*Mavericks on the Border* J. Douglas Canfield, 2021-11-21 Twentieth-century authors and filmmakers have created a pantheon of mavericks—some macho, others angst-ridden—who often cross a metaphorical boundary among the literal ones of Anglo, Native American, and Hispanic cultures. Douglas Canfield examines the concept of borders, defining them as the space between states and cultures and ideologies, and focuses on these border crossings as a key feature of novels and films about the region. Canfield begins in the Old Southwest of Faulkner's Mississippi, addressing the problem of slavery; travels west to North Texas and the infamous Gainesville Hanging of Unionists during the Civil War; and then follows scalpers into the Southwest Borderlands. He then turns to the area of the Gadsden Purchase, known for its outlaws and Indian wars, before heading south of the border for the Yaqui persecution and the Mexican Revolution. Alongside such well-known works as *Go Down Moses*, *The Wild Bunch*, *Broken Arrow*, *Gringo Viejo*, and *Blood Meridian*, Canfield discusses novels and films that tell equally compelling stories of the region. Protagonists face various identity crises as they attempt border crossings into other cultures or mindsets—some complete successful crossings, some go native, and some fail. He analyzes figures such as Geronimo, Doc Holliday, and Billy the Kid alongside less familiar mavericks as they struggle for identity, purpose, and justice.

**Forensic Autopsy** Cristoforo Pomara, Steven B. Karch, Vittorio Fineschi, 2010-02-18 All too often, forensic pathologists perform autopsies that are limited only to the body parts that are suspect, leading to biased and inaccurate results. **Theodore of Mopsuestia** Frederick McLeod, 2009-03-04 This addition to the Early Church Fathers series provides in one place new extensive translations of Theodore's major extant works that have not been available in English up unto the present. It also summarizes the secondary literature and discusses at length the fundamental features of his theological thinking, especially regarding his method of exegesis and his functional stress on the union of Christ's natures as occurring in 'one common prosopon.'

Biology and Ecology of Pharmaceutical Marine Tunicates Ramasamy Santhanam, Santhanam Ramesh, 2019-10-10 The ocean is a source of unique natural products, mainly accumulated in living organisms. The c.4000 species of tunicates or sea squirts (Phylum, Chordata; Subphylum, Urochordata) are a high-potential yet under-studied source of bioactive compounds for pharmaceuticals. The secondary metabolites such as alkaloids isolated from these organisms have led to the discovery of an approved anti-tumor drug, anti-cancer drugs Yondelis® and Aplidin®, as well as many others in clinical trial. There is an urgent need for more research on the bioactive compounds of marine tunicates and better knowledge about the identification and biology of these species. This is the first focused book to meet this need. The taxonomy, common name, global distribution, habitat, diagnostic features and pharmaceutical compounds (along with their activities) of 165 key species of tunicates are given, with high-quality illustrations. Contributed by scientists of both Marine Biology and Pharmacy disciplines, this book will serve as a standard reference for researchers, teachers and students of Fisheries Science, Marine Biology, Life Sciences, Biotechnology, Natural Products, and Pharmacy, and as a valuable guide for pharmaceutical companies involved in the development of new drugs from marine organisms.

*Women in Jazz* Marie Buscatto, 2021-12-30 *Women in Jazz: Musicality, Femininity, Marginalization* examines the invisible discrimination against female musicians in the French jazz world and the ways in which women thrive as professionals despite such conditions. The author shines a light on the paradox for women in jazz: to express oneself in a feminine way is to be denigrated for it, yet to behave in a masculine manner is to be devalued for a lack of femininity. This masculine world ensures it is more difficult for women to be recognized as jazz musicians than it is for men - even when musicians, critics and audiences are ideologically opposed to discrimination. Female singers are confined by the feminine stereotypes of their profession, while female instrumentalists must comport themselves into traditionally masculine roles. The author explores the academic and professional socializations of these musicians, the musical choice they make and how they are perceived by jazz professionals as a result. First published in French by CNRS Editions in 2007 (and later reissued in paperback in 2018, with the author's postscript that nothing much has changed), *Women in Jazz: Musicality, Femininity, Marginalization* expands the conversation beyond the French border, identifying female jazz musicians as a discriminated minority all around the world.

**Comparative Federalism and Covid-19** Nico Steytler, 2021-10-27 This comprehensive scholarly book on comparative federalism and the Covid-19 pandemic is written by some of the world's leading federal scholars and national experts. The Covid-19 pandemic presented an unprecedented emergency for countries worldwide, including all those with a federal or hybrid-federal system of government, which account for more than 40 per cent of the world's population. With case studies from 19 federal countries, this book explores the core elements of federalism that came to the fore in combatting the pandemic: the division of responsibilities (disaster management, health care, social welfare, and education), the need for centralisation, and intergovernmental relations and cooperation. As the pandemic struck federal countries at roughly the same time, it provided a unique opportunity for comparative research on the question of how the various federal systems responded. The authors adopt a multidisciplinary approach to question whether federalism has been a help or a hindrance in tackling the pandemic. The value of the book lies in understanding how the Covid-19 pandemic affected federal dynamics and how it may have changed them, as well as providing useful lessons for how to combat such pandemics in federal countries in the future. This book will be of great interest to students and scholars of politics and international relations, comparative federalism, health care, and disaster management. *Beyond al-Qaeda: Part 1, The Global Jihadist Movement* Angel Rabasa, Peter Chalk, Kim Cragin, Sara A. Daly, Heather S. Gregg, 2002-10-14 Examines al-Qaeda's evolution and the emergence of the broader global jihadist movement-groups affiliated, associated, or inspired by al-Qaeda-and the threat that they pose to the United States and U.S. allies and interests. **War and the Crisis of Youth in Sierra Leone** Krijn Peters, 2011-03-28 The armed conflict in Sierra Leone and the extreme violence of the main rebel faction - the Revolutionary United Front (RUF) - have challenged scholars and members of the international community to come up with explanations. Up to this point, though, conclusions about the nature of the war are mainly drawn from accounts of civilian victims and commentators who had access to only one side of the war. The present study addresses this currently incomplete understanding of the conflict by focusing on the direct experiences and interpretations of protagonists, paying special attention to the hitherto neglected, and often underage, cadres of the RUF. The data presented challenges the widely canvassed notion of the Sierra Leone conflict as a war motivated by 'greed, not grievance'. Rather, it points to a rural crisis expressed in terms of unresolved tensions between landowners and marginalized rural youth, further reinforced and triggered by a collapsing patrimonial state.

*Crisis and Intervention in Sierra Leone* Abdul Karim Koroma,2004

**Peace Agreements** C. Knudsen,A. Mundt,I. William Zartman,2000 Bogen konkluderer, at der først vil blive fred i Angola, når ingen af de krigsførende parter er i stand til at føre krig mod hinanden.10 års forgæves forsøg på ad forhandlingens vej at opnå fred må erstattes af effektive modforholdsregler over for det sorte marked i Afrika, kontrol med strømmen af varer ind og ud af Angola og overholdelsen af embargoen over for UNITA.

**Using Conflict Theory** Otomar J. Bartos,Paul Wehr,2002-07-15 Using Conflict Theory presents how and why conflict erupts, and how it can be managed.

**Parish Transformation in Urban Slums** Christine Bodewes,2005 The poverty of people living in urban slums in Kenya and other parts of sub-Saharan Africa is one of the greatest scandals of our time. Much has been written about the causes of poverty, yet there seems to be little improvement. One reason for this failure is that many programmes are focused on doing something for the poor but not with the poor. Through a two-year process of social analysis and theological reflection, the parishioners of Christ the King Catholic Church in Kibera slum examined the many injustices facing them in their daily lives. The aim of the parish was to better understand the reality of life in Kibera so that it could people improve their lives in a more responsive and holistic way. This book is a summary of the parish's findings. In their own words, parishioners describe their history, living conditions, socio-economic problems, parish life and African culture that are particular to Kibera. It is a unique perspective because parishioners evaluated these problems in the light of their faith. As a Christian community, parishioners made a plan and have begun their own initiatives to resolve the most serious injustices facing them. This is an important resource for people working in slums.--p. 4 of cover.
