Ola Rotimi

Hopes of the Living Dead Ola Rotimi, 2017-11-28 Hopes of the Living Dead: A drama of struggle and hope by society's rejects. A true story of courage and resilience based on the life of Harcourt Whyte. Afflicted with leprosy at an early age and condemned to life as a beggar and an outcast, Harcourt broke the shackles of his existence by writing over two hundred popular church hymns. These became the standard in churches across Southeastern Nigeria and the trendsetter for all future Christian music in the region for decades to come. As a leader, Harcourt led the Lepers' Rebellion of 1928-32. The success of the revolt resulted in the creation of the self-sustaining Uzuakoli Leper Colony and Research Center where Harcourt and his counterparts, as human guinea pigs, helped in the discovery of cures for leprosy. Cured of the disease in 1949, Harcourt formed a choir made up of other Uzuakoli patients. This choir, known for their sonorous voices (for they did not have the appendages necessary for stringed instruments), performed in churches and entertained both the commoner and dignitaries across the land for decades.

Christian-Muslim Relations in Nigeria Isidore U. Nwanaju,2008 This book is an intercultural study of Christian-Muslim relationship in Nigeria, spanning the pre-and post-Independence eras.It seeks, against the backdrop of the persistent crisis and conflicts; to explore avenues for dialogue and harmonious interaction between adherents of the two most patronized (albeit non-indigenous) religions in Nigeria - Christianity and Islam. The author examines the historical backgrounds of the country's ethnographic and sociopolitical configuration, the origin, nature, and impact of each religion, the positive as well as negative dimensions of the relations between Muslims and Christians under various epochs of Nigeria's political life. The book concludes with theological overview and prescriptive advocacy on the pathway to inter-religious peace and harmony in Nigeria.

The Languages of Religion Sipra Mukherjee,2018-06-14 This book analyses the power that religion wields upon the minds of individuals and communities and explores the predominance of language in the actual practice of religion. Through an investigation of the diverse forms of religious language available — oral traditions, sacred texts, evangelical prose, and national rhetoric used by ‘faith-insiders’ such as missionaries, priests, or religious leaders who play the communicator’s role between the sacred and the secular — the chapters in the volume reveal the dependence of religion upon language, demonstrating how religion draws strength from a past that is embedded in narratives, infusing the ‘sacred’ language with political power. The book combines broad theoretical and normative reflections in contexts of original, detailed and closely examined empirical case studies. Drawing upon resources across disciplines, the book will be of interest to scholars of religion and religious studies, linguistics, politics, cultural studies, history, sociology, and social anthropology.

The Land and People of Bayelsa State Ebiegberi Joe Alagoa,1999 Modelled on a similar study of Rivers State in Nigeria, the objective of this study is to give a simple but authoritative interdisciplinary introductory history. Although written by specialists, it is directed to a lay readership. Bayelsa, being a new state, is in need of self- definition and understanding, not least to promote greater tolerance within and between communities. Thirty-six scholars, largely Nigerian, have contributed to the study, which is divided into seven parts: the environment, the people, culture, history, politics, economy and social services.
