The Palgrave Handbook of African Education and Indigenous Knowledge Jamaine M. Abidogun,Toyin Falola,2020-06-02
This handbook explores the evolution of African education in historical perspectives as well as the development within its three systems—Indigenous, Islamic, and Western education models—and how African societies have maintained and changed their approaches to education within and across these systems. African education continues to find itself at once preserving its knowledge, while integrating Islamic and Western aspects in order to compete within this global reality. Contributors take up issues and themes of the positioning, resistance, accommodation, and transformations of indigenous education in relationship to the introduction of Islamic and later Western education. Issues and themes raised acknowledge the contemporary development and positioning of indigenous education within African societies and provide understanding of how indigenous education works within individual societies and national frameworks as an essential part of African contemporary society.

Contemporary Dimensions in Nigerian Music Charles Aluede,Albert Oikelome,2021-01-04 From ancient to contemporary times, music in the area known as Nigeria has passed through different stages of transmutation. Primarily transmitted through oral means has in the last century received significant scholarly attention. Tecnologias Aplicadas à Mobilidade Urbana Jaqueline Massucheto,2022-03-11 O aumento da população nas áreas urbanas e o consequente espraiamento das cidades são fenômenos crescentes que impactam diretamente a mobilidade. Nesse contexto, como atender de maneira consciente e sustentável às crescentes demandas de mobilidade dos centros urbanos?Esta obra busca discutir conceitos, soluções e ferramentas que são essenciais no caminho para responder a esse

questionamento. No entanto, a resposta não é fácil ou pronta; a única certeza é a de que uma cidade só alcançará esse objetivo quando a acessibilidade a seu espaço acontecer de modo democrático, seguro e eficiente. E as soluções tecnológicas oferecem inúmeras possibilidades de contribuição para tornar esse cenário real, universalizando as cidades e garantindo mobilidade a todas as pessoas.

Metaphrasis in Byzantine Literature Anne Alwis, Martin Hinterberger, Elisabeth Schiffer, 2021-05-08 Throughout the centuries Byzantium's ambitious authors were conscious of the significance of literary registers for the reception of their texts. They deliberately made use of stylistic elements or refrained from using certain features in order to reach their target audience. There are certain groups of texts dating from various periods on which these stylistic elements can be tracked precisely by comparison of two or even more versions with their model text. Such examples of rewriting can be found particularly within genres with a broader audience appeal, namely hagiography and historiography. It is in both genres that we encounter metaphrastic processes, in terms of stylistic elaboration and in terms of stylistic simplification. As well as stylistic reshaping, metaphrasis may also encompass the addition or removal of literary and/or thematic aspects. All these processes signify intent as well as authorial interpretation. Frequently, the ideological orientation of a text is refurbished through rewriting. Teasing out these strands for exploration helps to supply a potential wealth of information on the author (if known), cultural (social, religious, historical) context, and creative ability, as well as levels of education and literacy.

Explaining the Performance of Human Resource Management Steve Fleetwood, Anthony Hesketh, 2011-10-27 Human resource departments increasingly use the statistical analysis of performance indicators as a way of demonstrating their contribution to organisational performance. In this book, Steve Fleetwood and Anthony Hesketh take issue with this 'scientific' approach by arguing that its preoccupation with statistical analysis is misplaced because it fails to take account of the complexities of organisations and the full range of issues that influence individual performance. The book is split into three parts. Part I deconstructs research into the alleged link between people and business performance by showing that it cannot explain the associations it alleges. Part II attributes these shortcomings to the importation of spurious 'scientific' methods, before going on to suggest more appropriate methods that might be used in future. Finally, Part III explores how HR executives and professionals understand their work and shows how a critical realist stance adds value to this understanding through enhanced explanation.

History of the Urhobo People of Niger Delta Peter Palmer Ekeh, Urhobo Historical Society, 2007 History of The Urhobo People of Niger Delta is the most comprehensive compilation and study of various aspects of the history of the Urhobo people of Nigeria's Niger Delta. It begins with an examination of the prehistory of the region, with particular focus on the Urhobo

and their close ethnic neighbour, the Isoko. The book then embarks on a close assessment of the advent of British imperialism in the Western Niger Delta. History of The Urhobo People of Niger Delta also probes the arrival and impact of Western Christian missions in Urhoboland. Urhobo history is notable for the sharp challenges that the Urhobo people have faced at various points of their di?cult existence in the rainforest and deltaic geographical formation of Western Niger Delta. Their history of migrations and their segmentation into twenty-two cultural units were, in large part, e?orts aimed at overcoming these challenges. History of The Urhobo People of Niger Delta includes an evaluation of modern responses to challenges that confront the Urhobo people, following the onrush of a new era of European colonization and introduction of a new Christian religion into their culture. The formation of Urhobo Progress Union and of its educational arm of Urhobo College is presented as the Urhobo response to modern challenges facing their existence in Western Niger Delta and Nigeria. History of The Urhobo People of Niger Delta extends its purview to various other fragments of the Urhobo historical and cultural experience in modern times. These include the di?culties that have arisen from petroleum oil exploration in the Niger Delta in post-colonial Nigeria.

Reinventing the Workplace David Levine, 2010-12-01 What is the future shape of the American workplace? This question is the focus of a national debate as the country strives to find a system that provides a good standard of living for workers while allowing U.S. businesses to succeed at home and compete abroad. In this book, David Levine uses case studies

and extensive evidence to show that greater employee involvement in the workplace can significantly increase both productivity and worker satisfaction. Employee involvement has many labels, including high-performance workplaces, continuous improvement, or total quality management. The strongest underlying theme is that frontline employees who are actually performing the work will always have insights about how to improve their tasks. Employee involvement includes a range of policies that, at the minimal end, permit workers to suggest improvement, and at the substantive end, create an integrated strategy to give all employees the ability, motivation, and authority to constantly improve the organization's operations. Despite the evidence of its benefits, substantive employee involvement remains the exception in the U.S. work force. Levine explores the obstacles to its spread, which include legal barriers, capital markets that discourage investment in people, organizational inertia, and the costs of implementation. Levine concludes with specific public policy recommendations for increasing the extent of employee involvement, including changes in government regulation of capital and labor markets to encourage long-term investment and labor-management cooperation. He recommends macroeconomic policies to sustain high employment, less regulation for high-involvement workplaces, and training in schools and on the job to teach high-involvement practices. He also suggests new roles for unions and provides a checklist for employers to assess their progress in implementing employee involvement. David I. Levine was on the staff of President Clinton's Council of Economic Advisers and an associate professor in the Haas School of Business at the University of California, Berkeley. Selected as a Noteworthy Book in Industrial Relations and Labor Economics by the Firestone Library, Princeton University

The Handbook of Climate Change Resilience comprises a diverse body of knowledge, united in the objective of building climate resilience in both the industrialised and the developing world. This

unique publication will assist scientists, decision-makers and community members to take action to make countries, regions and cities more resilient.

Interregional Travel National Academies of Sciences, Engineering, and Medicine, Transportation Research Board, Policy Studies, Committee for a Study of Intercity Passenger Travel Issues and Opportunities in Short-Haul Markets, 2016-04-07 TRB Special Report 320: Interregional Travel: A New Perspective for Policy Making examines the demand for and supply of interregional transportation in the United States. Major additions to transportation infrastructure, including high-speed rail, are being considered for some of the country's most heavily traveled 100- to 500-mile corridors. The availability and use of the automobile, airplane, and train for interregional travel are reviewed along with the rejuvenated intercity bus. U.S. interregional corridors and transportation options are contrasted with those in Japan and Europe, where substantial investments have been made in passenger rail. Public investments in new, long-lived transportation infrastructure can be risky because of uncertainty about future demand and the development of new technologies and competing transportation services. Decisionmakers in interregional corridors face the added challenge of having to coordinate investments across multiple jurisdictions. The report recommends actions to reduce this uncertainty and create stronger institutional means for developing the country's interregional corridors. TR News 303 features an article on Interregional Travel: A New Perspective for Policy Making. A video about the research is now available: At the 2016 TRB Annual Meeting, January 10-14, 2016, a session entitled Interregional Travel: Policymaking from a New Perspective was webcast live. These videos provide an overview of various components of the project. Peace Studies and Conflict Resolution in Nigeria Miriam Ikejiani-Clark, 2009

Gender, Peace and Conflict Inger Skjelsboek, Dan Smith, 2001-03-22 Gender is increasingly recognized as central to the study and analysis of the traditionally male domains of war and international relations. The book explores the key role of gender in peace research, conflict resolution and international politics. Rather than simply add gender and stir the aim is to transcend different disciplinary boundaries and conceptual approaches to provide a more integrated basis for research and study. To this end Gender, Peace & Conflict uniquely combines theoretical chapters alongside empirical case studies, to demonstrate the importance of a gender perspective to both theory and practice in conflict resolution and peace research.
