The Manly Eunuch Mathew Kuefler,2001-07-25 The question of masculinity formed a key part of the intellectual life of late antiquity and was crucial to the development of Christian society. This idea is at the heart of Mathew Kuefler's new book, which revisits the Roman Empire during the third and fifth centuries of the common era. Kuefler argues that the collapse of the Roman army, an increasingly autocratic government, and growing restrictions on the traditional rights of men within marriage and sexuality all led to an endemic crisis in masculinity: men of Roman aristocracy, who had always felt themselves to be soldiers, statesmen, and the heads of households, became, by their own definition, unmanly. The cultural and demographic success of Christianity during this epoch lay in the ability of its leaders to recognize and respond to this crisis. Drawing on the tradition of gender ambiguity in early Christian teachings, which included Jesus's exhortation that his followers make themselves eunuchs for the sake of the kingdom of heaven, Christian writers and thinkers crafted a new masculine ideal, one that took advantage of the changing social realities in Rome, inverted the Roman model of manliness, and helped solidify Christian ideology by reinstating the masculinity of its adherents.

The Rational Optimist Matt Ridley,2011-06-07 For two hundred years the pessimists have dominated public discourse, insisting that things will soon be getting much worse. But in fact, life is getting better—and at an accelerating rate. Food availability, income, and life span are up; disease, child mortality, and violence are down all across the globe. Africa is following Asia out of poverty; the Internet, the mobile phone, and container shipping are enriching people's lives as never before. In his bold and bracing exploration into how human culture evolves positively through exchange and specialization, bestselling author Matt Ridley does more than describe how things are getting better. He explains why. An astute, refreshing, and revelatory work that covers the entire sweep of human history—from the Stone Age to the Internet—*The Rational Optimist* will change your way of thinking about the world for the better.

Science Fiction, Imperialism and the Third World Ericka Hoagland,Reema Sarwal,2014-01-10 Though science fiction is often thought of as a Western phenomenon, the genre has long had a foothold in countries as diverse as India and

Mexico. These fourteen critical essays examine both the role of science fiction in the third world and the role of the third world in science fiction. Topics covered include science fiction in Bengal, the genre's portrayal of Native Americans, Mexican cyberpunk fiction, and the undercurrents of colonialism and Empire in traditional science fiction. The intersections of science fiction theory and postcolonial theory are explored, as well as science fiction's contesting of imperialism and how the third world uses the genre to recreate itself. Instructors considering this book for use in a course may request an examination copy [here](#).

The Progress of Colored Women: Three Civil Rights Speeches by the First Black Woman to Receive a College Education in the United States of America (H Mary Church Terrell, 2018-08-28 Mary Church Terrell was an icon in the civil rights

movement, advocating for equality and social justice for black women through a lifetime of campaigning and eloquent oration. Famed for being the first black woman to gain a college education in the United States, Mary Terrell put her education to great use. Beginning in the 1890s, she spoke publicly on a range of civil rights which black Americans and black women were deprived. Throughout these efforts, Terrell helped coordinate a series of local movements which campaigned for suffrage and enfranchisement for the black population. Mary Church Terrell began a trend in the civil rights movement; her language bursting with eloquence and reason, she argued for a better intellectual, social and economic life for black Americans. Black women, who lacked even the right to vote, were compelled to join the cause, which they did in their thousands. Living to the age of 90, Terrell was a bridge between the Reconstruction era and the modern civil rights movement.
