Political Conflict in Western Europe Hanspeter Kriesi,Edgar Grande,Martin Dolezal,Marc Helbling,Dominic Höglinger,Swen Hutter,Bruno Wüest,2012-07-26 What are the consequences of globalization for the structure of political conflicts in Western Europe? How are political conflicts organized and articulated in the twenty-first century? And how does the transformation of territorial boundaries affect the scope and content of political conflicts? This book sets out to answer these questions by analyzing the results of a study of national and European electoral campaigns, protest events and public debates in six West European countries. While the mobilization of the losers in the processes of globalization by new right populist parties is seen to be the driving force of the restructuring of West European politics, the book goes beyond party politics. It attempts to show how the cleavage coalitions that are shaping up under the impact of globalization extend to state actors, interest groups and social movement organizations, and how the new conflicts are framed by the various actors involved.

**The Routledge Handbook of Euroscepticism** Benjamin Leruth,Nicholas Startin,Simon Usherwood,2020-02-25 This book paints a fuller, more holistic picture of the extent to which the Eurosceptic debate has influenced the EU and its member states. It focuses on what the consequences of this development are likely to be for the future direction of the European project and of Euroscepticism studies following the UK's vote to leave the EU.

**Decolonizing Methodologies** Linda Tuhiwai Smith,2016-03-15 'A landmark in the process of decolonizing imperial Western knowledge.' Walter Mignolo, Duke University To the colonized, the term 'research' is conflated with European colonialism; the ways in which academic research has been implicated in the throes of imperialism remains a painful memory. This essential volume explores intersections of imperialism and research - specifically, the ways in which imperialism is embedded in disciplines of knowledge and tradition as 'regimes of truth.' Concepts such as 'discovery' and 'claiming' are discussed and an argument presented that the decolonization of research methods will help to reclaim control over indigenous ways of knowing and being. Now in its eagerly awaited second edition, this bestselling book has been

substantially revised, with new case-studies and examples and important additions on new indigenous literature, the role of research in indigenous struggles for social justice, which brings this essential volume urgently up-to-date.

**Teaching Physical Education** Muska Mosston,Sara Ashworth,1994 The definitive source for the groundbreaking ideas of the Spectrum of Teaching Styles introduced by Mosston and Ashworth and developed during 35 years in the field. This book offers teachers a foundation for understanding the decision-making structures that exist in all teaching/learning environments and for recognizing the variables that increase effectiveness while teaching physical education. In this thoroughly revised and streamlined edition, all chapters have been updated to include hundreds of real-world examples, concise charts, practical forms, and concrete suggestions for deliberate teaching so that teachers can understand their classrooms' flow of events, analyze decision structures, implement adjustments that are appropriate for particular classroom situations, and deliberately combine styles to achieve effective variations. As in prior editions, individual chapters describe the anatomy of the decision structure as it relates to teachers and learners, the objectives (O-T-L-O) of each style, and the application of each style to various activities and educational goals. For physical education teachers.

**Implementing the Water-Energy-Food- Ecosystems Nexus and Achieving the Sustainable Development Goals**

Cesar Carmona-Moreno,E. Crestaz,Y. Cimmarrusti,F. Farinosi,M. Biedler,A. Amani,A. Mishra,A. Carmona-Gutierrez,2021-09-15 The book's primary intention is to serve as a roadmap for professionals working in developing countries interested in the Nexus Water-Energy-Food-Ecosystems (WEFE) approach. The book shows a multi-disciplinary approach, showcasing the importance of the proper use of Nexus WEFE when implementing certain development programs in regions around the globe. It can be presented as a manual for an individual that either wishes to implement intervention projects following the NEXUS approach or students interested in cooperation and development. The book begins with a general explanation of the theoretical concepts and implementation processes of Nexus WEFE and continues getting into case studies, explaining the importance of proper implementation and potential drawbacks and solutions to them. This book has a particular focus on the European Union cooperation policies when implementing such an approach in developing countries.
