A Dictionary of South African English on Historical Principles Rhodes University. Dictionary Unit for South African English 1996 A Dictionary of South African English is the fullest ever study of the English language in South Africa. The result of 25 years of work, this dictionary has been researched and written according to historical principles. However, as well as recording examples of South African English going back to the sixteenth century, the dictionary also provides an insight into the dramatic political and cultural changes in South Africa's history by examining the country's ever changing language right up to the present day. Research into language has involved the contributions of hundreds of individual South Africans, as well as extensive research into all other forms of the written and spoken language. Diverse and informative entries include robot (a traffic light), bakkie (a small truck), bond (a mortgage), and brinjals (aubergines). The dictionary includes such areas as children's slang, the vocabulary of soldiers, the mines, local music terms, the townships, food, and a detailed look at the complex language of apartheid. English words originating from all the country's groups are recorded, including words from Dutch/Afrikaans, the Malayo-Indonesian languages, the Indian, Khoisan, Nguni, and Sotho languages.

**Double Impact (No Shelter & Bullet Rain)** Robert Swartwood 2017-08-08 From USA Today bestselling author Robert Swartwood, the first two books in the Holly Lin series bundled together for the very first time! NO SHELTER Holly Lin is living two lives. To her friends and family, she's a pleasant, hardworking nanny. To her boss and colleagues, she's one of the best non-sanctioned government assassins in the world. But when a recent mission goes wrong causing one of her team members to die, she realizes she might no longer be cut out for the work – except the mission, as it turns out, is only half over, and to complete it will take her halfway across the world and bring her face to face with a ghost from her past. Things are about to get personal. And as Holly Lin's enemies are about to find out, she is not a nanny they want to piss off. BULLET RAIN Nova is a free man. Having just walked away as a non-sanctioned hit man for the U.S. government, he's purchased a classic Mustang to drive across the country. But when his car breaks down in the middle of the Nevada desert, Nova ends up in the small town of Parrot Spur. There's something strange about Parrot Spur. Something ... off. Maybe it's the fact the town is full of ex-servicemen. Maybe it's the fact the abandoned mine might not be abandoned. Maybe it's the fact the knockout brunette in the bar is clearly more than what she seems. In the end, none of it matters. What matters – and what Nova is soon going to learn – is that in the desert, the only thing that rains is bullets.

**Dictionary of Jamaican English** Frederic G. Cassidy 2002 The method and plan of this dictionary of Jamaican English are basically the same as those of the Oxford English Dictionary, but oral sources have been extensively tapped in addition to detailed coverage of literature published in or about Jamaica since 1655. It contains information about the Caribbean and its dialects, and about Creole languages and general linguistic processes. Entries give the pronunciation, part-of-speech and usage of labels, spelling variants, etymologies and dated citations, as well as definitions. Systematic indexing indicates the extent to which the lexis is shared with other Caribbean countries.

**Introducing Translational Studies** George Pierce 2018-06-12 Translation is always a text about a text and hence it is a metatext. We translate by intuition. There is no 'Science of translating' though there are scientific theories of translation. In this book, the author has made a thorough analysis of various aspects of translation studies-both in the east and the west. Apart

from making a background study of translation, he has analysed translation as creative writing, as linguistic bridge-building and as nation building. The book provides an authoritative steer to key approaches in translation studies. Each chapter gives an in-depth account of theoretical concepts, issues and studies. This is an intense and well researched book on translation studies in our country
