**G Psacharopoulos**

**Cardiovascular Disability** Institute of Medicine, Board on the Health of Select Populations, Committee on Social Security Cardiovascular Disability Criteria, 2010-12-04 The Social Security Administration (SSA) uses a screening tool called the Listing of Impairments to identify claimants who are so severely impaired that they cannot work at all and thus immediately qualify for benefits. In this report, the IOM makes several recommendations for improving SSA's capacity to determine disability benefits more quickly and efficiently using the Listings.

Antiterrorism and Effective Death Penalty Act of 1996 DIANE Publishing Company, 1998-04

*Framework for Equitable Allocation of COVID-19 Vaccine* National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Board on Health Sciences Policy, Committee on Equitable Allocation of Vaccine for the Novel Coronavirus, 2020-11-30 In response to the coronavirus disease 2019 (COVID-19) pandemic and the societal disruption it has brought, national governments and the international community have invested billions of dollars and immense amounts of human resources to develop a safe and effective vaccine in an unprecedented time frame. Vaccination against this novel coronavirus, severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), offers the possibility of significantly reducing severe morbidity and mortality and transmission when deployed alongside other public health strategies and improved therapies. Health equity is intertwined with the impact of COVID-19 and there are certain populations that are at increased risk of severe illness or death from COVID-19. In the United States and worldwide, the pandemic is having a disproportionate impact on people who are already disadvantaged by virtue of their race and ethnicity, age, health status, residence, occupation, socioeconomic condition, or other contributing factors. *Framework for Equitable Allocation of COVID-19 Vaccine* offers an overarching framework for vaccine allocation to assist policy makers in the domestic and global health communities. Built on widely accepted foundational principles and recognizing the distinctive characteristics of COVID-19, this report's recommendations address the commitments needed to implement equitable allocation policies for COVID-19 vaccine.

**Glossary on Migration** International Organization for Migration, 2004 It is increasingly acknowledged that migration

issues need a co-ordinated approach, with discussions being undertaken at bilateral levels, as well as at regional and global levels. This publication seeks to establish a common understanding about the terms and concepts used in the field of migration, in order to establish a useful tool to help further international cooperation on this topic.

*Code of Safe Working Practices for Merchant Seafarers* The Stationery Office, 2018-01-18 Amendment to 2015 consolidated ed. (ISBN 9780115534027). Amendment consists of loose-leaf pages that replace select pages from the main edition binder

**London's Environment** Julian C. R. Hunt, 2005 - No other environmental book conveys the recent developments in London, or attempts to relate them to the environmental and general history of the city - This book will be useful in the academic world for students and lectures and it will also be useful for local and national government and politics having to make decisions about sustainable development and the environment - The unique overview provided here should also be useful to consultants, businesses and lawyers working on urban environmental/sustainability issues

International Migration Law Vincent Chetail, 2019-04-04 International Migration Law provides a detailed and comprehensive overview of the international legal framework applicable to the movement of persons across borders. The role of international law in this field is complex, and often ambiguous: there is no single source for the international law governing migration. The current framework is scattered throughout a wide array of rules belonging to numerous fields of international law, including refugee law, human rights law, humanitarian law, labour law, trade law, maritime law, criminal law, and consular law. This textbook therefore cuts through this complexity by clearly demonstrating what the current international law is, and assessing how it operates. The book offers a unique and comprehensive mapping of this growing field of international law. It brings together and critically analyses the disparate conventional, customary, and soft law on a broad variety of issues, such as irregular migration, human trafficking, refugee protection, labour migration, non-discrimination, regional free movement schemes, and global migration governance. It also offers a particular focus on important groups of migrants, namely migrant workers, refugees, and smuggled migrants. It maps the current status of the law governing their movement, providing a thorough critical analysis of the various stands of international law which apply to them, suggesting how the law may continue to develop in the future. This book provides the perfect introduction to all aspects of migration and international law.

Cost-Benefit Analysis for Development Asian Development Bank, 2013-01-01 The Asian Development Bank (ADB) has been continuously undertaking measures to enhance the effectiveness of its operations. To improve projects both at the preparation and implementation stages, ADB issued the Guidelines for Economic Analysis of Projects in 1997 as a means to

enhancing project quality at entry. The conduct of proper economic analysis helps ensure the efficient use of development funds and public resources and thereby increase aid effectiveness. This practical guide is a supplement to the Guidelines for the Economic Analysis of Projects. It provides an overview of recent methodological developments in cost-benefit analysis as well as suggested improvements in the economic analysis of projects in selected sectors through case studies. These case studies illustrate the application of suggested methodologies, taking into account sector-specific needs, as well as difficulties faced by practitioners in terms of data and time constraints during project processing. It also aims to contribute to ADB's capacity building initiatives as this will be the main reference material for conduct of economic analysis.

Olefin Polymerization Walter Kaminsky,2006-08-18 With an enormous velocity, olefin polymerization has expanded to one of the most significant fields in polymers since the first industrial use about 50 years ago. In 2005, 100 million tons of polyolefins were produced - the biggest part was catalyzed by metallorganic compounds. The Hamburg Macromolecular Symposium 2005 with the title Olefin Polymerization involved topics such as new catalysts and cocatalysts, kinetics, mechanism and polymer reaction engineering, synthesis of special polymers, and characterization of polyolefins. The conference combined scientists from different disciplines to discuss latest research results of polymers and to offer each other the possibility of cooperation. This is reflected in this volume, which contains invited lectures and selected posters presented at the symposium.

Handbook of Religion and Health Harold G. Koenig,Tyler VanderWeele,John R. Peteet,2023-05-12 The 2001 edition (1st) was a comprehensive review of history, research, and discussions on religion and health through the year 2000. The Appendix listed 1,200 separate quantitative studies on religion and health each rated in quality on 0-10 scale, followed by about 2,000 references and an extensive index for rapid topic identification. The 2012 edition (2nd) of the Handbook systematically updated the research from 2000 to 2010, with the number of quantitative studies then reaching the thousands. This 2022 edition (3rd) is the most scientifically rigorous addition to date, covering the best research published through 2021 with an emphasis on prospective studies and randomized controlled trials. Beginning with a Foreword by Dr. Howard K. Koh, former US Assistant Secretary for Health for the Department of Health and Human Services, this nearly 600,000-word volume examines almost every aspect of health, reviewing past and more recent research on the relationship between religion and health outcomes. Furthermore, nearly all of its 34 chapters conclude with clinical and community applications making this text relevant to both health care professionals (physicians, nurses, social workers, rehabilitation therapists, counsellors, psychologists, sociologists, etc.) and clergy (community clergy, chaplains, pastoral counsellors, etc.). The book's extensive Appendix focuses on the best studies, describing each study in a single line, allowing researchers to quickly locate the existing research. It should not be surprising that for Handbook for the past two decades has been the most cited of all

references on religion and health--

**Stroke Recovery and Rehabilitation** Richard L. Harvey, MD, Richard F. Macko, MD, Dr. Joel Stein, MD, Carolee J. Winstein, PhD, PT, FAPTA, Richard D. Zorowitz, MD, 2008-11-20 A Doody's Core Title 2012 Stroke Recovery and Rehabilitation is the new gold standard comprehensive guide to the management of stroke patients. Beginning with detailed information on risk factors, epidemiology, prevention, and neurophysiology, the book details the acute and long-term treatment of all stroke-related impairments and complications. Additional sections discuss psychological issues, outcomes, community reintegration, and new research. Written by dozens of acknowledged leaders in the field, and containing hundreds of tables, graphs, and photographic images, Stroke Recovery and Rehabilitation features: The first full-length discussion of the most commonly-encountered component of neurorehabilitation Multi-specialty coverage of issues in rehabilitation, neurology, PT, OT, speech therapy, and nursing Focus on therapeutic management of stroke related impairments and complications An international perspective from dozens of foremost authorities on stroke Cutting edge, practical information on new developments and research trends Stroke Recovery and Rehabilitation is a valuable reference for clinicians and academics in rehabilitation and neurology, and professionals in all disciplines who serve the needs of stroke survivors.

***Introduction to Multi-Armed Bandits*** Aleksandrs Slivkins, 2019-10-31 Multi-armed bandits is a rich, multi-disciplinary area that has been studied since 1933, with a surge of activity in the past 10-15 years. This is the first book to provide a textbook like treatment of the subject.

**Ventricular Arrhythmias** John M. Miller, 2008 Ventricular arrhythmias cause most cases of sudden cardiac death, which is the leading cause of death in the US. This issue reviews the causes of arrhythmias and the promising new drugs and devices to treat arrhythmias.

**International Migration Law**, 2004 Migration is increasingly being acknowledged as an issue that needs a global approach and coordinated responses. States are not only discussing migration issues at the bilateral level, but also regionally and lately in global arenas. A commonly understood language is indispensable for such coordination and international cooperation to be successful. This glossary attempts to serve as a guide to the mire of terms and concepts in the migration field, in an effort to provide a useful tool to the furtherance of such international cooperation and the common understanding of migration issues.

**U.S. Export Controls and Economic Sanctions** Eric L Hirschhorn, 2021-02 This book is a must for those who deal with United States government export control and economic sanctions regulations. Written as a user's manual rather than an academic or historical treatise, it covers in considerable detail-but in language that is intelligible to non-lawyers as well as lawyers-the Commerce Department's controls on exports of commercial, dual-use (having both commercial and military utility), and low-level military items, the State Department's controls on higher-level military items, the Treasury

Department's approximately thirty different economic sanctions programs, the Nuclear Regulatory Commission's controls on nuclear-related commodities, and the Energy Department's restrictions on assistance to foreign nuclear programs. Given the authors' decades of experience with these regulations, the book not only explains the legal rules but also offers tips-not necessarily reflected in the regulations themselves-about how to interpret the regulations and deal with the regulators--
