Pre-Gratian Medieval Canonical Collections Szabolcs Anzelm Szuromi,2014-10-06 The canonical collections took their starting point from the 'sacred law' (ius sacrum) characteristic of canon law, since its norms promote the sanctification of the individual persons. This principle was the basis for the compilation of the so-called Pre-Gratian canon law collections, too. In the recent research, there have arisen new stresses on the better understanding of how this textual development of canonical collections had happened prior the Decretum Gratiani. An original canonical textual witness testifies about the circumstances of its origin, and, indeed, about the physical effects on the text during daily usage. The endeavor to issue the complete canon law did not mean only the composition of the universal canonical norms, but also the gathering of the particular norms, inveterate customs, or theological statements that could set the contents of the ecclesiastical discipline in the proper light.

The Canon Debate Lee Martin McDonald,James A. Sanders,2001-12-01 What does it mean to speak of a canon of scripture? How, when, and where did the canon of the Hebrew Bible come into existence? Why does it have three divisions? What canon was in use among the Jews of the Hellenistic diaspora? At Qumran? In Roman Palestine? Among the rabbis? What Bible did Jesus and his disciples know and use? How was the New Testament canon formed and closed? What role was played by Marcion? By gnostics? By the church fathers? What did the early church make of the apocrypha and pseudepigrapha? By what criteria have questions of canonicity been decided? Are these past decisions still meaningful faith communities today? Are they open to revision? These and other debated questions are addressed by an international roster of outstanding experts on early Judaism and early Christianity, writing from diverse affiliations and perspectives, who present the history of discussion and offer their own assessments of the current status. Essays in this collection probe the canonical process: Why were certain books, but not others, included in the canon? What criteria were used to select the books of the canon? Was canonization a divine fiat or human act? What was the nature of the authority of the laws and narratives of the Torah? How did prophecy come to be included in the canon? Others reflect on the consequences of canonization: What are the effects in elevating certain writings to the status of "Holy Scriptures"? What happens when a text is included in an official list? What theological and hermeneutical questions are at stake in the fact

of the canon? Should the canon be unsealed or reopened to include other writings? Features: Essays that contribute to our understanding of the complex processes of canonization Exploration of early concepts of canonicity Discussion of reopening the New Testament canon

The Muratorian Fragment and the Development of the Canon Geoffrey Mark Hahneman, 1992 The Muratorian Fragment, traditionally dated at the end of the second century, is by far the earliest known list of books of the New Testament. It is therefore an important milestone in understanding the formation of the Christian canon of scriptures. The traditional date of the fragment, however, was questioned in 1973 by Albert C. Sundberg, Jr, in an article of the Harvard Theological Review that has since been generally ignored or dismissed. In this book, Hahneman re-examines the traditional dating of the fragment in a complete and extensive study that concurs with Sundberg's findings. Arguing for a later placing of the fragment, Hahneman shows that the entire history of the Christian Bible must be recast as a much longer and more gradual

process. As a result, the decisive period of canonical history moves from the end of the second century into the midst of the fourth. As a decisive contribution to our understanding of the development of the New Testament canon, this book will be of considerable importance and interest to New Testament scholars and historians of the early Church.
