Taking Flight With OWLs James A. Inman, Donna Sewell, 2000-01-01 Taking Flight With OWLs examines computer technology use in writing centers. Its purpose is to move beyond anecdotal evidence for implementing computer technology in writing centers, presenting carefully considered studies that theorize the move to computer technology and examine technology use in practice. Writing centers occupy a dynamic position at the crossroads of computers and composition, distance education, and composition theory, pulling ideas, theories, and pedagogies from each. Their continuing evolution necessarily involves increasing use of computer technology. The move to computer technology so far has occurred so rapidly that writing center staff and administration have not yet had much time or opportunity to study how and when to infuse it into their programs. The need for this collection is evident: Writing center practitioners have long discussed their roles in relation to their supporting institutions; now they are challenged to explore--even reinvent--their roles as computer technologies transform centers and institutions. In exploring varied stages of technology-infusion through field-based accounts, this volume offers readers an important and unique resource.

Multivariable Mathematics Theodore Shifrin, 2004-01-26 Multivariable Mathematics combines linear algebra and multivariable mathematics in a rigorous approach. The material is integrated to emphasize the recurring theme of implicit versus explicit that persists in linear algebra and analysis. In the text, the author includes all of the standard computational material found in the usual linear algebra and multivariable calculus courses, and more, interweaving the material as effectively as possible, and also includes complete proofs. * Contains plenty of examples, clear proofs, and significant motivation for the crucial concepts. * Numerous exercises of varying levels of difficulty, both computational and more proof-

oriented. * Exercises are arranged in order of increasing difficulty.

The Gift of Pain Paul Brand,Philip Yancey,2020-08-04 Pain is not something that most of us would count as a blessing; however, renowned surgeon Dr. Paul Brand and award-winning writer Philip Yancey shed fresh light on the purpose of our pain. Wouldn't it be nice to never experience pain or never have to take drugs to deal with pain? Many people think so, but they're missing one key piece of information: Pain is the body's built-in warning system that something is wrong and needs to be fixed. Follow world-renowned physician and surgeon Dr. Paul Brand around the world as he shares his humble beginnings as the son of medical missionaries in India to his medical training in London during the Blitz to his groundbreaking medical research with leprosy patients in the United States and India. His work with leprosy patients is what convinced him that pain truly is one of God's great gifts to us. In these pages he shares what he's learned about pain, its purpose in our lives, the impact it has on our daily lives and overall health, and how we can better respond to it. Perfect for those in the medical field or those looking for a firsthand look into the mystery of pain, this book will give you a new perspective on the gift that none of us want and none of us can do without. You'll never look at pain the same way again. Spanish edition also available. Note: The book includes some frank descriptions of medical procedures, illnesses, and diseases

Reading Lolita in Tehran Azar Nafisi,2013-01-01 A professor teaches seven women forbidden literature in revolutionary Iran. For two years before she left Iran in 1997, Azar Nafisi gathered seven young women at her house every Thursday morning to read and discuss forbidden works of Western literature. Some came from conservative and religious families, others were progressive and secular: several had spent time in jail. They were shy and uncomfortable at first, unaccustomed

to being asked to speak more freely, not only about the novels they were reading but also about themselves, their dreams and disappointments. Their stories intertwined with those they were reading — *Pride and Prejudice*, *Washington Square*, *Daisy Miller* and *Lolita* — their *Lolita*, as they imagined her, in Tehran. Reading *Lolita* in Tehran offers a fascinating portrait of the Iran-Iraq war viewed from Tehran and gives us a rare glimpse, from the inside, of women's lives in revolutionary Iran. It is a work of great passion and poetic beauty, written with a startlingly original voice.
