Impacts of the Knowledge Society on Economic and Social Growth in Africa Amoah, Lloyd G. Adu,2014-03-31 In a world that is essentially digitizing, some have argued that the idea of the knowledge society holds the greatest promise for Africa's rapid socio-economic transformation. Impacts of the Knowledge Society on Economic and Social Growth in Africa aims to catalyze thinking and provide relevant information on the complex ways in which the information age is shaping Africa and the implications that this will have for the continent and the world. This premier reference volume will provide policy analysts, policymakers, academics, and researchers with fresh insights into the key empirical and theoretical matters framing Africa's ongoing digitization.

Ditch That Textbook Matt Miller, 2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting by the textbook implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

The Smart Classroom Management Way Michael Linsin, 2019-05-03 The Smart Classroom Management Way is a collection of the very best writing from ten years of Smart Classroom Management (SCM). It isn't, however, simply a random mix of popular articles. It's a comprehensive work that encompasses every principle, theme, and methodology of the SCM approach. The book is laid out across six major areas of classroom management and includes the most pressing issues, problems, and concerns shared by all teachers. The underlying SCM themes of accountability, maturity, independence, personal responsibility, and intrinsic motivation are all there and weave their way throughout the entirety of the book. Together, they form a simple, unique, and sometimes contrarian approach to classroom management that anyone can do. Whether you're an elementary, middle, or high school teacher, The Smart Classroom Management Way will give you the strategies, skills, and know-how to turn any group of students into the motivated, well-behaved class you love teaching.

Shake Up Learning Kasey Bell, 2018-03-05 Is the learning in your classroom static or dynamic? Shake Up Learning guides

you through the process of creating dynamic learning opportunities—from purposeful planning and maximizing technology to fearless implementation.

The Innovator's Mindset George Couros, 2015 The traditional system of education requires students to hold their questions and compliantly stick to the scheduled curriculum. But our job as educators is to provide new and better opportunities for our students. It's time to recognize that compliance doesn't foster innovation, encourage critical thinking, or inspire creativity—and those are the skills our students need to succeed.

Innovate Inside the Box George Couros, Katie Novak, 2019-08-14 In *Innovate Inside the Box*, George Couros and Katie Novak provide informed insight on creating purposeful learning opportunities for all students. By combining the power of the *Innovator's Mindset* and Universal Design for Learning (UDL), they empower educators to create opportunities that will benefit every learner.

Practice Perfect Doug Lemov, Erica Woolway, Katie Yezzi, 2018-01-24 Rules for developing talent with disciplined, deliberate, intelligent practice We live in a competition loving culture. We love the performance, the big win, the ticking seconds of the clock as the game comes down to the wire. We watch games and cheer, sometimes to the point of obsession, but if we really wanted to see greatness—wanted to cheer for it, see it happen, understand what made it happen—we'd spend our time watching, obsessing on, and maybe even cheering the practices instead. This book puts practice on the front burner of all who seek to instill talent and achievement in others as well as in themselves. This is a journey to understand that practice, not games, makes champions. In this book, the authors engage the dream of better, both in fields and endeavors where participants know they should practice and also in those where many do not yet recognize the transformative power of practice. And it's not just whether you practice. How you practice may be a true competitive advantage. Deliberately engineered and designed practice can revolutionize our most important endeavors. The clear set of rules presented in *Practice Perfect* will make us better in virtually every performance of life. The “how-to” rules of practice cover such topics as rethinking practice, modeling excellent practice, using feedback, creating a culture of practice, making new skills stick, and hiring for practice. Discover new ways to think about practice. Learn how to design successful practice. Apply practice across a wide range of realms, both personal and professional The authors include specific activities to jump-start practice Doug Lemov is the best-selling author of *Teach Like a Champion* A hands-on resource to practice, the rules within will help to create positive outliers and world-changing reservoirs of talent.

Children's Rights in Ghana Robert Kwame Ame, DeBrenna LaFa Agbényiga, Nana Araba Apt, 2011-02-22 This is the first book that examines Ghana's compliance with the United Nations Convention on the Rights of the Child (CRC). Ghana being the first country to ratify the Convention, it thus fills an important gap in the literature on Ghana. The book throws a searchlight on a wide range of rights issues including children's identity, violence against children and women, child

exploitation and children in conflict with the law plus a host of other CRC related issues and further identifies and explains the main obstacles in the way of realizing children's rights in Ghana. A major strength of this book is that the contributors, Ghanaians and non-Ghanaians alike have vast experience in empirical research in Ghana and most importantly, come from diverse academic disciplines. Researchers, instructors, and students of Social Work, Sociology, Criminology Human Rights, Education and Law, are examples of a few academic disciplines that would find this book a welcome relief in their search for relevant and current data on children's issues in Ghana. It should also be of great interest to policy makers, human rights activists, Children's NGOs and international development partners interested in children's issues.

African Engagements Ton Dietz, Kjell Havnevik, Mayke Kaag, 2011-06-09 By taking the emerging multipolarity at the global level as its focus, by highlighting African agency in co-shaping this new world order, and by adopting a historically sensitive approach, this collection aims to analyse African engagements and asks on whose terms these engagements are being built.

Popular Culture in Africa Stephanie Newell, Onookome Okome, 2013-11-12 This volume marks the 25th anniversary of Karin Barber's ground-breaking article, *Popular Arts in Africa*, which stimulated new debates about African popular culture and its defining categories. Focusing on performances, audiences, social contexts and texts, contributors ask how African popular cultures contribute to the formation of an episteme. With chapters on theater, Nollywood films, blogging, and music and sports discourses, as well as on popular art forms, urban and youth cultures, and gender and sexuality, the book highlights the dynamism and complexity of contemporary popular cultures in sub-Saharan Africa. Focusing on the streets of Africa, especially city streets where different cultures and cultural personalities meet, the book asks how the category of the people is identified and interpreted by African culture-producers, politicians, religious leaders, and by the people themselves. The book offers a nuanced, strongly historicized perspective in which African popular cultures are regarded as vehicles through which we can document ordinary people's vitality and responsiveness to political and social transformations.

Public Administration Training in Africa Peter Fuseini Haruna, Shikha Vyas-Doorgapersad, 2014-12-19 There is a growing global interest in Africa and how to improve the quality of life of its people—and for good reason. The world can no longer afford to ignore the democratic changes that have occurred across the continent over the past two decades, changes with tremendous implications for professional education and training for the tasks of nation building. *Public Administration Training in Africa: Competencies in Development Management* presents research findings related to talent and competency development within the framework of public service institutional capacity building. The book focuses on public administration questions as they relate to training, development, and competency building that will strengthen public managers' capacity to implement governance policies and work toward improving development management. It draws on unique national experiences to provide research and scholarship that advance the dialogue on training and development

relevant to African culture and history while at the same time contributing to enhance the field of practice. In addition to offering detailed descriptions and analyses of unique national experiences, the book also integrates transnational issues of training and development and ties the discussions back to the body of knowledge and scholarship defining the field and discipline of public administration. As scholars and experts in their own right, the authors make a reasoned case for rethinking and re-examining training and development in Africa in light of the emerging governance approach to public administration. The comprehensive empirical descriptions and analyses of education and training contexts and cultures written by some of the best minds in the subfield give you the latest research findings and distill relevant experiential and theoretical knowledge, tools, and skills based on case analyses, including carrying out development activity in different cross-cultural contexts.

The Evolution of Path Dependence Lars Magnusson, Jan Ottosson, 2009-01-01 The notion and interpretation of path dependence have been discussed and utilized in various social sciences during the last two decades. This innovative book provides significant new insights onto how the different applications of path dependence have developed and evolved. The authors suggest that there has been a definite evolution from applications of path dependence in the history of technology towards other fields of social science. They also discuss the various definitions of path dependence (strong or weak) and explore the potential applications of path dependence in new areas such as political economy and economic geography. With new perspectives on how the debate surrounding path dependence has evolved, this book will strongly appeal to postgraduate students and scholars of economic history, economic geography, political science and business studies.

Popular Media, Democracy and Development in Africa Herman Wasserman, 2010-10-04 Popular Media, Democracy and Development in Africa examines the role that popular media could play to encourage political debate, provide information for development, or critique the very definitions of 'democracy' and 'development'. Drawing on diverse case studies from various regions of the African continent, essays employ a range of theoretical and methodological approaches to ask critical questions about the potential of popular media to contribute to democratic culture, provide sites of resistance, or, conversely, act as agents for the spread of Americanized entertainment culture to the detriment of local traditions. A wide variety of media formats and platforms are discussed, ranging from radio and television to the Internet, mobile phones, street posters, film and music. As part of the Routledge series Internationalizing Media Studies, the book responds to the important challenge of broadening perspectives on media studies by bringing together a range of expert analyses of media in the African continent that will be of interest to students and scholars of media in Africa and further afield.
