NAUTICAL ALMANAC FOR THE YEAR, 2019 GOVERNMENT PUBLICATIONS OFFICE.,2018 For over 150 years the United States Nautical Almanac Office has published The Nautical Almanac, first as part of the American Ephemeris and Nautical Almanac, and then on its own, to provide the US Navy with a convenient form of the astronomical data used for celestial navigation. This book is still the standard resource for marine celestial navigation for the U.S. Navy. The book is produced in collaboration with Her Majesty's Nautical Almanac Office, part of the U.K. Hydrographic Office. That Office maintains the copyright on the material it produces. The Nautical Almanac contains the following data tabulated at hourly intervals to a precision of 0.1 arcminute: the Greenwich hour angle and declination of the Sun, Moon, and navigational planets; the Greenwich hour angle of Aries; positions of the navigational stars; rise and set times of the Sun and Moon for a range of latitudes; and other data. Each edition also contains a sight reduction table; sight reduction formulas; and various correction tables for sight reduction. There is a useful concise sight reduction form at the back of the book. The Nautical Almanac is available several months in advance of its edition date.

Geopolitics of the New Middle East Şaban Kardaş,Bülent Aras,2023-06-26 This edited book takes a critical look at the geopolitics of the broader Middle East and North Africa (MENA) region. It scrutinizes some of the perennial issues shaping the regional security agenda, as well as the emerging geopolitical trends in the wake of a decade of turmoil triggered by the demands for political and economic reforms. The contributors explore the geopolitical implications of the structural transformation process in the MENA region and beyond, which has unleashed destabilizing forces and multifaceted conflicts, with the involvement of many local, regional and global actors. They also look at how some of the regional actors have reacted to the risks and security challenges produced by the wave of instability and conflicts, and conducted their foreign policy in this volatile period of fluid alliances. Other contributors explore the roles and perspectives of major extra-regional actors, delving deeper into how they have adjusted their policies towards the emergence of a new order and reshuffling of alignments. This book will be of interest to researchers and advanced students of politics, international relations, and political geography. It was originally published as a special issue of the Journal of Balkan and Near Eastern Studies.
