Promoting the Educational Success of Children and Youth Learning English National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Division of Behavioral and Social Sciences and Education, Board on Science Education, Board on Children, Youth, and Families, Committee on Fostering School Success for English Learners: Toward New Directions in Policy, Practice, and Research, 2017-09-25 Educating dual language learners (DLLs) and English learners (ELs) effectively is a national challenge with consequences both for individuals and for American society. Despite their linguistic, cognitive, and social potential, many ELs—who account for more than 9 percent of enrollment in grades K-12 in U.S. schools—are struggling to meet the requirements for academic success, and their prospects for success in postsecondary education and in the workforce are jeopardized as a result. Promoting the Educational Success of Children and Youth Learning English: Promising Futures examines how evidence based on research relevant to the development of DLLs/ELs from birth to age 21 can inform education and health policies and related practices that can result in better educational outcomes. This report makes recommendations for policy, practice, and research and data collection focused on addressing the challenges in caring for and educating DLLs/ELs from birth to grade 12.

Evaluating the Impact of COVID-19 on NSW Schools, 2020 This report focuses on the impact of the COVID-19 pandemic on students and teachers in NSW government primary schools. In 2020, schools in 190 systems around the globe moved to a period of learning from home due to the pandemic. These school closures represent unprecedented disruption to teaching and learning for billions of students. Speculation about the impact of COVID-19 and learning from home on student academic achievement has been widespread, relying heavily on evidence from previous crisis situations. As a result, we've seen school

systems and governments draw on estimations based on modelling from international, short-term, small-scale disruptions to schooling caused by dramatic events, such as natural disasters and school shootings. However, the size and scale of disruption caused by COVID-19 is truly unprecedented and cannot be directly compared with these earlier accounts. To date, there has been little empirical evidence of what actually happened to student achievement during the closedown period. [Publisher summary, ed]

**The Senate Intelligence Committee Report on Torture (Academic Edition)** Senate Select Committee On Intelligence, 2020-02-18 The study edition of book the Los Angeles Times called, The most extensive review of U.S. intelligence-gathering tactics in generations. This is the complete Executive Summary of the Senate Intelligence Committee's investigation into the CIA's interrogation and detention programs -- a.k.a., The Torture Report. Based on over six million pages of secret CIA documents, the report details a covert program of secret prisons, prisoner deaths, interrogation practices, and cooperation with other foreign and domestic agencies, as well as the CIA's efforts to hide the details of the program from the White House, the Department of Justice, the Congress, and the American people. Over five years in the making, it is presented here exactly as redacted and released by the United States government on December 9, 2014, with an introduction by Daniel J. Jones, who led the Senate investigation. This special edition includes: • Large, easy-to-read format. • Almost 3,000 notes formatted as footnotes, exactly as they appeared in the original report. This allows readers to see obscured or clarifying details as they read the main text. • An introduction by Senate staffer Daniel J. Jones who led the investigation and wrote the report for the Senate Intelligence Committee, and a forward by the head of that committee, Senator Dianne Feinstein.

*Economic and fiscal outlook* Office for Budget Responsibility, 2010-11-29 The Office for Budget Responsibility was established to provide independent and authoritative analysis of the UK's public finances. Part of this role includes producing the official economic and fiscal forecasts. This report sets out forecasts for the period to 2015-16. The report also assesses whether the Government is on course to meet the medium-term fiscal objectives and presents preliminary observations on the long-run sustainability of the public finances. Since the June forecast, the UK economy has recovered more strongly than initially expected. The GDP growth was greater than expected in both the 2nd and 3rd quarters, but that unemployment levels have risen to levels that the June forecast did not anticipate until the middle of 2012. In general the world economy has also grown more strongly. CPI inflation has remained slightly higher than expected in June, whilst public finances have performed as forecast. The interest rates on UK debt are lower than in June. The OBR forecasts that the economy will continue to recover from the recession, but at a slower pace than the recoveries of the 1970s, 1980s and 1990s. The publication is divided into 5 chapters with two annexes.

Children's needs - parenting capacity Hedy Cleaver, Ira Unell, Great Britain Department for Education, 2011-10-12 This

second edition of Children's needs - parenting capacity updates the original exploration of the research literature in the light of legal and policy changes in England and findings from more recent national and international research. The edition has also been expanded to cover parental learning disabilities and how it may impact on parenting and children's health and development. The findings show that these parenting issues affect children differently depending on their age and individual circumstances. While some children grow up apparently unscathed, others exhibit emotional and behavioural disorders. This knowledge can inform practitioners undertaking assessments of the needs of children and their families and effective service responses. This publication is essential reading for practitioners, managers and policy makers concerned with improving the outcomes for children and families who are experiencing such problems.

Transformational Moments in Social Welfare Georgina Brewis, Angela Ellis Paine, Irene Hardill, Rose Lindsey, Rob Macmillan, 2021-09-14 ePDF and ePUB available Open Access under CC-BY-NC licence. During the consolidation of the welfare state in the 1940s, and its reshaping in the 2010s, the boundaries between the state, voluntary action, the family and the market were called into question. This interdisciplinary book explores the impact of these 'transformational moments' on the role, position and contribution of voluntary action to social welfare. It considers how different narratives have been constructed, articulated and contested by public, political and voluntary sector actors, making comparisons within and across the 1940s and 2010s. With a unique analysis of recent and historical material, this important book illuminates contemporary debates about voluntary action and welfare.

**Sexually Transmitted Infections** National Academies of Sciences, Engineering, and Medicine, National Academies Of Sciences Engineeri, Health and Medicine Division, Board On Population Health And Public He, Board on Population Health and Public Health Practice, Committee on Prevention and Control of Sexually Transmitted Infections in the United States, 2021-12-24 One in five people in the United States had a sexually transmitted infection (STI) on any given day in 2018, totaling nearly 68 million estimated infections. STIs are often asymptomatic (especially in women) and are therefore often undiagnosed and unreported. Untreated STIs can have severe health consequences, including chronic pelvic pain, infertility, miscarriage or newborn death, and increased risk of HIV infection, genital and oral cancers, neurological and rheumatological effects. In light of this, the Centers for Disease Control and Prevention, through the National Association of County and City Health Officials, commissioned the National Academies of Sciences, Engineering, and Medicine to convene a committee to examine the prevention and control of sexually transmitted infections in the United States and provide recommendations for action. In 1997, the Institute of Medicine released a report, *The Hidden Epidemic: Confronting Sexually Transmitted Diseases*. Although significant scientific advances have been made since that time, many of the problems and barriers described in that report persist today; STIs remain an underfunded and comparatively neglected field of public health practice and research. The committee reviewed the current state of STIs in the United States, and the resulting

report, Sexually Transmitted Infections: Advancing a Sexual Health Paradigm, provides advice on future public health programs, policy, and research.

**The Ocean and Cryosphere in a Changing Climate** Intergovernmental Panel on Climate Change (IPCC),2022-05-19  
The Intergovernmental Panel on Climate Change (IPCC) is the leading international body for assessing the science related to climate change. It provides policymakers with regular assessments of the scientific basis of human-induced climate change, its impacts and future risks, and options for adaptation and mitigation. This IPCC Special Report on the Ocean and Cryosphere in a Changing Climate is the most comprehensive and up-to-date assessment of the observed and projected changes to the ocean and cryosphere and their associated impacts and risks, with a focus on resilience, risk management response options, and adaptation measures, considering both their potential and limitations. It brings together knowledge on physical and biogeochemical changes, the interplay with ecosystem changes, and the implications for human communities. It serves policymakers, decision makers, stakeholders, and all interested parties with unbiased, up-to-date, policy-relevant information. This title is also available as Open Access on Cambridge Core.

**Grounded Theory** Melanie Birks, Jane Mills, 2011-01-19 This is a highly practical book which introduces the whole range of grounded theory approaches. Unlike most existing books in this area, which are written from a particular philosophical standpoint, this text provides a comprehensive description of the strategies and techniques employed in this methodology. Birks and Mills accessible and highly-readable text is driven by practical case examples throughout to help the reader get to grips with the process of doing grounded theory analysis for themselves. The book deploys a variety of educational activities to guide readers through both the principles and the application of grounded theory, making this an ideal starter text for those new to the approach. This is an ideal first introduction to grounded theory for any student or researcher looking to use grounded theory approaches in their analysis for the first time.

**Toward Gender Equality in East Asia and the Pacific** World Bank, 2012-10-01 Toward Gender Equality in East Asia and the Pacific examines the relationship between gender equality and development and outlines an agenda for public action to promote more effective and inclusive development in East Asian and Pacific countries.

*OECD/G20 Base Erosion and Profit Shifting Project Neutralising the Effects of Branch Mismatch Arrangements, Action 2 Inclusive Framework on BEPS* OECD, 2017-07-27 This 2017 report sets out recommendations for branch mismatch rules that would bring the treatment of these structures into line with the treatment of hybrid mismatch arrangements as set out in the 2015 Report on Neutralising the Effects of Hybrids Mismatch Arrangements (Action 2 Report).

*Higher Education in Asia* UNESCO Institute for Statistics, 2014 As demand for tertiary education continues to rise across Asia, countries are expanding their higher education systems outwards by constructing new universities, hiring more faculty and encouraging private provision. Many of these systems are also moving upwards by introducing new graduate programmes to ensure that there are enough qualified professors and researchers for the future. Based on data from the UNESCO Institute for Statistics (UIS) and a diverse range of national and international sources, this report provides a comprehensive view to evaluate different strategies to expand graduate education. Special focus is given to middle-income countries in the region which have recently experienced the most dramatic growth through an innovative mix of policies. For

example, interventions aimed at improving university rankings may be controversial but are nonetheless reshaping university reforms. The report highlights the pros and cons by comparing the three most commonly-used university ranking systems. Across the region, countries are not simply seeking to accommodate more students - they are striving to build top-quality universities that can produce the research and workforce needed for national economic development. So this report presents a range of data to better evaluate the economic benefits flowing from university research, as well as the spillover effects to the private sector. The authors also analyse the ways in which international collaboration can boost the productivity and quality of university-based research. Overall, this report provides the data and analysis to help countries weigh the balance of different policies to expand their higher education systems.

**The Fingerprint** U. S. Department Justice,2014-08-02 The idea of The Fingerprint Sourcebook originated during a meeting in April 2002. Individuals representing the fingerprint, academic, and scientific communities met in Chicago, Illinois, for a day and a half to discuss the state of fingerprint identification with a view toward the challenges raised by Daubert issues. The meeting was a joint project between the International Association for Identification (IAI) and West Virginia University (WVU). One recommendation that came out of that meeting was a suggestion to create a sourcebook for friction ridge examiners, that is, a single source of researched information regarding the subject. This sourcebook would provide educational, training, and research information for the international scientific community.
