Cost and Fee Allocation in Civil Procedure Mathias Reimann, 2011-11-15 The volume describes and analyzes how the costs of litigation in civil procedure are distributed in key countries around the world. It compares the various approaches, draws general conclusions from that comparison, and presents global trends as well as common problems and solutions. In particular, the book deals with three principal questions: First, who pays for civil litigation costs, i.e., to what extent do losers have to make winners whole? Second, how much money is at stake, i.e., how expensive is civil litigation in the respective jurisdictions? And third, whose money is ultimately spent, i.e., how are civil litigation costs distributed through mechanisms like legal aid, litigation insurance, collective actions, and success oriented fees? Inter alia, the study reveals a general trend towards deregulation of lawyer fees as well as a substantial correlation between the burden of litigation costs and membership of a jurisdiction in the civil and common law families. This study is the result of the XVIIIth World Congress of Comparative Law held under the auspices of the International Academy of Comparative Law.

United States Code United States, 2012

United States Code, 2013 Preface 2012 edition: The United States Code is the official codification of the general and permanent laws of the United States. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth

Congress, Second session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First session, enacted between January 3, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited U.S.C. 2012 ed. As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 USC 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office. -- John. A. Boehner, Speaker of the House of Representatives, Washington, D.C., January 15, 2013--Page VII.
