Citizen Illegal José Olivarez, 2018-09-04 "Olivarez steps into the 'inbetween' standing between Mexico and America in these compelling, emotional poems. Written with humor and sincerity" (Newsweek). Named a Best Book of the Year by Newsweek and NPR. In this "devastating debut" (Publishers Weekly), poet José Olivarez explores the stories, contradictions, joys, and sorrows that embody life in the spaces between Mexico and America. He paints vivid portraits of good kids, bad kids, families clinging to hope, life after the steel mills, gentrifying barrios, and everything in between. Drawing on the rich traditions of Latinx and Chicago writers like Sandra Cisneros and Gwendolyn Brooks, Olivarez creates a home out of life in the in-between. Combining wry humor with potent emotional force, Olivarez takes on complex issues of race, ethnicity, gender, class, and immigration using an everyday language that invites the reader in, with a unique voice that makes him a

poet to watch. “The son of Mexican immigrants, Olivarez celebrates his Mexican-American identity and examines how those two sides conflict in a striking collection of poems.” —USA Today

She Came to Slay Erica Armstrong Dunbar, 2019-11-05 In the bestselling tradition of The Notorious RBG comes a lively, informative, and illustrated tribute to one of the most exceptional women in American history—Harriet Tubman—a heroine whose fearlessness and activism still resonates today. Harriet Tubman is best known as one of the most famous conductors on the Underground Railroad. As a leading abolitionist, her bravery and selflessness has inspired generations in the continuing struggle for civil rights. Now, National Book Award nominee Erica Armstrong Dunbar presents a fresh take on this American icon blending traditional biography, illustrations, photos, and engaging sidebars that illuminate the life of Tubman as never before. Not only did Tubman help liberate hundreds of slaves, she was the first woman to lead an armed expedition during the Civil War, worked as a spy for the Union Army, was a fierce suffragist, and was an advocate for the aged. *She Came to Slay* reveals the many complexities and varied accomplishments of one of our nation’s true heroes and offers an accessible and modern interpretation of Tubman’s life that is both informative and engaging. Filled with rare outtakes of commentary, an expansive timeline of Tubman’s life, photos (both new and those in public domain), commissioned illustrations, and sections including “Harriet By the Numbers” (number of times she went back down south, approximately how many people she rescued, the bounty on her head) and “Harriet’s Homies” (those who supported her over the years), *She Came to Slay* is a stunning and powerful mix of pop culture and scholarship and proves that Harriet Tubman is well deserving of her permanent place in our nation’s history.

Paying the Price Sara Goldrick-Rab, 2016-09-01 A “bracing and well-argued” study of America’s college debt crisis—“necessary reading for anyone concerned about the fate of American higher education” (Kirkus). College is far too expensive for many people today, and the confusing mix of federal, state, institutional, and private financial aid leaves countless students without the resources they need to pay for it. In *Paying the Price*, education scholar Sara Goldrick-Rab reveals the devastating effect of these shortfalls. Goldrick-Rab examines a study of 3,000 students who used the support of federal aid and Pell Grants to enroll in public colleges and universities in Wisconsin in 2008. Half the students in the study left college without a degree, while less than 20 percent finished within five years. The cause of their problems, time and again, was lack of money. Unable to afford tuition, books, and living expenses, they worked too many hours at outside jobs, dropped classes, took time off to save money, and even went without adequate food or housing. In many heartbreaking cases, they simply left school—not with a degree, but with crippling debt. Goldrick-Rab combines that data with devastating stories of six individual students, whose struggles make clear the human and financial costs of our convoluted financial aid policies. In the final section of the book, Goldrick-Rab offers a range of possible solutions, from technical improvements to the

financial aid application process, to a bold, public sector-focused “first degree free” program. Honestly one of the most exciting books I've read, because [Goldrick-Rab has] solutions. It's a manual that I'd recommend to anyone out there, if you're a parent, if you're a teacher, if you're a student.—Trevor Noah, The Daily Show

China: Surpassing the “Middle Income Trap” Shaojie Zhou, Angang Hu, 2020-10-06 This open access book explores one of the most fiercely debated issues in China: if and how China will surpass the middle income trap that has plagued many developing countries for years. This book gives readers a clear picture of China today and acts as a reference for other developing countries. China is facing many setbacks and experiencing an economic slowdown in recent years due to some serious issues, and income inequality is one such issue deferring China's development potential by creating a middle income trap. This book thoroughly investigates both the unpromising factors and favorable conditions for China to overcome the trap. It illustrates that traps may be encountered at any stage of development and argues that political stability is the prerequisite to creating a favorable environment for economic development and addressing this “middle income trap”. Written by one of China's central planners, this book offers precious insights into the industrial policies that are transforming China and the world and will be of interest to China scholars, economists and political scientists.

Dismantling Race in Higher Education Jason Arday, Heidi Safia Mirza, 2018-08-31 This book reveals the roots of structural racism that limit social mobility and equality within Britain for Black and ethnicised students and academics in its inherently white Higher Education institutions. It brings together both established and emerging scholars in the fields of Race and Education to explore what institutional racism in British Higher Education looks like in colour-blind 'post-race' times, when racism is deemed to be 'off the political agenda'. Keeping pace with our rapidly changing global universities, this edited collection asks difficult and challenging questions, including why black academics leave the system; why the

curriculum is still white; how elite universities reproduce race privilege; and how Black, Muslim and Gypsy traveller students are disadvantaged and excluded. The book also discusses why British racial equality legislation has failed to address racism, and explores what the Black student movement is doing about this. As the authors powerfully argue, it is only by dismantling the invisible architecture of post-colonial white privilege that the 21st century struggle for a truly decolonised academy can begin. This collection will be essential reading for students and academics working in the fields of Education, Sociology, and Race.

Sport and Identity in France Philip Dine, 2012 How does sport shape society? This book seeks to answer this question by examining the meaning of sport in French society and the construction of local, national and, increasingly, global identities through sport. It begins by reassessing modern sport's emergence and consolidation in France in the late nineteenth and early twentieth centuries and then traces developments from the Second World War to the present, reflecting on the current status and future role of French sport. Horse racing, cycling, tennis, adventure sports, rugby and football, as well as the role of the Olympic Games, are discussed. The author investigates the interaction of these mass and elite physical practices with a wide variety of sporting locations - spatial and temporal, concrete and imagined - and in a rich field of representations, including literature and the fine arts, the press, cinema, radio, television and digital media. Related concepts of sporting celebrity, stardom and heroism also inform the discussion, offering new contributions to this developing critical area.

Sonnets William Shakespeare, 2014-12-16 Among the most enduring poetry of all time, William Shakespeare's 154 sonnets address such eternal themes as love, beauty, honesty, and the passage of time. Written primarily in four-line stanzas and iambic pentameter, Shakespeare's sonnets are now recognized as marking the beginning of modern love poetry. The sonnets have been translated into all major written languages and are frequently used at romantic celebrations. Known as "The Bard of Avon," William Shakespeare is arguably the greatest English-language writer known. Enormously popular during his life, Shakespeare's works continue to resonate more than three centuries after his death, as has his influence on theatre and literature. Shakespeare's innovative use of character, language, and experimentation with romance as tragedy served as a foundation for later playwrights and dramatists, and some of his most famous lines of dialogue have become part of everyday speech.
