsimiles arranged in what is thought to be the original configuration of the altarpiece ? allowing it to be seen as its patrons and makers intended.0The aim of the collection of thoughts and images in this book is to encourage reflection on the ways that digital technologies in virtual and physical form, are changing our approach to the preservation and conservation of the material evidence of the past.00'The Aura in the Age of Digital Materiality' brings together recent projects by Factum and a wonderfully diverse collection of essays, many written especially for this book, by collaborators and friends. Their widely different backgrounds and disciplines only illustrate the importance of this subject and the huge range of its relevance.00Exhibition: Genus Bononiae. Musei nella città, Bologna, Italy (12.03.-28.06.2020).

Handbook on Management and Employment Practices Paula Brough,Elliroma Gardiner,Kevin Daniels,2022-03-02 This handbook focuses on the contribution of management and employment practices to the health and wellbeing of workers. It provides readers with a comprehensive oversight of the latest research and thinking on these issues, with content provided by leading researchers in each of the fields covered. This reference work is divided into six sections that cover leadership, change management, human resource management practices, managing disabilities, work-life interfaces, and emerging challenges. The topics covered represent an interdisciplinary perspective, integrating psychology, social sciences, biomedical sciences, economics, employment relations and management. Through a spectrum of chapters this volume provides the best available scientific evidence to professionals and stakeholders on the interplay between management practices, health and wellbeing.

The Interpersonal Theory of Suicide Thomas E. Joiner,2009 This book offers a theoretical framework for diagnosis and risk assessment of a patient's entry into the world of suicidality, and for the creation of preventive and public-health campaigns aimed at the disorder. The book also provides clinical guidelines for crisis intervention and therapeutic alliances in psychotherapy and suicide prevention.

George IV Jonathan Marsden,Steven Parissien,Rebecca E. Lyons,Vanessa Remington,David Oakey (Picture library

assistant), Rufus Bird, Desmond Shawe-Taylor, David Beevers, Alexandra Loske, Sally Goodsir, Emma Stuart, Deborah Clarke (Curator), Rachel Peat, 2019 Published to accompany a major exhibition at The Queen's Galleries in London and Edinburgh, this book provides new insights into George IV as a collector. Although George led a life bounded by convention, he was a genuine connoisseur who was able to form an unrivalled collection of paintings, porcelain and furniture. These he presented and displayed in a series of architecturally adventurous spaces. His acquisitions continue to form the backdrop to royal ceremony, a legacy that is one of the principal pillars of today's magnificent Royal Collection.

The Cambridge Handbook of Technology and Employee Behavior Richard N. Landers, 2019-02-14 Experts from across all industrial-organizational (IO) psychology describe how increasingly rapid technological change has affected the field. In each chapter, authors describe how this has altered the meaning of IO research within a particular subdomain and what steps must be taken to avoid IO research from becoming obsolete. This Handbook presents a forward-looking review of IO psychology's understanding of both workplace technology and how technology is used in IO research methods. Using interdisciplinary perspectives to further this understanding and serving as a focal text from which this research will grow, it tackles three main questions facing the field. First, how has technology affected IO psychological theory and practice to date? Second, given the current trends in both research and practice, could IO psychological theories be rendered obsolete? Third, what are the highest priorities for both research and practice to ensure IO psychology remains appropriately engaged with technology moving forward?

Mathematics, Statistics & Computer Science Careers Research and Advisory Centre (Cambridge, England), 2007-04-15 Popular among university applicants and their advisers alike, these guides presents a wide range of information on a specific degree discipline, laid out in tabular format enabling at-a-glance course comparison.

Global University Rankings and the Politics of Knowledge Michelle Stack, 2021-06 For many institutions, to ignore your university's ranking is to become invisible, a risky proposition in a competitive search for funding. But rankings tell us little if anything about the education, scholarship, or engagement with communities offered by a university. Drawing on a range of research and inquiry-based methods, *Global University Rankings and the Politics of Knowledge* exposes how universities became servants to the education industry and its impact. Conceptually unique in its scope, *Global University Rankings and the Politics of Knowledge* addresses the lack of empirical research behind university and journal ranking systems. Chapters from internationally recognized scholars in decolonial studies provide readers with robust frameworks to understand the intersections of coloniality and Indigeneity and how they play out in higher education. Contributions from diverse geographical and disciplinary contexts explore the political economy of rankings within the contexts of the Global North and South, and examine alternatives to media-driven rankings. This book allows readers to consider the intersections of power and knowledge within the wider contexts of politics, culture, and the economy, to explore how assumptions about

gender, social class, sexuality, and race underpin the meanings attached to rankings, and to imagine a future that confronts and challenges cognitive, environmental, and social injustice.

Special Educational Needs ,2001

Risk Management and Corporate Governance Organization for Economic Cooperation and Development,2014 This sixth peer review of the OECD Principles of Corporate Governance analyses the corporate governance framework and practices relating to corporate risk management, in the private sector and in state-owned enterprises. The review covers 26 jurisdictions and is based on a general survey of all participating jurisdictions in December 2012, as well as an in-depth review of corporate risk management in Norway, Singapore and Switzerland. The report finds that while risk-taking is a fundamental driving force in business and entrepreneurship, the cost of risk management failures is often underestimated, both externally and internally, including the cost in terms of management time needed to rectify the situation. The reports thus concludes that corporate governance should ensure that risks are understood, managed, and, when appropriate, communicated.

Personality and Stress Cary L. Cooper,Roy L. Payne,1991-11-11 Explores the relationship between certain personality characteristics and stress. Examines the role of personality and individual differences in the stress process, highlighting the link between various personalities and demographics in health, behavior and other stress-related outcomes. Explores Type A behavior, neuroticism, locus of control, hardiness and other individual difference factors such as sex, age, gender and social class.
