Politics in West Africa William Arthur Lewis,1965 Study of political activity in West Africa.

The State in Africa Jean-François Bayart,1993 Examines the role and structure of the state in Africa. Amongst the areas

considered are: the genesis of the state; the decision to pursue conservative modernization or social revolution; the formation of an historic postcolonial bloc; and entrepreneurs, factions and political networks.

The Essence of Research Methodology Jan Jonker, Bartjan Pennink, 2010-03-10 Methodology is the field which is indisputably complex. In the academic world, it is often said to be important, yet in everyday academic practice, it is not always treated accordingly. In teaching, methodology is often a mandatory course. Usually, it consists of learning how to adopt several common approaches when doing research, and how to conceive a research design (often leading to a survey). This usually leads to collecting data on a modest scale and - when the opportunity arises - analysing the data with the help of some statistics. Ask the students of their opinion at the end of such a course and they tend to heave a deep sigh of relief and say, "I have got through it." Then their real courses start again, in which methodology often does not play a role at all. We are of the opinion that writing-off methodology in this way is a real pity. It ignores the valuable role that methodology should play in academic teaching as a whole. Here, methodology is presented as a form of thinking and acting that, while obviously entailing research work, can also include the design and change of organisations. This broad approach has been purposefully chosen, as it is almost obvious from research and graduation projects that the students do not really have a clue what methodology involves and, therefore, wasting their time by producing work that has a little quality.

International Financial Reporting Standards 2012, 2012 The globalisation of capital markets has led to a sharp increase in the importance of International Financial Reporting Standards (IFRS) of the International Accounting Standards Board (IASB). The breakthrough of IFRS in the European Union (EU) occurred with the approval of the so-called IAS Regulation by the European Parliament and the Council of the European Union. In one fell swoop, 7,000 companies were thus obliged to apply the standards of the IASB. This compact book contains all the official International Financial Reporting Standards (IFRS), International Accounting Standards (IAS) and Interpretations (SICs, IFRICs), approved by the European Union and thus mandatory for companies operating in capital markets. A handy reference for accountants, tax advisors, IFRS consultants, and companies applying IFRS.

My Nigeria Peter Cunliffe-Jones, 2010-09-14 His nineteenth-century cousin, paddled ashore by slaves, twisted the arms of tribal chiefs to sign away their territorial rights in the oil-rich Niger Delta. Sixty years later, his grandfather helped craft Nigeria's constitution and negotiate its independence, the first of its kind in Africa. Four decades later, Peter Cunliffe-Jones arrived as a journalist in the capital, Lagos, just as military rule ended, to face the country his family had a hand in shaping. Part family memoir, part history, *My Nigeria* is a piercing look at the colonial legacy of an emerging power in Africa. Marshalling his deep knowledge of the nation's economic, political, and historic forces, Cunliffe-Jones surveys its colonial past and explains why British rule led to collapse at independence. He also takes an unflinching look at the complicated

country today, from email hoaxes and political corruption to the vast natural resources that make it one of the most powerful African nations; from life in Lagos's virtually unknown and exclusive neighborhoods to the violent conflicts between the numerous tribes that make up this populous African nation. As Nigeria celebrates five decades of independence, this is a timely and personal look at a captivating country that has yet to achieve its great potential.

Accounting; a Book of Readings Gerhard G. Mueller,1970

Corporate Governance Elaine Sternberg,2004 Corporate governance has come to prominence in recent years because of the perceived political importance of issues such as executive pay and apparent accounting scandals. As might be expected in this frenzied climate, politicians have reacted. US politicians reacted with particular speed through the passing of the Sarbanes-Oxley Act. Dr Elaine Sternberg brings some sobriety and clear thinking to the debate in this new and fully revised edition of *Corporate Governance: Accountability in the Marketplace*, lucidly defining the purposes of corporate governance and analysing different models of corporate regulation. The Anglo-American model allows corporations to fulfil their corporate purposes more effectively than the stakeholder or the German/Japanese models. Given that problems of executive pay, accounting scandals and so on result in corporations not achieving their proper purposes, Sternberg finds that a change in the regulatory model cannot be the answer. Instead, she proposes that we should look at the ways in which regulation prevents the Anglo-American model from working in practice as effectively as it should in theory. Sternberg shows how a genuine 'market' in corporate governance could be created so that firms had to compete for funds, with their mode of governance being one of the attractions to potential shareholders.

The Land and People of Rivers State Ebiegberi Joe Alagoa,Abi A. Derefaka,2002 This is a comprehensive reference work, and a unique and original compendium of knowledge and analysis on Nigeria's Rivers State from the distant past to recent times. It includes contributions from some fifty scholars on diverse subjects relating to aspects of the lives, history and environment of the peoples of Rivers State. The material is organised into sections on the environment, peoples and cultures, the arts, history, politics, economics, social services and gender. As a whole, the work is concerned with the rights of minorities in Nigeria and for indigenous control over natural and human resources. It aims to present the cases of the peoples of the Niger delta to the world from an insider's perspective, and articulate a sense of their political, human rights, and humanitarian concern in an objective and academic format. A companion volume to *Land and People of Bayelsa State: Central Niger Delta* (1999).

Reconciliation John W. De Gruchy, Whether born in the Mideast, Africa, Asia, or brought home to the streets of America, violent hatreds often threaten to swamp the minimal cooperation needed to foster life and health. Does Christianity have anything besides warmed-over pieties to offer a world torn by estrangement, alienation, and violently opposed worldviews? In this signal contribution to public theology, John de Gruchy, an internationally esteemed political theologian,

emphatically affirms the possibility and necessity of reconciliation. For Christians, he says, reconciliation is the center and perennial test of their faith. De Gruchy expands reconciliation's relevance beyond personal piety and ecclesial harmony to encompass group relations, politics, and even the environment. In all cases, he argues, it involves the restoration of justice. Forged in the recent experience of South Africa, his work delineates the political and ecclesial significance of reconciliation and shows its importance for interreligious relations, addressing victimization, and international peace. Reconciliation will be welcomed by all whose faith leads them to help alleviate the world's mounting agonies.

Breaking the Conflict Trap World Bank,2003-05-30 Civil war conflict is a core development issue. The existence of civil war can dramatically slow a country's development process, especially in low-income countries which are more vulnerable to civil war conflict. Conversely, development can impede civil war. When development succeeds, countries become safer when development fails, they experience a greater risk of being caught in a conflict trap. Ultimately, civil war is a failure of development. 'Breaking the Conflict Trap' identifies the dire consequences that civil war has on the development process and offers three main findings. First, civil war has adverse ripple effects that are often not taken into account by those who determine whether wars start or end. Second, some countries are more likely than others to experience civil war conflict and thus, the risks of civil war differ considerably according to a country's characteristics including its economic stability. Finally, *Breaking the Conflict Trap* explores viable international measures that can be taken to reduce the global incidence of civil war and proposes a practical agenda for action. This book should serve as a wake up call to anyone in the international community who still thinks that development and conflict are distinct issues.

Understanding Civil War: Europe, Central Asia, and other regions Paul Collier,Nicholas Sambanis,2005-01-01 Annotation VOLUME I: Africa VOLUME II: Europe, Central Asia, and Other Regions (volumes sold separately) This is a superb manuscript, and one that will become a standard reference in the field for students of conflict and civil war. Robert Bates, Eaton Professor of the Science of Government, Harvard University The two volumes of *Understanding Civil War* build upon the World Bank's prior research on conflict and violence, particularly on the work of Paul Collier and Anke Hoeffler, whose model of civil war onset has sparked much discussion on the relationship between conflict and development in what came to be known as the greed versus grievance debate. The authors systematically apply the Collier-Hoeffler model to 15 countries in 6 different regions of the world, using a comparative case study methodology to revise and expand upon economic models of civil war. The book concludes that the greed versus grievance debate should be abandoned for a more complex model that considers greed and grievance as inextricably fused motives for civil war. regions of Somalia. Conflict in Somalia examines the results of the study and offers recommendations for reconstruction and development assistance that takes the knowledge on conflict into account.

The Yearning for Relief Klaas van Walraven,2013-02-05 The Sawaba movement and its rebellion in Niger are a totally

neglected subject. Klaas van Walraven traces this story from a social history perspective, placing an entire generation of activists, removed from the official record, back into mainstream Nigérien history. Representing a genuine social movement, Sawaba formed Niger's first autonomous government under French suzerainty. Overthrown by the Gaullists and persecuted, it attempted a comeback with a guerrilla campaign (1960-1966), which ended in failure and led to the movement's destruction. *The Yearning for Relief* – based on numerous interviews with survivors and a vast range of archival sources, including France's secret service – is essential reading for the reappraisal of Niger's history and the role of militant nationalist movements in the decolonisation of French West Africa.

Oil and Terrorism in the New Gulf James J.F. Forest, Matthew V. Sousa, 2006-03-07 *Oil and Terrorism in the New Gulf* examines the national security implications of U.S. energy security policies in the Middle East, and the emerging U.S. involvement in oil exploration and extraction in West Africa. Similar political, social, and economic challenges – poverty, corruption, lack of infrastructure, and weak governments – are seen in the oil-producing states of both the Middle East and Africa. Drawing comparisons between these two regions allows Forest and Sousa to formulate policy recommendations for how to handle foreign policy toward Africa in the future based on lessons learned from past interaction with the Middle East. *Oil and Terrorism in the New Gulf* promises to inform a lively debate over the future of U.S. foreign policies toward Africa and is a valuable resource for policymakers and the academic community that should be approached in a coherent, integrated fashion to ensure the success of the United State's energy and national security agendas.

Crude Chronicles Suzana Sawyer, 2004-06-07 Ecuador is the third-largest foreign supplier of crude oil to the western United States. As the source of this oil, the Ecuadorian Amazon has borne the far-reaching social and environmental consequences of a growing U.S. demand for petroleum and the dynamics of economic globalization it necessitates. *Crude Chronicles* traces the emergence during the 1990s of a highly organized indigenous movement and its struggles against a U.S. oil company and Ecuadorian neoliberal policies. Against the backdrop of mounting government attempts to privatize and liberalize the national economy, Suzana Sawyer shows how neoliberal reforms in Ecuador led to a crisis of governance, accountability, and representation that spurred one of twentieth-century Latin America's strongest indigenous movements. Through her rich ethnography of indigenous marches, demonstrations, occupations, and negotiations, Sawyer tracks the growing sophistication of indigenous politics as Indians subverted, re-deployed, and, at times, capitulated to the dictates and desires of a transnational neoliberal logic. At the same time, she follows the multiple maneuvers and discourses that the multinational corporation and the Ecuadorian state used to circumscribe and contain indigenous opposition. Ultimately, Sawyer reveals that indigenous struggles over land and oil operations in Ecuador were as much about reconfiguring national and transnational inequality—that is, rupturing the silence around racial injustice, exacting spaces of accountability, and rewriting narratives of national belonging—as they were about the material use and extraction of rain-forest resources.

The Slave Trade and Culture in the Bight of Biafra G. Ugo Nwokeji, 2010-09-13 The Slave Trade and Culture in the Bight of Biafra dissects and explains the structure, dramatic expansion, and manifold effects of the slave trade in the Bight of Biafra. By showing that the rise of the Aro merchant group was the key factor in trade expansion, G. Ugo Nwokeji reinterprets why and how such large-scale commerce developed in the absence of large-scale centralized states. The result is the first study to link the structure and trajectory of the slave trade in a major exporting region to the expansion of a specific African merchant group - among other fresh insights into Atlantic Africa's involvement in the trade - and the most comprehensive treatment of Atlantic slave trade in the Bight of Biafra. The fundamental role of culture in the organization of trade is highlighted, transcending the usual economic explanations in a way that complicates traditional generalizations about work, domestic slavery, and gender in pre-colonial Africa.
