The Arab Imago Stephen Sheehi, 2021-08-10 The first history of indigenous photography in the Middle East The birth of photography coincided with the expansion of European imperialism in the Middle East, and some of the medium's earliest images are Orientalist pictures taken by Europeans in such places as Cairo and Jerusalem—photographs that have long shaped and distorted the Western visual imagination of the region. But the Middle East had many of its own photographers, collectors, and patrons. In this book, Stephen Sheehi presents a groundbreaking new account of early photography in the Arab world. The Arab Imago concentrates primarily on studio portraits by Arab and Armenian photographers in the late Ottoman Empire. Examining previously known studios such as Abdullah Frères, Pascal Sébah, Garabed Krikorian, and Khalil Raad, the book also provides the first account of other pioneers such as Georges and Louis Saboungi, the Kova Brothers, Muhammad Sadiq Bey, and Ibrahim Rif'at Pasha—as well as the first detailed look at early photographs of the annual pilgrimage to Mecca. In addition, the book explores indigenous photography manuals and albums, newspapers, scientific journals, and fiction. Featuring extensive previously unpublished images, The Arab Imago shows how native photography played an essential role in the creation of modern Arab societies in Egypt, Palestine, Syria, and Lebanon before the First World War. At the same time, the book overturns Eurocentric and Orientalist understandings of indigenous photography and challenges previous histories of the medium.

Monastic Archaeology Graham Keevill, Mick Aston, Teresa Hall, 2017-01-31 The study of monasteries has come a long way since late the late 19th century. The papers in this volume, partly based on a conference held in Oxford in 1994, are written by some of today's foremost scholars and reflect the diversity of research now being carried out.

Part 4, Blast Resistant Detailing, addresses the use of concrete, steel, and masonry in new designs as well as retrofitting existing structures. It has several unique features. Firstly, it provides a rigorous theoretical overview that is necessary for the understanding of EESA in relation to the burgeoning works on World Englishes as a discipline. Secondly, in the section on linguistic features, a systematic template was made available to the contributors so that linguistic coverage of the variety/varieties is similar. Thirdly, the vibrancy of the sociolinguistic and pragmatic realities that govern actual English in use in a wide variety of domains such as social media, the Internet and popular culture/music are discussed. Finally, this volume includes an extensive bibliography of works on EESA, thus providing a useful and valuable resource for language researchers, linguists, classroom educators, policymakers and anyone interested in the topic of EESA or World Englishes. This volume hopes to advance understanding of the spread and development of the different sub-varieties reflecting both the political developments and cultural norms in the region.

The Home of the Monk David Herbert Somerset Cranage, 2010-07-29 First published twice in 1926, and again in 1934 with an updated bibliography, Cranage's *The Home of the Monk* is a small but useful introduction for the visitor to any English monastic site. Working from surviving architectural and documentary evidence, he examines the buildings section by section, explaining how each part of an abbey was used. He briefly explains the history of the various monastic orders which existed in medieval England, and their differences from one another. He also provides plans of what constituted the typical arrangements likely to be found in Benedictine, Augustinian, Cluniac and Cistercian houses. The book provides a useful starting point for further study of medieval religious houses, and a handy guide for the occasional visitor to such sites.
