Oil Cemetery May Ifeoma Nwoye,2013 Oil Cemetery is an eloquent and truth-based novel about suffering in the oil-producing Niger-Delta region of Nigeria. This powerful book shows how Nigerians cope with the environmental pollution that has accompanied the discovery of oil wealth in their community. On the one hand there is obscene wealth enjoyed by the few, while the masses live in poverty and suffer from the environmental degradation of their land. This powerful story tells the quest of those people seeking a solution to the deaths and human suffering, even as it delves into the intrigues and manipulations of the upper class. Rita, a fragile young girl whose father was a victim of the oil company, by a twist of fate is the one leading a subtle revolution that will shock the entire community. Oil Cemetery is aptly titled. Dr. May Ifeoma Nwoye is from Nigeria and studied in the United States. She was a former national vice president of Nigerian Authors (ANA). She has written other novels and a collection of short stories. My inspiration for OIL CEMETRY came from the monumental noise,

the endless tears, and the insensitive treatment of the inhabitants of oil producing areas in Nigeria, where the land that produces the wealth of a nation suffers from abject poverty and deprivation in the face of environmental degradation.

Super Thinking Gabriel Weinberg,Lauren McCann,2019-06-18 A WALL STREET JOURNAL BESTSELLER! You can't really know anything if you just remember isolated facts. If the facts don't hang together on a latticework of theory, you don't have them in a usable form. You've got to have models in your head. - Charlie Munger, investor, vice chairman of Berkshire Hathaway The world's greatest problem-solvers, forecasters, and decision-makers all rely on a set of frameworks and shortcuts that help them cut through complexity and separate good ideas from bad ones. They're called mental models, and you can find them in dense textbooks on psychology, physics, economics, and more. Or, you can just read Super Thinking, a fun, illustrated guide to every mental model you could possibly need. How can mental models help you? Well, here are just a few examples... • If you've ever been overwhelmed by a to-do list that's grown too long, maybe you need the Eisenhower Decision Matrix to help you prioritize. • Use the 5 Whys model to better understand people's motivations or get to the root cause of a problem. • Before concluding that your colleague who messes up your projects is out to sabotage you, consider Hanlon's Razor for an alternative explanation. • Ever sat through a bad movie just because you paid a lot for the ticket? You might be falling prey to Sunk Cost Fallacy. • Set up Forcing Functions, like standing meeting or deadlines, to help grease the wheels for changes you want to occur. So, the next time you find yourself faced with a difficult decision or just trying to understand a complex situation, let Super Thinking upgrade your brain with mental models.

The Dictator's Handbook Bruce Bueno de Mesquita,Alastair Smith,2011-09-27 A groundbreaking new theory of the real rules of politics: leaders do whatever keeps them in power, regardless of the national interest. As featured on the viral video Rules for Rulers, which has been viewed over 3 million times. Bruce Bueno de Mesquita and Alastair Smith's canonical book on political science turned conventional wisdom on its head. They started from a single assertion: Leaders do whatever keeps them in power. They don't care about the national interest-or even their subjects-unless they have to. This clever and accessible book shows that democracy is essentially just a convenient fiction. Governments do not differ in kind but only in the number of essential supporters, or backs that need scratching. The size of this group determines almost everything about politics: what leaders can get away with, and the quality of life or misery under them. The picture the authors paint is not pretty. But it just may be the truth, which is a good starting point for anyone seeking to improve human governance.

Food, Agriculture and Social Change Stephen Sherwood, Alberto Arce, Myriam Paredes, 2017-05-22 In recent years, food studies scholarship has tended to focus on a number of increasingly abstract, largely unquestioned concepts with regard to how capital, markets and states organize and operate. This has led to a gulf between public policy and people's realities with food as experienced in homes and on the streets. Through grounded case studies in seven Latin American countries, this book explores how development and social change in food and agriculture are fundamentally experiential, contingent and unpredictable. In viewing development in food as a socio-political-material experience, the authors find new objects, intersubjectivities and associations. These reveal a multiplicity of processes, effects and affects largely absent in current academic literature and public policy debates. In their attention to the contingency and creativity found in households, neighbourhoods and social networks, as well as at the borders of human-nonhuman experience, the book explores how people diversely meet their food needs and passions while confronting the region's most pressing social, health and environmental concerns.

Understanding Boko Haram James J. Hentz, Hussein Solomon, 2017-05-08 The primary objective of this book is to understand the nature of the Boko Haram insurgency in northeast Nigeria. Boko Haram's goal of an Islamic Caliphate, starting in the Borno State in the North East that will eventually cover the areas of the former Kanem-Borno Empire, is a rejection of the modern state system forced on it by the West. The central theme of this volume examines the relationship between the failure of the state-building project in Nigeria and the outbreak and nature of insurgency. At the heart of the Boko Haram phenomenon is a country racked with cleavages, making it hard for Nigeria to cohere as a modern state. Part I introduces this theme and places the Boko Haram insurgency in a historical context. There are, however, multiple cleavages in Nigeria- ethnic, regional, cultural, and religious- and Part II examines the different state-society dynamics fuelling the conflict. Political grievances are common to every society; however, what gives Boko Haram the space to express such grievances through violence? Importantly, this volume demonstrates that the insurgency is, in fact, a reflection of the hollowness within Nigeria's overall security. Part III looks at the responses to Boko Haram by Nigeria, neighbouring states, and external actors. For Western actors, Boko Haram is seen as part of the global war on terror and the fact that it has pledged allegiance to ISIS encourages this framing. However, as the chapters here discuss, this is an over-simplification of Boko Haram and the West needs to address the multiple dimension of Boko Haram. This book will be of much interest to students of terrorism and political violence, insurgencies, African politics, war and conflict studies, and IR in general.

The Park and the People Roy Rosenzweig, Elizabeth Blackmar, 1992 Delineate the politicians, business people, artists, immigrant laborers, and city dwellers who are the key players in the tale. In tracing the park's history, the writers also give us the history of New York. They explain how squabbles over politics, taxes, and real estate development shaped the park and describe the acrimonious debates over what a public park should look like, what facilities it should offer, and how it should accommodate the often incompatible.

My Prison Without Bars Taylor Evan Fulks, 2012-11-24 After leaving town under the pretense of business, Taylor struggles to make some sense of her life, as it hopelessly crumbles around her; an unfaithful, unrepentant husband, several unconscionable revelations from her selfish, controlling mother and finally, the resurrection of nightmares and ghosts from her childhood. Solace eludes her. Instead, she is stalked, overpowered, and imprisoned in her own suite by a dark, sadistic stranger hell bent on torturing her because of the mirrored past they share ... linked by the same monster hiding under the bed.
